# TAAND EXAMINATIONS BOARD

## CONTINUOUS ASSESSMENT EXAMINATION TERM II, 2026

### PRIMARY SEVEN PRE-MOCK

### INTEGRATED SCIENCE

Time Allowed: 2 hours 15 minutes

| Random Number |  |  |  |  |  | Personal Number |  |  |
|---------------|--|--|--|--|--|-----------------|--|--|
|               |  |  |  |  |  |                 |  |  |

Candidate's Name: .....

Candidate's Signature: .....

School's Name: .....

District: .....

Read the following instructions carefully:

1. This paper is made up of **two** Sections: A and B.
2. Section A has **40** short-answer questions (**40 marks**).
3. Section B has **15** questions (**60 marks**).
4. Answer **ALL** questions. All answers to both Sections A and B **MUST** be written in the spaces provided.
5. All answers **MUST** be written using a blue or black ball-point pen or ink. Diagrams should be drawn in pencil.
6. Unnecessary alteration of work may lead to loss of marks.
7. Any handwriting that cannot easily be read may lead to loss of marks.
8. Do not fill anything in the box indicated "For examiners' use only" and those inside the question paper.

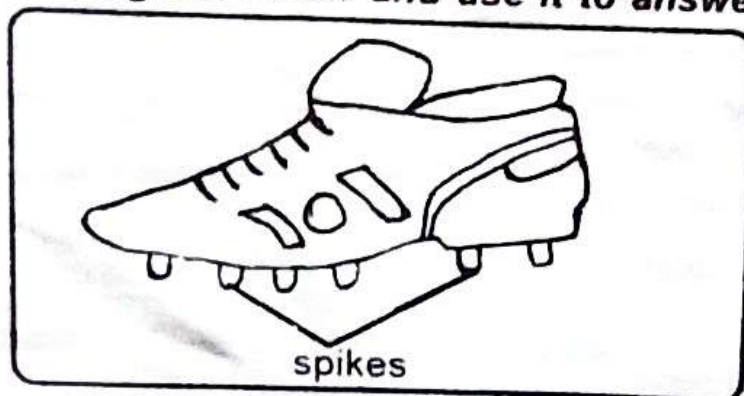

| FOR EXAMINERS' USE ONLY |       |           |
|-------------------------|-------|-----------|
| Qn. No.                 | Marks | Exrs' No. |
| 1 - 10                  |       |           |
| 11 - 20                 |       |           |
| 21 - 30                 |       |           |
| 31 - 40                 |       |           |
| 41 - 43                 |       |           |
| 44 - 46                 |       |           |
| 47 - 49                 |       |           |
| 50 - 52                 |       |           |
| 53 - 55                 |       |           |
| TOTAL                   |       |           |

**SECTION A: (40 Marks)**

**Questions 1 to 40 carry one mark each.**

1. Mention any **one** form of energy produced by burning charcoal.
2. What type of change is freezing?
3. Give **one** example of a percussion musical instrument.
4. Why does oil float on water?
5. Name the type of immunity acquired through immunization.
6. How are pineapples propagated?
7. Identify the deficiency disease which causes the swelling of the neck.
8. Name the part of a joint that prevents a bone from rubbing against another bone.
9. Write down any **one** method of making magnets.

**Study the diagram below and use it to answer question 10.**

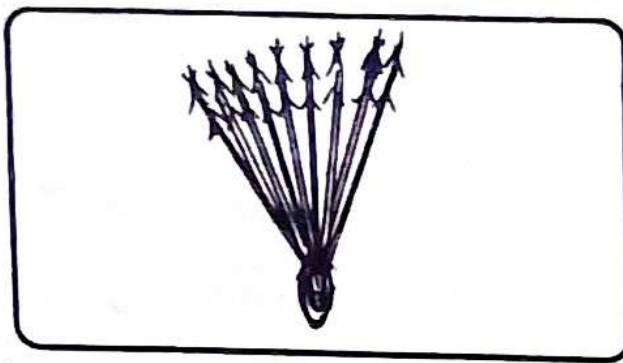

10. State the importance of the spikes on the shoe above when wearing it. ☐
11. Identify any **one** component of a balanced diet.
12. Name any **one** bird of prey in the environment.
13. State **one** way of controlling poultry vices on a poultry farm.
14. Give a reason why tools such as knives should be kept in cool dry places.

15. State **one** characteristic that shows that a maize grain is a fruit.
16. Apart from underground stems, name **one** other type of stems.
17. Why is carbon dioxide gas used in the preservation of soft drinks?
18. Write **one** activity you can do to promote oral hygiene.
19. Give **one** sign/symptom of intestinal worms in children.

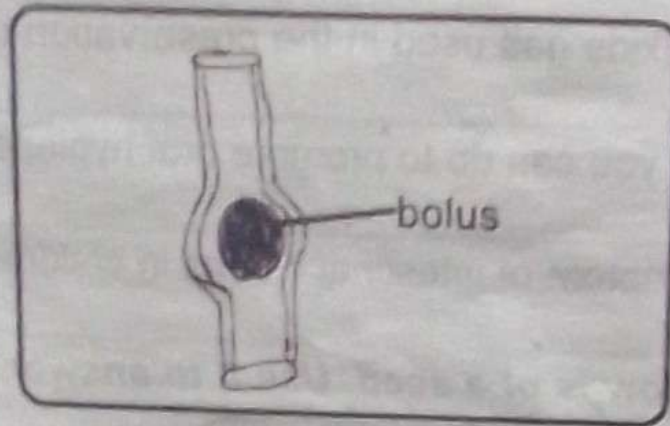

*The diagram below is of a seed. Use it to answer question 20.*

20. How is the seed above dispersed?
21. State any **one** use of electromagnets to people. ☐
22. Give **one** example of involuntary muscles in the human body.
23. State the importance of soaking during the process of cleaning clothes.
24. What are leguminous crops?
25. State any **one** similarity between a housefly and a spider.
26. Name the fungus used in baking bread.
27. Which first aid would you administer to a casualty with a broken limb?
28. What type of energy is possessed by a baby sleeping?
29. How are kidneys useful in the human body?
30. Which intestinal worms cause itching around the anus? ☐

31. How do animals make use of the gas given out by plants during photosynthesis?

The diagram below shows part of the alimentary canal. Use it to answer questions 32 and 33.

32. Identify the part of the alimentary canal shown above.
33. How does the food bolus move through the part of the alimentary canal shown above?
34. Give one benefit of castrating male goats on a farm to a farmer.
35. A lever has parts. Name any one major part of a lever.
36. Mention the structure that joins a bone to a muscle.
37. Give one example of an insulator.
38. Which type of electricity is obtained by rubbing a plastic material against hair?
39. State one reason why plants and animals are classified as living things.
40. Give one example of a modern bee hive.

**SECTION B (60 Marks)**

Questions 41 - 55, carry four marks each.

41. (a) State any two basic rules followed by people when promoting PHC.  
(i) \_\_\_\_\_  
(ii) \_\_\_\_\_
- (b) Give the meaning of the following.  
(i) Oral hygiene \_\_\_\_\_
- (ii) Personal hygiene \_\_\_\_\_

42. (a) What are first class levers?

\_\_\_\_\_

(b) Name any **two** examples of first class levers

(i) \_\_\_\_\_

(ii) \_\_\_\_\_

(c) State the advantage of using first class levers.

**Match the following parts of a VIP latrine in A to their uses in B.**

A

Vent pipe

Screen

Spiral wall

Hole

B

Traps flies to death.

Lets out bad smelling air.

For proper disposal of faeces

For privacy to the user.

(a) Vent pipe \_\_\_\_\_

(b) Screen \_\_\_\_\_

(c) Spiral wall \_\_\_\_\_

(d) Hole \_\_\_\_\_

44. (a) What is the gestation period of a ewe?

\_\_\_\_\_

(b) Name the main product got from merino sheep.

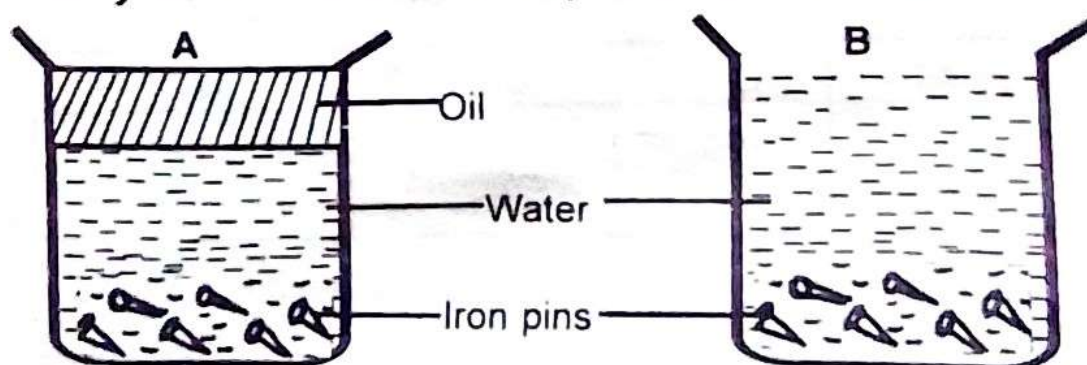

\_\_\_\_\_

(c) Give **two** reasons for docking sheep.

(i) \_\_\_\_\_

(ii) \_\_\_\_\_

45. **The experiment below is about types of changes. Study and use it to answer questions that follow.**

(a) What happened to the pins in container B after four days?

(b) Which type of change took place in container B?

(c) State the role of oil in container A.

(d) Name the gas needed for the change in container B to take place

46 (a) Define fainting?

(b) Why should the legs of a person that has fainted be raised higher than the head?

(c) Mention **two** conditions that lead to fainting.

(i)

(ii)

47 (a) Give **two** ways of caring for pregnant mothers

(i)

(ii)

(b) Mention **two** other examples of vulnerable groups of people apart from pregnant mothers

(i)

(ii)

48 (a) State the major cause of short circuits.

(b) Give **two** ways short circuits are dangerous at home.

(i)

(ii)

(c) Write **one** way of preventing short circuits.

49 *The table below shows vertebrates. Study it and use it to answer questions that follow.*

| A     | B    | C         | D          |
|-------|------|-----------|------------|
| Eagle | Frog | Crocodile | Nile perch |
| Kite  | Toad | Gecko     | Mud fish   |

(a) Name the class of vertebrates not included in the table above

(b) How are animals in group A similar to those in C in terms of reproduction?

(c) Mention **two** other organisms that can be added to group B

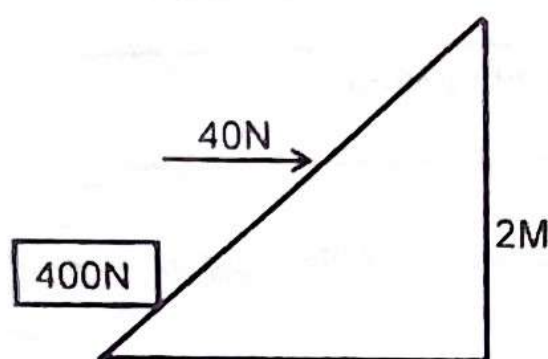

(i)

(ii)

50. (a) Give any **two** non living renewable resources in the environment.
- (i) \_\_\_\_\_
- (ii) \_\_\_\_\_
- (b) How do the following natural resources replace themselves?
- (i) Water \_\_\_\_\_
- (ii) Plants \_\_\_\_\_

51. *The diagram below shows a simple machine. Study and use it to answer questions that follow.*

- (a) Name the class of simple machines shown in the above diagram.
- (b) Give **two** uses of the above machine in our daily life activities.
- (i) \_\_\_\_\_
- (ii) \_\_\_\_\_
- (c) Calculate the mechanical advantage of the above machine.

52. (a) Why is measles vaccine administered to babies at 9 months?
- (b) Name the vaccine administered on the following sites;
- (i) Left upper arm \_\_\_\_\_
- (ii) Mouth \_\_\_\_\_
- (iii) Left upper thigh \_\_\_\_\_

53. (a) How do spiders help to promote human health?

(b) Give **two** uses of a cobweb to a spider.

(i) \_\_\_\_\_

(ii) \_\_\_\_\_

(c) Name the class of invertebrates to which a spider belongs

54. (a) What is a fracture?

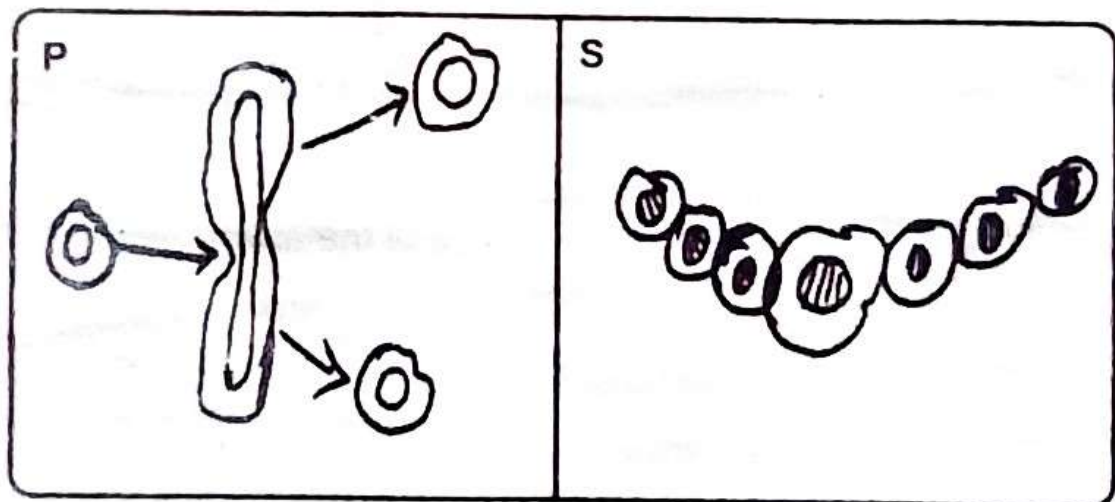

(b) Mention **two** types of fractures

(i) \_\_\_\_\_

(ii) \_\_\_\_\_

(c) What is the importance of splints in the first aid of fractures

55. *The diagram below shows two methods of reproduction. Use it to answer the questions that follow.*

(a) Identify the methods of reproduction P and S.

(i) **P** \_\_\_\_\_

(ii) **S** \_\_\_\_\_

(b) Mention **one** organism that reproduces as shown in P above.

(c) Give the importance of reproduction to organisms.

# TAAND P.7 SCIENCE M. GUIDE PRE- MOCK SET II TERM II, 2026

## SECTION A 40 MARKS

- 1 Heat energy / Light energy.
- 2 Physical change
- 3 Drum / Xylophone / Shakers / Thumb piano
- 4 It is because it is less dense than water / Its density is lower than that of water
- 5 Artificial immunity
- 6 By means of suckers
- 7 Goitre
- 8 Cartilage
- 9 Electrical method / Stroking by single touch method / Stroking by double touch method / Induction method
- 10 They help to increase friction
- 11 Proteins / Carbohydrates / Vitamins / Mineral salts / Fats and oils
- 12 Eagle / Hawk / Kite / Owl
- 13 By debeaking birds / Providing birds with enough feeds / Avoid over crowding the birds
- 14 To prevent rusting
- 15 It has two scars i.e the style scar and the stalk scar
- 16 Upright or erect stems / Creeping stems / Climbing stems
- 17 It does not support life
- 18 Brushing teeth regularly / Flossing teeth / Rinsing teeth
- 19 Abdominal pain / A child feels hungry quickly / Itching around the anus / Anaemia
- 20 By animals
- 21 They are used in electric bells / They are used in industries to collect / lift heavy iron scrap
- 22 Muscles of the eye lids / Muscles of the stomach and intestines / Muscles of blood vessels / Muscles of the urinary / Ciliary muscles of the eyes / Intercostal muscles of the ribs / Muscles of the uterus
- 23 It helps to soften dirt and stains
- 24 Leguminous crops are crops which have root nodules
- 25 Both are arthropods / Both have segmented bodies / Both have jointed legs / Both reproduce by laying eggs
- 26 Yeast
- 27 Applying splints on the broken part
- 28 Potential energy
- 29 They filter blood
- 30 Pin worms
- 31 They use it for respiration
- 32 Gullet / Oesophagus
- 33 By peristalsis
- 34 It prevents unwanted pregnancies / The castrated animals fatten / The animals become humble
- 35 Pivot or fulcrum / Effort / load
- 36 Tendon
- 37 Plastic / Wool / Cloth / Paper / Wood / Porcelain / Cork
- 38 Static electricity
- 39 They move / They feed / They grow / They respire / They reproduce / They respond to stimuli / They excrete
- 40 Top bar hive

## SECTION B 60 MARKS

- 41 (a) Total health for all / All members of the community must participate in all activities / Health care activities in the community should be accessible / Health services should be affordable / PHC programmes should benefit everybody etc
- (b)(i) General cleanliness of the mouth
- (ii) General cleanliness of a person
- 42 (a) First class levers are levers in which the fulcrum / pivot is positioned between the effort and the load
- (b) A see saw / A crow bar / A lid opener / A pair of scissors / A claw hammer / Weighing scale / Water pump / Bore hole / Human head
- (c) Less effort is used
- 43(a) Vent pipe - Lets out bad smelling air
- (b) Screen - Traps flies to death
- (c) Spiral wall - For privacy to the user
- (d) Hole - For proper disposal of faeces

- 44 (a) Five (5) months
- (b) Wool
- (c) To enable them fatten / To allow easy mating
- 45 (a) They rusted
- (b) Chemical change
- (c) To prevent oxygen from entering
- (d) Oxygen
- 46 (a) Fainting is the brief loss of consciousness for a short time
- (b) To enable flow of oxygenated blood to the head
- (c) Prolonged hunger / Strenuous exercises / Extreme pain / Long exposure to heat / Extreme sorrow and anger / Standing for too long / Bad news
- 47 (a) Providing them food and drinks / Taking them for antenatal care / Helping them in doing work / Giving them enough rest
- (b) The sick / The disabled / Babies / Weaning children / The elderly
- 48 (a) When bare electric wires carrying electricity get into contact *1. Poor wiring*
- (b) They can result into fire outbreak / Sparks / They can destroy electric appliances / Buildings can lead to death of people
- (c) Electric wires should be covered with insulating materials / Installation of electricity should be done by experts only / Repair should be done by experts only
- 49 (a) Mammals
- (b) Both reproduce by laying eggs / Both undergo internal fertilization
- (c) Newts / Salamanders
- 50 (a) Water / Soil / Air / Wind *Minerals / Fossil fuels / Rocks*
- (b) (i) Through the rain cycle / By rain
- (ii) Through reproduction
- 51 (a) Inclined plane / Slope
- (b) It is used in building skyscrapers and pyramids / It is used to load and offload vehicles / It helps people to climb raised places like hills and storey buildings / It helps to raise a heavy load
- (c) Mechanical Advantage =  $\frac{\text{Load}}{\text{Effort}}$   
 $= \frac{400\text{N}}{40\text{N}}$   
 $= 10$
- 52 (a) A child is born with the immunity against measles up to the age of 9 months
- (b)(i) Measles vaccine
- (ii) Polio vaccine
- (iii) DPT vaccine
- 53 (a) They feed on disease vectors such as mosquitoes and houseflies
- (b) It is used as its home / It helps it to trap prey
- (c) Arthropods
- 54 (a) A fracture is a broken or cracked bone
- (b) Compound fracture / Simple fracture / Greenstick fracture / Comminuted or Complicated fracture
- (c) They keep the broken bones in one position
- 55 (a)(i) P - Cell division / Binary fission
- (ii) S - Budding
- (b) Bacteria / Amoeba
- (c) It enables them to multiply / It enables them exist
