SECTION B: 50 MARKS

Answer all questions in this section

Questions **51** to **55** carry **ten** marks each

51. Read the passage below carefully and then, in full sentences, answer the questions about it.

It had always been a dream for Okubu's father to get a mobile phone. So he could admire whoever had a phone. One day, as he was celebrating his fortieth birthday, he received a well wrapped gift from Mrs. Rebecca.

On opening, he saw a brand new Nokia mobile phone together with a written piece of information wishing him a happy birthday. He jumped, shouted and praised God for this golden achievement in his life.

This mobile phone had many functions. It had an FM radio, digital television, camera and games which he played every now and then.

He could watch educative programmes on UTV. He also searched for interesting world news via internet.

He loved this mobile phone so much that he never wanted to lose it. After three months of use, its battery started weakening. He charged it daily in order to remain on air.

Later, it disturbed him so much that he thought of getting a better one but his wife advised him to only buy the battery.

Okubu's father saw it saving and bought the idea. He decided to go to Tanga Electronics to buy a new battery.

He bought a Scrub battery at twenty thousand shillings and went back home happily. For five years now, he has never thought of buying another one.
