

HI5 EDUCATION CENTRE
P.7 EXAMINATIONS TERM II 2026 (SET III)
MATHEMATICS

Time allowed: 2 Hours 30 Minutes

INDEX NUMBER

--	--	--	--	--	--	--	--	--	--

Candidate's Name: _____

Candidate's Signature: _____ Date: _____

District Name: _____

Read the following instructions carefully

1. The paper has two sections: A and B.
2. All the working for both sections A and B must be shown in the spaces provided.
3. All working must be done using a blue or black ball – point pen or fountain pen.
Diagrams must be drawn in pencil.
4. Unnecessary changes of work may lead to loss of marks.
5. Any handwriting that cannot easily be read may lead to loss of marks.
6. Do not fill anything in boxes indicated: **“For Examiners’ Use Only:** and those inside the question paper

SECTIONS	MARKS
SECTION A	

SECTION B	
TOTAL	

SECTION A: 40 MARKS

1.	Multiply: 101×11	2.	List all elements in set B complement. 
3.	How many centimeters are equivalent to 0.04km?	4.	Work out the square of $1\frac{4}{5}$
5.	Express 500gm as a percentage of 2kg.	6.	Solve for m: $2m \times 4 = 8 \pmod{6}$
7.	Write “one million, nine hundred forty nine” in figures.	8.	Solve for y: 
9.	Work out: $(3.3 \times 125) - (3.3 \times 25)$ using distributive method.	10.	Express 140km/hr in m/sec.

11.	If $a=3$, $c=4$ and $b=\frac{1}{2}$. Evaluate $ac \div (\frac{1}{4}b)$	12.	Without using a compass, draw an angle of 45° .
13.	Simplify: $\frac{36a^2b}{9a^2b}$	14.	The product of two numbers is 2. If one of the numbers is $\frac{2}{3}$. What is the other number?
15.	Solve for M and write a solution set for: $3p+3 < p+6$	16.	Convert 72 to binary base.
17.	If $\frac{1}{8} = \frac{4}{K}$, find the value of K.	18.	Set $A = \{a, b, c, d\}$ and $B = \{1, 2, 3, 4\}$. What is the relationship between set A and B?

19.	Represent 4312_{five} on the abacus.	20.	It is ten past twelve O'clock in the afternoon. Write this time in 24hour clock system.
-----	---	-----	---

SECTION B: 60 MARKS

21.	In a class of 44 students, they all like Matooke (M), 21 like Rice (R), 22 like Posho (P), K like all the three types of food but 6 like only Matooke. a) Represent this information on a Venn diagram below. b) How many students like all the three types of food? c) What is the probability at random for picking a student who likes only two types of food?
22.	a) Work out 3×10^{-4} using a number line. b) Express 0.0078 into scientific notation.

	c) Mrs. Ntambi is twice as old as her daughter. If their total age is 75 years, how old is her daughter?
23.	Town A is 650 metres away from Town B on a bearing of 120^0 and Town B is 500 metres East to Town C. a) Show the above information on a well labeled sketch. b) Using a scale of 1 cm to represent 100m, draw an accurate diagram to show the positions of the three towns. c) From the accurate diagram, find the true bearing of Town A from Town C.
24.	$\frac{1}{5}$ of the class went for swimming, $\frac{1}{3}$ of the remainder went for wood ball game and all the remaining 96 went to watch a football match. a) What fraction of the class went for wood ball game?

	b) Find the total number of pupils in the class.
25.	a) Solve: $\frac{Y+3}{3} = \frac{6Y+1}{6}$ b) $5 - 2(K+1) = 0$
26.	A vehicle can cover 140km using 18 litres of fuel. a) How far can the same vehicle go using one litre of fuel? b) If a litre of fuel costs sh.3600, how much will be spent on a journey of 320km long?
27.	The area of the shaded part is 126m^2. 

30.	a) Find the value of P: $1001_{\text{two}} = 21_p$ b) Two televisions N and M showed an advertisement together at 9:40pm. At what time had they previously shown the advertisement if they advertise at intervals of 40 and 50 minutes respectively?
31.	The pie chart below shows how the school bursar bought various items from the school shop. a) Find the value of m. b) If he spent sh.72,000 more on books than on pens, how much money in total did he spend on all items?
32.	a) With the help of a ruler, a pencil and a pair of compasses, construct a triangle PQR where angle P = 60°, angle R = 45° and line PR = 5cm. drop a perpendicular line from Point Q to meet PR at O.

b) Measure angle RQO.

END
