

PRIMARY TWO MATHEMATICS SCHEME OF WORK FOR TERM THREE

W K	PD	THE ME	SUB THE ME	COMPETENCES		CONTENT	METHODS	T/L ACTIVITIES	INDICATORS OF LIFE SKILLS	IMS	REF	R E
				LANGUAGE	SUBJECT							
1	1	PEACE AND SECURITY	TIME	The learner; Reads new words correctly. Pronounces new words correctly.	The learner tells time in hours correctly.	Telling time in hours.	Group work Discussion Demonstration Guided discovery	Telling time in hours correctly.	Critical thinking. Effective communication Creative thinking. Problem solving	A wall clock	MK Primary three Pg. 127	
	2		TIME	The learner; Reads new words correctly. Pronounces new words correctly.	Shows time on the clock face.	Showing time on the clock face.	Group work Discussion Demonstration Guided discovery	Showing time on the clock face correctly	Critical thinking. Effective communication Creative thinking. Problem solving	A wall clock	MK Primary three Pg. 127	
	3		TIME	The learner; Reads new words correctly. Pronounces new words correctly.	Tells time using a half past.	Telling time using a half past.	Group work Discussion Demonstration Guided discovery	Telling time using a half past.	Critical thinking. Effective communication. Creative thinking. Problem solving	A clock face.	MK Primary three Pg. 128	
	4		TIME	The learner; Reads new words correctly. Pronounces new words correctly.	Tells time using a quarter past.	Telling time using a quarter past.	Group work Discussion Demonstration Guided discovery	Telling time using a quarter past.	Critical thinking. Effective communication. Creative thinking. Problem solving	A clock face	MK Primary three Pg. 131	
	5		TIME	The learner; Reads new words correctly. Pronounces new words correctly.	Shows time on a clock face in a quarter past.	Showing time on a clock face in a quarter past.	Group work Discussion Demonstration Guided discovery	Showing time on a clock face in a quarter past.	Critical thinking. Effective communication. Creative thinking. Problem solving	A clock face	MK Primary three Pg. 131	
2	1	PEACE AND SECURITY	MONEY	The learner; Reads new words correctly. Pronounces new words correctly.	Tells the meaning of money. Gives the types of money.	Meaning of money. Types of money.	Group work Discussion Demonstration Guided discovery	Telling the meaning of money. Giving the types of money.	Critical thinking. Effective communication. Creative thinking. Problem solving	Real money	MK Primary three Pg. 176

					Names the examples of coin money. Names the features found on coin money.	Examples of coin money. Names the features found on coin money.		Naming the examples of coin money. Naming the features found on coin money.				
	2	PEACE AND SECURITY	MONEY	The learner; Reads new words correctly. Pronounces new words correctly.	Names the examples of paper money. Names the features found on paper money.	Examples of paper money. Features found on paper money.	Group work Discussion Demonstration Guided discovery	Naming the examples of paper money. Naming the features found on paper money.	Critical thinking. Effective communication. Creative thinking. Problem solving	Real money	MK Primary three Pg. 176	
	3	PEACE AND SECURITY	MONEY	The learner; Reads new words correctly. Pronounces new words correctly.	Adds money vertically	Addition of money.	Group work Discussion Demonstration Guided discovery	Adding money vertically.	Critical thinking. Effective communication. Creative thinking. Problem solving	Real money	MK Primary three Pg. 177	
	4		MONEY	The learner; Reads new words correctly. Pronounces new words correctly.	Interprets word statements in addition of money.	Word problems involving addition of money.	Group work Discussion Demonstration Guided discovery	Interpreting word statements in addition of money.	Critical thinking. Effective communication. Creative thinking. Problem solving	Money	MK Primary three Pg. 178	

PRIMARY TWO MATHEMATICS SCHEME OF WORK FOR TERM THREE

W K	PD	THE ME	SUB THE ME	COMPETENCES		CONTENT	METHODS	T/L ACTIVITIES	INDICATORS OF LIFE SKILLS	IMS	REF	R E
				LANGUAGE	SUBJECT							
	5		MONEY	The learner; Reads, writes and uses words like intersection correctly Writes the union symbol	Subtracts money vertically.	Subtraction of money vertically.	Group work Discussion Demonstration Guided discovery	Subtracting money vertically.	Critical thinking. Effective communication. Creative thinking. Problem solving	Money	MK Primary three Pg. 179	
3	1		MONEY	The learner; Reads new words correctly. Pronounces new words correctly.	Interprets word statements in subtraction of money.	Word problems involving subtraction of money.	Group work Discussion Demonstration Guided discovery	Interpreting word statements in subtraction of money.	Critical thinking. Effective communication. Creative thinking. Problem solving	Money	MK Primary three Pg. 180	
	2		MONEY	The learner; Reads new words correctly. Pronounces new words correctly.	Finds balance or change of money.	Finding balance or change of money.	Group work Discussion Demonstration Guided discovery	Finding balance or change of money.	Critical thinking. Effective communication. Creative thinking. Problem solving	money	MK Primary four Pg. 138	
	3		MONEY	The learner; Reads new words correctly. Pronounces new words correctly.	Interprets the shopping list.	Shopping list	Group work Discussion Demonstration Guided discovery	Interpreting the shopping list.	Critical thinking. Effective communication. Creative thinking. Problem solving	A chart showing the shopping list.	MK Primary four Pg. 182	
	4	CHILD PROTECTION	OPERATION OF NUMBERS.	The learner; Reads new words correctly. Pronounces new words correctly.	Writes numbers in words. Writes numbers in figures.	Writing numbers in words. Writes numbers in figures.	Group work Discussion Demonstration Guided discovery	Writing numbers in words. Writes numbers in figures.	Critical thinking. Effective communication. Creative thinking. Problem solving	Flash cards	MK Primary three Pg.

W K	PD	THE ME	SUB THE ME	COMPETENCES		CONTENT	METHODS	T/L ACTIVITIES	INDICATORS OF LIFE SKILLS	IMS	REF	R E
				LANGUAGE	SUBJECT							
	5		OPERATION OF	The learner; Arranges and writes numbers vertically correctly.	Adds numbers vertically with no regrouping.	Addition of 3 digit numbers vertically with no regrouping.	Group work Discussion Demonstration Guided discovery	Adding numbers vertically with no regrouping.	Critical thinking. Effective communication. Creative thinking. Problem solving	Flash cards	MK Primary three Pg. 47	
4	1	CHILD PROTECTION	OPERATION OF NUMBERS.	The learner; Arranges and writes numbers vertically correctly.	Multiplies Numbers vertically.	Multiplication of numbers vertically.	Group work Discussion Demonstration Guided discovery	Multiplying Numbers vertically.	Critical thinking. Effective communication. Creative thinking. Problem solving	Counters	MK Primary three Pg. 56	
	2	MEASURES		The learner; Reads new words correctly. Pronounces new words correctly.	Tells the days of the week. Writes the days of the week in short.	Days of the week.	Group work Discussion Demonstration Guided discovery	Telling the days of the week in order. Writing the days of the week in short.	Critical thinking. Effective communication. Creative thinking. Problem solving	Flash cards	MK Primary four Pg. 146	
	3	MEASURES		The learner; Reads new words correctly. Pronounces new words correctly.	Changes weeks to days.	Changing weeks to days.	Group work Discussion Demonstration Guided discovery	Changing weeks to days.	Critical thinking. Effective communication. Creative thinking. Problem solving	Counters	MK Primary four Pg. 147	
	4	MEASURES		The learner; Reads, spells and pronounces the new words correctly	Changes days to weeks.	Changing days to weeks.	Group work Discussion Demonstration Guided discovery	Changing days to weeks.	Critical thinking. Effective communication Creative thinking. Problem solving	Counters	MK Primary four Pg. 148

				LANGUAGE	SUBJECT							
	5	MEASURES			Tells the months of the year and days in each month.	Months of the year. Days in each month.	Group work Discussion Demonstration Guided discovery	Telling the months of the year and days in each month.	Critical thinking. Effective communication. Creative thinking. Problem solving	A calendar	MK Primary four Pg. 149	
5	1	MEASURES			Makes a calendar.	Making a calendar.	Group work Discussion Demonstration Guided discovery	Making a calendar.	Critical thinking. Effective communication Creative thinking. Problem solving	A calendar	MK Primary four Pg. 150	
	2	MEASURES		The learner; Reads and interprets the calendar correctly.	Interprets the calendar.	Interpreting the calendar.	Group work Discussion Demonstration Guided discovery	Interpreting the calendar.	Critical thinking. Effective communication Creative thinking. Problem solving	A calendar	Primary two thematic curriculum	
	3	MEASURE S		The learner; Draws and counts the shape names correctly.	Counts up shapes and solids.	Counting up shapes and solids.	Group work Discussion Demonstration Guided discovery	Counting up shapes and solids.	Critical thinking. Effective communication. Creative thinking. Problem solving	Board illustration	MK Primary three Pg. 118-119	
	4	MEASURES	Shapes and solids.	The learner; Reads and writes the shape names correctly	Names shapes	Naming shapes	Group work Discussion Demonstration Guided discovery	Naming the different shape names accordingly.	Critical thinking. Effective communication. Creative thinking. Problem solving	Related objects	MK Primary three Pg. 118

				LANGUAGE	SUBJECT							
	5	MEASURES	Shapes and solids.	The learner; Draws shapes correctly.	Draws shapes correctly.	Drawing shapes.	Group work Discussion Demonstration Guided discovery	Modelling shapes and solids.	Critical thinking. Effective communication. Creative thinking. Problem solving		MK Primary three Pg. 118	
6	1		Measuring length	The learner; Reads new words correctly.	Measures length of different objects.	Tells the meaning of length. Names the examples of things we use to measure length.	Group work Discussion Demonstration Guided discovery	Measuring length of different objects.	Critical thinking. Effective communication. Creative thinking. Problem solving	Real objects	MK Primary four Pg. 164	
6	2		Measuring length	The learner; Reads new words correctly.	Records length/ distance using the standard units. (meters)	Standard units for measuring length/ distance. Measuring length of different objects in metres.	Group work Discussion Demonstration Guided discovery	Recording length/ distance using the standard units. (meters)	Critical thinking. Effective communication. Creative thinking. Problem solving	Real objects	MK Primary three Pg. 141	
	3		Measuring length	The learner; Reads new words correctly.	Adds length in metres.	Adding length in metres horizontally.	Group work Discussion Demonstration Guided discovery	Adding length in metres.	Critical thinking. Effective communication. Creative thinking. Problem solving	Counters	MK Primary three Pg. 147	
	4		Measuring length	The learner; Reads new words correctly.	Subtracts length in metres.	Subtracting length in metres horizontally.	Group work Discussion Demonstration Guided discovery	Subtracting length in metres.	Critical thinking. Effective communication. Creative thinking. Problem solving	counters	MK Primary three Pg. 149

				LANGUAGE	SUBJECT							
	5		Measuring length	The learner; Reads new words correctly.	Interprets the length/ distance of pictures in metres.	Picture interpretation	Group work Discussion Demonstration Guided discovery	Interprets the length of pictures in metres.	Critical thinking. Effective communication. Creative thinking. Problem solving	A chart showing objects measured in length.	Teacher's collection.	
7	1		MEASURING CAPACITY	The learner; Reads, Pronounces new words correctly.	Measures capacity in litres.	Meaning of capacity. Examples of liquids measured. Containers used to measure liquids.	Group work Discussion Demonstration Guided discovery	Measuring capacity in litres.	Critical thinking. Effective communication. Creative thinking. Problem solving	Real objects	MK Primary three Pg. 159	
	2		MEASURING CAPACITY	The learner; Reads, Pronounces new words correctly.	Compares containers used to hold liquids.	Comparing containers used to hold liquids using less or more.	Group work Discussion Demonstration Guided discovery	Comparing containers used to hold liquids.	Critical thinking. Effective communication. Creative thinking. Problem solving	Real objects	MK Primary three Pg. 161	
	3		MEASURING WEIGHT	The learner; Reads, Pronounces new words correctly.	Tells the meaning of weight. Identifies the things measured in weight.	Meaning of weight. Things used to measure weight. Comparing things in weight using heavier or lighter.	Group work Discussion Demonstration Guided discovery	Telling the meaning of weight. Identifying the things measured in weight.	Critical thinking. Effective communication. Creative thinking. Problem solving	Real objects	MK Primary three Pg. 167

				LANGUAGE	SUBJECT							
	4		MEASURING WEIGHT	The learner; Reads, Pronounces new words correctly.	Gives the units for measuring weight which is kilograms. Adds weight in kilograms.	Standard units for measuring weight. Things measured in weight. Addition of weight in kilograms.	Group work Discussion Demonstration Guided discovery	Giving the units for measuring weight which is kilograms. Adding weight in kilograms.	Critical thinking. Effective communication. Creative thinking. Problem solving	Weighing stones. Counters	MK Primary three Pg. 168- 171	
7	5		MEASURING	The learner; Reads, Pronounces new words correctly.	Subtracts weight in kilograms.	Subtraction of weight in kilograms.	Group work Discussion Demonstration Guided discovery	Subtracting weight in kilograms.	Critical thinking. Effective communication. Creative thinking. Problem solving	Weighing stones. Counters	MK Primary three Pg. 173	
8	1		MEASURING PERIMETER.	The learner; Reads new words correctly. Pronounces new words correctly.	Finds the perimeter in units. Tells the meaning of perimeter.	Finding the perimeter in units.	Group work Discussion Demonstration Guided discovery	Telling the meaning of perimeter. Finding the perimeter in units by counting the number of boxes in a shape.	Critical thinking. Effective communication. Creative thinking. Problem solving	Counters	MK Primary four Pg. 171	
	2		MEASURING	The learner; Reads new words correctly. Pronounces new words correctly.	Finds the perimeter in meters.	Finding the perimeter in meters.	Group work Discussion Demonstration Guided discovery	Finding the perimeter in meters.	Critical thinking. Effective communication. Creative thinking. Problem solving	Counters	MK Primary four Pg. 171- 172

	3		MEASURING AREA	The learner; Reads new words correctly. Pronounces new words correctly.	Finds the area in square units.	Finding the area by counting square.	Group work Discussion Demonstration Guided discovery	Finds the area in square units by counting the boxes in the shape.	Critical thinking. Effective communication. Creative thinking. Problem solving	Counters	MK Primary three Pg. 152	
	4	MEASURES	MEASURING AREA	The learner; Reads new words correctly. Pronounces new words correctly.	Finds area of a square in square meters.	Finding area of a square in square meters.	Group work Discussion Demonstration Guided discovery	Finding area of a square in square meters by multiplying.	Critical thinking. Effective communication. Creative thinking. Problem solving	Counters	MK Primary three Pg. 154	
	5	MEASURES	MEASURING AREA	The learner; Reads new words correctly. Pronounces new words correctly.	Finds area of a rectangle in meters.	Finding area of a rectangle in meters.	Group work Discussion Demonstration Guided discovery	Finding area of a rectangle in meters by multiplying.	Critical thinking. Effective communication. Creative thinking. Problem solving	Counters	MK Primary three Pg. 155-157
