SECTION A: 40 MARKS

Questions 1 to 40 carry one mark each.

1. Name the process by which most plants make their own food.

.....

2. State any one importance of earthworms to a crop farmer.

.....

3. Which type of teeth is mainly used for tearing food?

.....

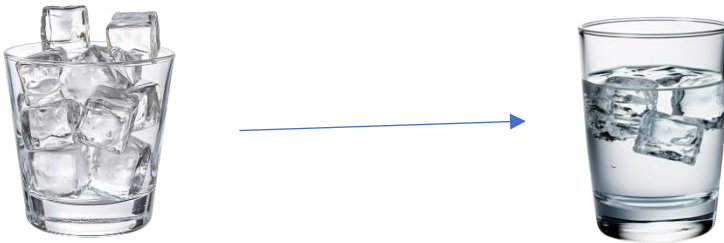

4. Name the disease caused by deficiency of iron in the human body.

.....

5. State the function of prop roots to a maize plant.

.....

The diagram below shows a change of state in process.

6. Name the process by which water changes back to ice.

.....

7. State the state of matter of water vapour.

.....

8. Which part of the ear helps us to maintain body balance?

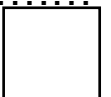

.....

9. State one importance of vaccination to children.

.....

10. Give any one example of a transparent material.

.....

11. State one way of conserving wetlands.

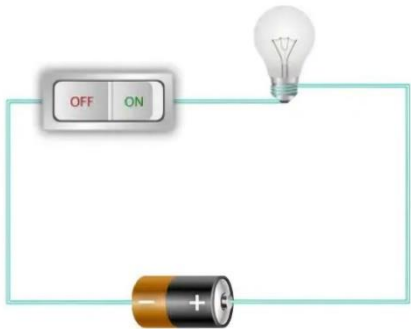

.....

12. Which instrument is used to measure the human body temperature?

.....

- 13.Name the force that pulls objects towards the earth.
.....
- 14.Give any one characteristic common among all mammals.
.....

The diagram below shows a simple electrical circuit.

- 15.Name the source of electricity in the circuit.
.....
- 16.State the function of a switch in an electric circuit.
.....
- 17.Why are legumes important in crop farming?
.....
- 18.Name the method your sister should use to separate water from sand.
.....
- 19.State one way of preventing the spread of cholera.
.....
- 20.Give one advantage of zero grazing in cattle farming.
.....

- 21.How does sweating help the human body on a hot day?
.....
- 22.State any one danger of drug abuse among youths.
.....
- 23.Give any one life skill needed for peaceful living.
.....
- 24.State one way of preventing bilharzia.
.....
- 25.Name the process by which a magnet loses its magnetism.
.....

26. Which pole of a freely suspended magnet doesn't point north?

.....

27. Why should drinking water be boiled but not distilled before use?

.....

.....

28. Name the type of mirror used in vehicles to view objects behind.

.....

29. Apart from food, state one other importance of goats.

.....

30. Why are skeletal muscles called voluntary muscles?

.....

31. State one way of controlling ticks in cattle.

.....

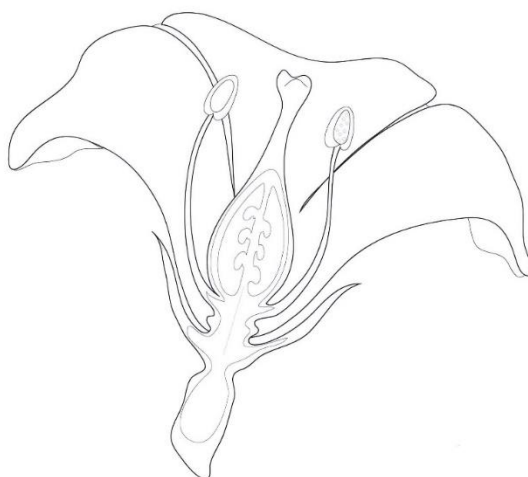

32. Give the characteristic of reptiles that qualifies them to be vertebrates.

.....

33. How are houseflies able to spread diseases?

.....

The diagram below is of a flower.

34. Use an arrow and label as **K** the part of a flower that develops into a fruit after fertilization.

35. State one function of petals in a flower apart from attracting pollinators.

.....

36. Name the disease whose signs include fever, sweating and coughing.

.....

- 37.State one digestive disorder caused by eating contaminated food.
.....
- 38.Give one reason why first aid is important.
.....
- 39.State one useful effect of bush burning.
.....
- 40.Name the method used to obtain pure water from salty water.
.....

SECTION B: 60 MARKS

Questions 41 to 55 carry four marks each.

41. a) Name the form of energy stored in dry cells.
.....
- b) State any one form of energy produced by a radio.
.....
- c) Give two ways of saving electricity at home.
i).....
ii).....
42. a) Apart from the skull, name any two other parts of the human skeleton.
i)
ii)
- b) State one function of the skeleton in the human body.
.....
- c) Give one nutritional way of keeping bones strong.
.....
43. a) Apart from wind, mention two other agents of seed dispersal.
i)
ii).....

b) State any two characteristics of wind-dispersed seeds.

i)

ii) ☐

44. A patient was given medicine labelled “**Take 1 tablet after every 8 hours.**”

a) What name is given to such information on medicine?

.....

b) Why is such information important?

.....

c) How many times should the patient take the medicine in one day?

.....

.....

d) If the patient takes the medicine at 6:00 a.m., at what time should the next dose be taken?

.....

45. a) State any two effects of heat on matter.

i)

ii)

b) Give any two uses of heat in homes.

i)

ii)

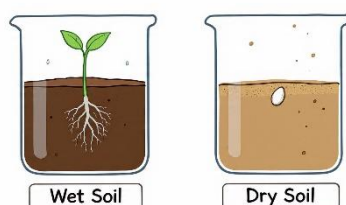

46. Complete the table below correctly.

ORGAN	SYSTEM	ONE MAJOR FUNCTION
Lungs	Respiratory	
Kidneys	Excretory	
Stomach		Digests food
Testes	Reproductive	

☐

47. a) Name the group of simple machines to which each tool belongs.
- Wheelbarrow.....
 - Axe
- b) State any two ways in which simple machines make work easier.
-
 -

48. The diagram below shows an experiment on germination.

- What do we call the ability of a seed germinate?
.....
- What does the experiment above prove about seed germination?
.....
- Give one importance of germination to farmers.
.....
- State one condition that may stop seeds from germinating apart from the one in the experiment.
.....

49. a) Define immunity.

-
- State two ways families can promote good health in their homes.
-
 -
- Name the type of immunity acquired through breastfeeding.
.....

50. a) State one way in which poultry farming benefits people.

-
- Apart from eggs, give one other product obtained from living poultry.
.....

c) Give any two ways of controlling diseases in poultry.

i).....

ii).....

51. The diagram below shows human teeth.

a) Use an arrow or arrows and letter **G** to show the type of teeth used for grinding food.

b) State one function of incisors.

.....

c) Give any two ways of caring for teeth.

i).....

ii).....

52.a) Give any two reasons why farmers mulch crops.

(i)

(ii).....

b) State any two advantages of crop rotation.

i).....

ii).....

53. The table below shows classes of vertebrates.

Fish — Amphibians — Reptiles — Birds — Mammals

a) Name the class of vertebrates covered with feathers.

.....

b) Give one characteristic common to fish and amphibians.

.....

c) State one difference between reptiles and mammals.

.....

54. a) Name the disease caused by lack of vitamin D.

.....

b) State any two signs of the disease named in (a) above.

i).....

ii).....

c) Give one example of food rich in vitamin D.

.....

55. The diagram below shows a solar panel on a home.

a) State the reason why you think the solar panel installation above was correctly done.

.....

b) Choose and write down **one** of the two forms of energy from the sun which a solar panel harnesses.

1. Heat from the sun

2. Light from the sun

.....

c) State the energy change that takes place in a solar panel.

.....

d) Give one advantage of using solar energy.

.....

.....
