**PRIMARY SIX BEGINNING OF TERM TW0 EXAMINATION**

2026

# MATHEMATICS

***Time Allowed: 2 hours 30 minutes***

**Pupil's Name: ...**...............................................................................................

**Pupil's Signature:** ....................................................................................

**School Name:** ..............................................................................................

**District Name:**................................................................................................

**Read the following instructions carefully:**

1. Do not forget to write your **school** and **district name** on this paper.
2. This paper has two sections: **A** and **B**. Section **A** has **20** questions and Section **B** has **12** questions. The paper has **12 printed pages** altogether
3. Answer **all** questions. **All** the working for both sections **A** and **B** must be shown in the spaces provided.
4. **All** working must be done using a **blue** or **black** ball point pen or ink. Any work done in pencil other than graphs and diagrams will **not** be marked.
5. **No calculators** are allowed in the examination room.
6. Unnecessary **changes** in your work and handwriting that cannot easily be read may lead to loss of marks.
7. Do not fill anything in the table indicated: **"For Examiners' Use only"** and boxes inside the question paper.

| **FOR EXAMINERS´ USE ONLY** | | |
|---|---|---|
| **Qn.No.** | **MARKS** | **EXR´S NO.** |
| 1 - 5 | | |
| 6 - 10 | | |
| 11 - 15 | | |
| 16 - 20 | | |
| 21 - 22 | | |
| 23 - 24 | | |
| 25 - 26 | | |
| 27 - 28 | | |
| 29 - 30 | | |
| 31 - 32 | | |
| **TOTAL** | | |

## SECTION A: 40 MARKS

Answer **all** questions in this Section

Questions **1** to **20** carry two marks each

1. Work out : 12 + 57.

2. Write 149 in words.

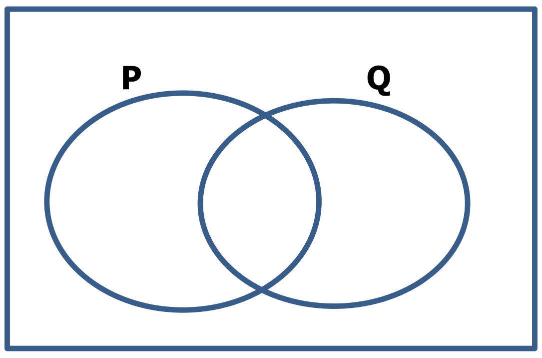
   ……………………………………………………………………………………………………

   ……………………………………………………………………………………………………

3. Given that $\mathrm{p} = 3$ *and* $\mathrm{r} = 10$. Find the value of $2\mathrm{p} + \mathrm{r}$

4. Express 6406 in expanded form.

5. In the diagram below, shade P ∩ Q.



6. Simplify: $\frac{1}{2} + \frac{3}{4}$

7. In a market, 2 counter books cost sh. 3,200 find the cost of 3 similar counter books.

8. Using a protractor, draw an angle of $60^0$ in the space below.

9. Find the least number of mangoes that can be shared by 12 girls and 20girls without leaving any remainder.

10. Find the area of a rectangular flower garden that measures 10m by 7m.

**Turn Over**

11. Heleb is 4 years younger than Vicky who is 15 years Calculate their total age.

12. On a certain day, Teacher Grace found out that 13 pupils were absent in a class of 62 pupils. Express the number of pupils who were present in Roman numerals.

13. Find the next number in the sequence below.

2, 3, 5, 7, ……………………………………………….

14. A motorist drove at a speed of 45km/h for 6 hours. What distance did he cover?

15. How many 500 shilling coins can be obtained from a twenty thousand shillings note?.

16. In a line of prefects, the head girl was the $17^{th}$ from either side. How many prefects were in the line?

17. Add: $101_{two} + 110_{two}$.

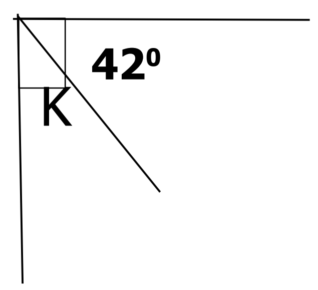
18. The table below shows the number of eggs collected from Nabintu's' poultry farm during the holy week.

| Day | Mon. | Tues. | Wed. | Thur. | Fri. |
|---|---|---|---|---|---|
| No. of eggs | 27 | 48 | 29 | 52 | 29 |

Find the median number of eggs collected during that week.

19. During district council elections, Peter got 4,673 votes which were later rounded off to the nearest hundreds during results declaration. How many votes were declared for Peter?

20. Find the size of angle k in the diagram below.



*Turn Over*

## SECTION B: 60 MARKS

Answer **all** questions in this section

Marks for each question are indicated in brackets.

21. At a birthday party attended by 62 guests,36 ate matooke (M), 27 ate rice (R), w guests ate both while 9 guests ate none of the foodstuffs.

(a) Represent the above given data on a well-drawn Venn diagram. (03 Marks)

(b) Find the number of guests who ate both foodstuffs. (02 Marks)

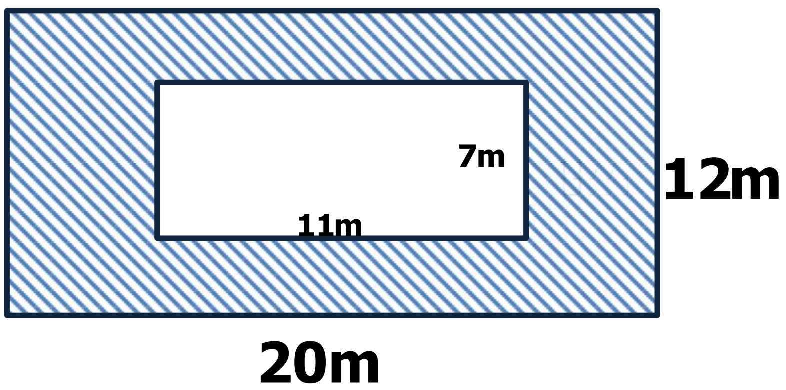
22. (a) A box contains 42 apples of which 18 are raw and the rest are ripe. If an apple is selected at random from the box. Find the probability of picking a ripe apple. (03 Marks)

(b) Tracy will celebrate her birthday next week. What is the chance that her birthday will be celebrated on a day starting with letter T? (02 Marks)

23. (a) Work out: $324_{five} - 133_{five}$. (02 Marks)

(b) Convert $134_{five}$ to base ten. (03 Marks)

**24. Study the figure below and answer the questions that follow.**



(a) Workout the area of the outer part. (02 Marks)

(b) Find the area of the shaded region. (03 Marks)

*Turn Over*

25. (a) In a race, Achen covered $\frac{2}{3}$ of a 900 metre road.
What distance did she cover? (02 Marks)

(b) Convert: 2 km to m (02 Marks)

26. (a) Solve: $3h + 8 = 20$ **(02 Marks)**

(b) What number must be multiplied by 20 to obtain 100? (03 Marks)

27. (a) Using a ruler, a pencil and a pair of compasses only, construct a triangle PQR in which PQ =QR =RP = 7cm.

(04 Marks)

(b) Measure angle PRQ.

Angle PRQ = **.......................................................** (01 Mark)

28. The Marks below were scored by candidates in a test.

45%, 80%, 40%, 60% 45% and 54%.

(a) Find the range of marks. (01 Mark)

(b) Calculate the median mark. (02 Marks)

(c) Work out the mean mark. (02 Marks)

***Turn Over***

29. Betty went to the shop and bought the items shown in the table below.

(a) Complete the table correctly. (04 Marks)

| **Quantity of the item** | **Unit Cost** | **Total Cost** |
|---|---|---|
| 3 litres of cooking oil | Sh.2,500 | Sh. ............... |
| ......... Mathematical sets | Sh.4,000 | Sh.12,000 |
| $2\frac{1}{2}$kg of rice | Sh. 4,800 | Sh. ............... |
| TOTAL EXPENDITURE | | Sh. .............. |

(b) Calculate her change if she went with 2-twenty thousand shillings notes.

(02 Marks)

30. (a) Work out the greatest common factor (GCF) of 18 and 24. 02 Marks)

(b) Prime factorise 36 and give your answer in superscript form. 03 Marks)

31. (a) Work out: $^{-}6 - {}^{-}7$ (02 Marks)

(b) Allan moved 2 steps upwards and then 5 steps downwards during a stair climbing race with his friend Jane. With the help of a neatly drawn number line, determine Allan's final position

(03 Marks)

32. Four pupils, Yaser, Omari, Esther and Leticia shared a certain amount of money such that Rahim got $3/4$ of the money, Kavuma got $2/3$ of the money, Blessing got $5/9$ of the money and Patricia got $7/18$ of the money. Determine who of the pupils got the greatest amount of money.

. (06 Marks)

**END**
