.....

34. Identify any one example of a non-biodegradable soil pollutant.

.....

The diagram below shows a germinating bean seed. Use it to answer questions 35 and 36.

- 35. Identify the part marked P.
.....
- 36. State the other type of germination besides the drawn above.
.....
- 37. Give the meaning of the term "magnet"
.....
.....
- 38. Mention any one way how draught cattle are able to provide animal energy as an energy resource.
.....
- 39. Give any one method of reproducing sound stored mechanically.
.....
- 40. State any one way how the thermos flask controls heat transfer by radiation.
.....

SECTION B

Question 41-55, carry four marks each

41. a) Mention any one method used in making compost manure

.....

b) State a reason why ash is added to organic matter during the making of compost manure.

.....

c) Give any two advantages of using organic mulches over NPK.

i.

ii.

42. a) Write down the first step in the making of sugar salt solution.

.....

b) During the making of ORS, why are the following included

i) Salt.....

ii) Clean cold water.....

c) Name any one disease that can be prevented by giving a dehydrated child ORS.

.....

43. a) Apart from landrace, mention any one other exotic breed pigs kept in Uganda.

.....

b) State any one advantage of proper feeding on the pig farm.

.....

c) Identify the intestinal worm found in pig product that cause malnutrition to humans.

.....

d) Mention any one viral disease of pigs that also affects cattle.

.....

44. a) Complete the table below.

Methods of harvesting trees	Meaning
i) Pollarding	_____
ii) _____	cutting of side branches
iii) Coppicing	_____

b) Give any one use of timber to man.

.....

45. State the meaning of the term distillation process as used in alcohol

.....

.....

(b) Give any one alcoholic drink produced by distillation process.

.....

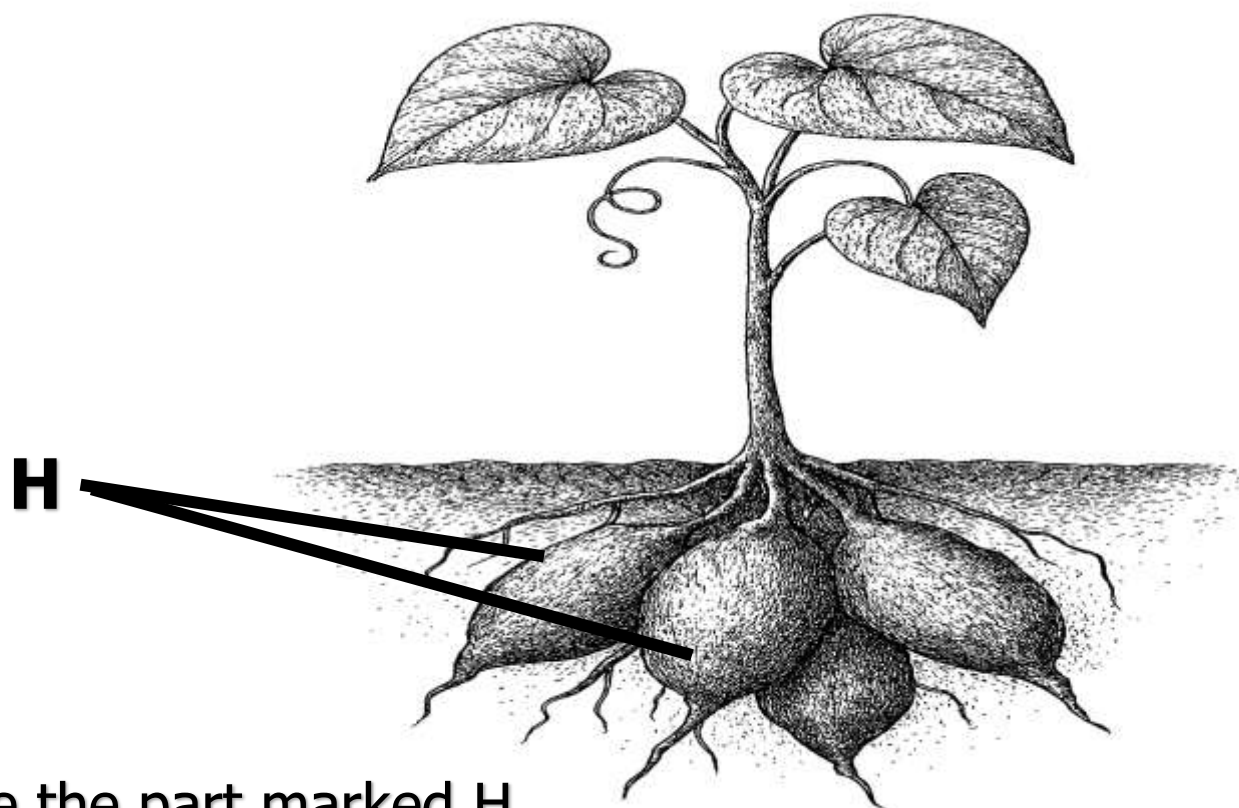

(c) Mention the other process of making alcohol besides distillation.

.....

(d) State any one medical use of alcohol.

.....

46. The diagram below shows a root tuber crop. Use it to answer questions that follow.

(a) Name the part marked H.

.....

(b) Give the use of the part marked H to the above plant.

.....

(c) State the adaptation of the part H to function given above in (b).

.....

(d) Mention any one method of harvesting the above root tuber crop.

.....

47. a) Name the type of electricity produced when charged clouds meet.

.....

b) Write down any one electrical appliance that produce the following:

i) Heat energy
.....

ii) Light energy
.....

c) State the main cause of short circuit.
.....

48. You are provided with the animals. Use them to answer the questions that follow.

Bats	Dove	Snake	Skunk.
-------------	-------------	--------------	---------------

a) Identify the two animals that can be grouped together from list.
i.
ii.

b) Apart from having backbone, mention any one other similarity between a dove and a snake.
.....

c) Give any one way how bats help to promote good health of man.
.....

49. a) State the reason of giving plenty of fluids to the victim that has taken jik.

.....

b) Mention one way how a burn can be managed at home.

.....

c) State one danger of applying cooking oil to the open cut or wound.

.....

.....

50. a) Define the term demography.

.....

.....

b) Mention any one use of demography to a country like Uganda.

.....

c) State any one method used to collect information in healthy survey.

.....

d) Mention any one example of an antisocial behavior carried out by youth in Uganda today.

.....

51. The diagram below shows an item used to promote sanitation at home. Study it carefully and answer questions about it.

a) Name the item drawn above.

.....

b) Identify the sanitation activity done with an aid of the above item.

.....

c) Mention any two diseases that can be prevented by promoting proper sanitation.

i.

ii.

52. a) Give the meaning of soil profile as used in farming.

.....

.....

b) Name the layer of soil profile that is the best for crop growing.

.....

c) Mention the reason to that your answer in (b) above.

.....

d) State any one reason why farmers should carry out bush fallowing.

.....

53. You are provided with clean water, bean ash and a clean porous bottle, write the four steps you would take to make local salt at home.

.....

.....

.....

.....

.....

.....

54. a) Give any one disease of rabbits caused by virus.

.....

b) Identify the gestation period of the doe.

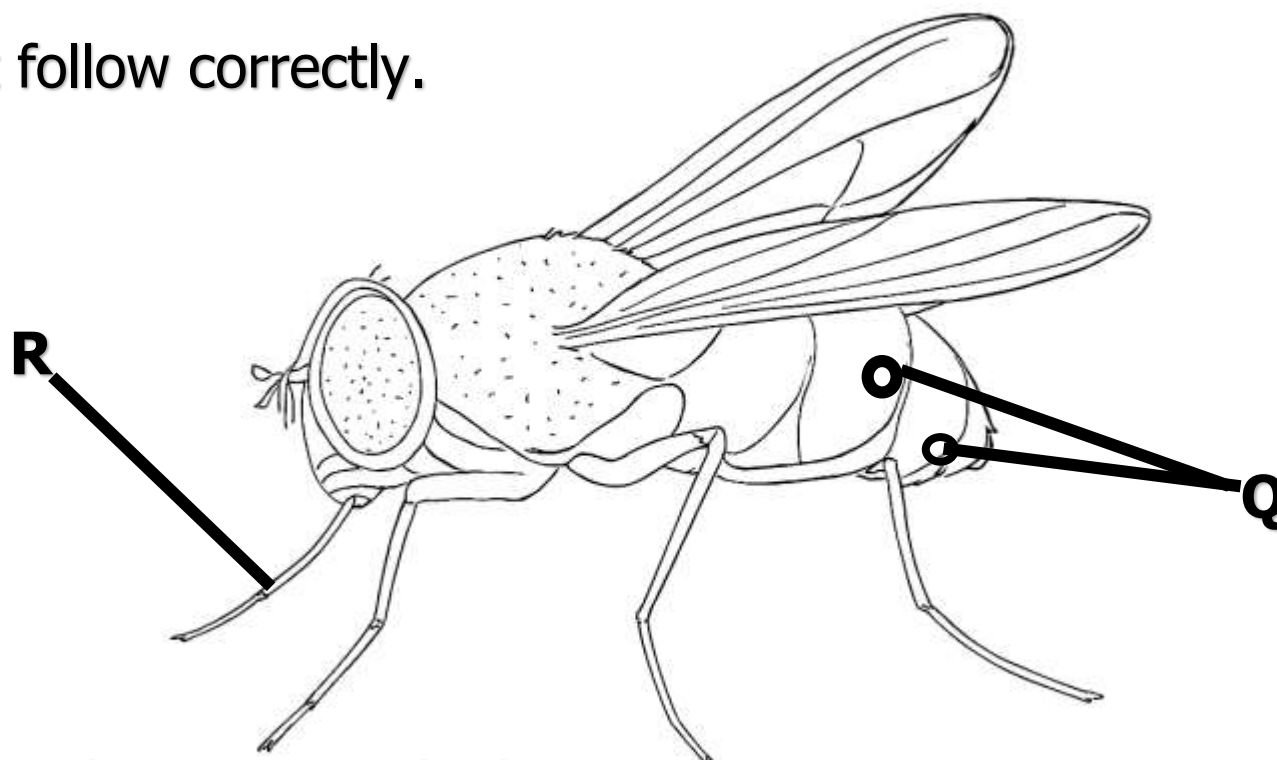

.....

d) Mention any two characteristics of the good hutch.

i.

ii.

55. The diagram below show an insect. Use it to answer the questions that follow correctly.

a) Name the parts marked;

Q

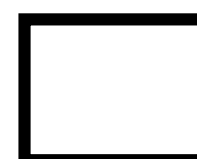

R

b) State any one similarity between part Q and the stomata in leaves.

.....
.....

c) Mention any one use of insects to man.

.....
