

UGANDA NATIONAL EXAMINATIONS BOARD
Uganda Advanced Certificate of Education

**P630/2 CLOTHING
AND
TEXTILE(PRACTICAL)**

**SCORING GUIDE
FOR THE SAMPLE PAPER**

Item 1

a) Planning:

To attain the highest level of achievement, a candidate is expected to select appropriate materials, colours and sewing processes for the required garment.

Possible Responses

A complete, accurate shopping list made for all required materials needed to make an A line dress.

Appropriate fabric type, weight, and quality for the garment's purpose selected.

Colours that match the A line dress design, and sewing processes/techniques suitable for the fabric chosen and used. Selected choices in relation to cost, durability, and construction requirements justified.

Organised all materials ready for use without missing any item.

b) Drafting Basic Blocks:

To attain the highest level of achievement, a candidate is expected to draft basic block using all essential pattern components and uses numbers and measurements accurately in drafting.

Possible Responses

Interpreted the challenge on drafting the sleeve block. Sorted out required measurements for drafting the sleeve block as asked for in the scenario. Manipulated all standard measurements to drafting measurements. Used the drafting equipment appropriately. Demonstrated the correct procedures of drafting to bring out the sleeve block. Produced a basic sleeve block as per the requirements of the scenario.

c) Pattern Adaptation:

To attain the highest level of achievement, a candidate is expected to:

Transfer pattern markings and style features to create final patterns on the cloth to be used for garment construction. Measures and cuts fabric with precision ensuring consistency and accuracy.

Possible Responses

Transferred all pattern markings and style features accurately onto the cloth using correct tools and techniques. Adapted the pattern on the cloth neatly. Measured and cuts the fabric precisely to the required dimensions. Worked consistently with straight cuts, no fraying, and minimal fabric waste. Cuts final pieces that matched the pattern and were ready for garment construction without rework

d) Construction Of Garment

To attain the highest level of achievement, a candidate is expected to:

Demonstrate application of skills such as disposal of fullness, machine stitching/seaming, neatening, decoration, finishing techniques e.g. use of facings, bindings etc. Select and use suitable decorative elements that complement design concept. Makes functional, fitting and comfortable garment as per the requirements of the task. Creatively displays complete garment

Possible Responses

Constructed a functional, well-fitting, and comfortable garment, with clean machine stitching/seaming, proper disposal of fullness, and neat neatening throughout. Applied finishing techniques like facings and bindings correctly. Selected and applied decorative elements appropriately to complement the design concept. Made garment that shows good quality and marketability in construction and appearance. Completed garment creatively displayed to highlight design features and craftsmanship.
