TOTAL		

SECTION A: 40 MARKS

Questions **1** to **40** carry **one** mark each.

- 1.** Name any **one** component of the female part of a flower.

.....

- 2.** Identify the sanitation element used for proper disposal of human waste.

.....

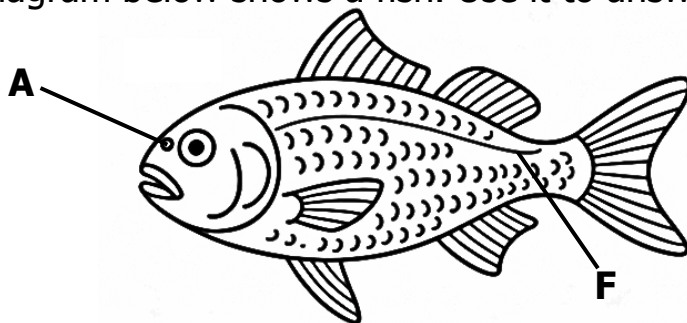

- 3.** Give a reason why some hens lay eggs with soft shells.

.....

- 4.** State the use of carbon dioxide during photosynthesis.

.....

The diagram below shows a fish. Use it to answer questions **5** and **6**.

- 5.** Name part labelled **F**.

.....

- 6.** State the function of part **A** to a fish.

.....

- 7.** Give the reason why tapeworms are regarded as endoparasites.

.....

- 8.** Name the part of a mosquito that helps it to suck blood from an animal.

.....

- 9.** Mention any **one** similarity between molars and premolars.

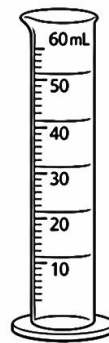

.....

- 10.** Give a reason why sorghum grain can be regarded as a monocot seed.

.....

- 11.** State any **one** sign of a dehydrated child.
.....
- 12.** Mention any **one** way in which smoking tobacco drugs affects the health status of a pregnant woman.
.....
- 13.** Mention any **one** good quality feature of a rabbit hutch.
.....
- 14.** Mention **one** way plants climb other plants.
.....

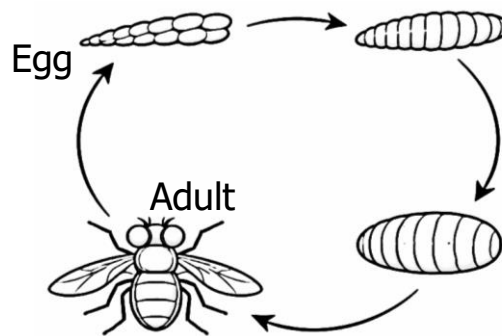

The diagram below shows a method of finding the volume of an object. Use it to answer questions **15** and **16**.

- 15.** Name the container shown in the diagram.
.....
- 16.** State the capacity of the container above.
.....
- 17.** Mention any **one** reason why one needs to promote personal hygiene.
.....
- 18.** Give the importance of the digestive juice stored in the gall bladder.
.....
- 19.** Name the intestinal worm that enters the body by burrowing into the skin.
.....
- 20.** Mention any **one** method used in intensive system of keeping poultry in Uganda.
.....

- 21.** Give **one** way of reducing echoes in a cinema hall.
.....
- 22.** State any **one** method of separating solid mixtures.
.....
- 23.** Mention any **one** activity of man that is likely to decrease the amount of rainfall.
.....
- 24.** State **one** way of protecting iron bars from rusting.
.....

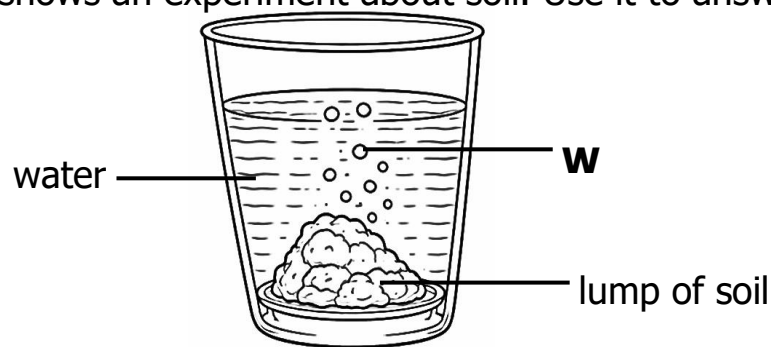

The diagram below shows the life cycle of a certain insect. Study it and answer questions **25** and **26**.

- 25.** Name the type of life cycle drawn above.
.....
- 26.** Give a reason why houseflies lay eggs in decaying matter.
.....
- 27.** Identify the structure in leaves that allows water to be lost during transpiration.
.....
- 28.** State any **one** danger of poor feeding to a young child.
.....
- 29.** Mention any **one** way banana fibre can be useful to man.
.....
- 30.** State the reason why wax contributes to improving sound quality produced by a tube fiddle.
.....

31. Give the reason for planting seeds during rainy weather.
.....
32. Name the germ that causes cholera to people.
.....
33. Mention **one** way in which reproduction of a whale is different from that of a shark.
.....
34. Identify the vaccine given to a child in the mouth soon after birth.
.....

The diagram below shows an experiment about soil. Use it to answer questions **35** and **36**.

35. Name the structure marked **W**.
.....
36. State what the above experiment proves about soil.
.....
37. Give a reason why a dog is regarded as a domestic animal.
.....
38. Mention any **one** characteristic that makes the anopheles mosquito a vector of malaria.
.....
39. Identify the cheapest way of making water from the well safe for drinking.
.....
40. Give a reason why maize is regarded as an annual crop.
.....

SECTION B: 60 MARKS

Questions **41** to **55** carry **four** marks each.

41. (a) Name **two** projects that can be helpful to the school.

(i).....

(ii).....

(b) Give any **one** requirement needed for starting such a project.

.....

(c) Mention any **one** way such projects can be useful to a school.

.....

42. (a) Name the set of teeth that grows:

(i) first

(ii) last

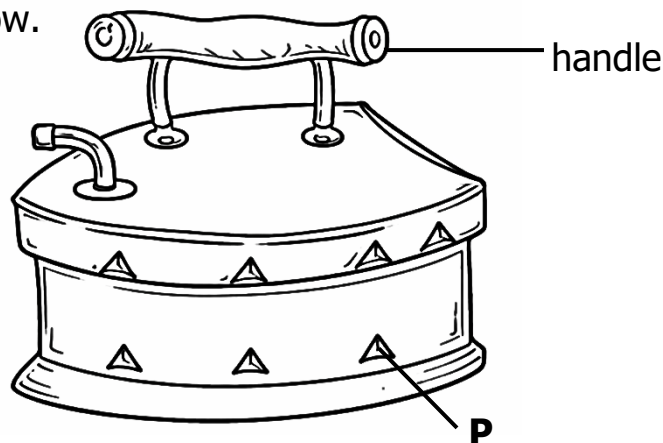

(b) Mention any **one** disease that can affect teeth.

.....

(c) State any **one** way of controlling diseases that affect teeth.

.....

43. The diagram below shows an item commonly used at home. Use it to answer the questions that follow.

(a) Name the item shown in the diagram.

.....

(b) Give the use of the above tool at home.

.....

(c) State the use of holes marked P on the above tool.

.....

- (d) Identify the common material used to make the handle of the above tool.

.....

- 44.** (a) Name the wind weather instrument that:

(i) shows direction of wind:.....

(ii) measures speed of wind:.....

- (b) State any **two** dangers of strong wind to people.

(i).....

(ii).....

- 45.** (a) Mention any **one** type of poultry.

.....

- (b) State **two** edible products we get from poultry.

(i).....

(ii).....

- (c) Give **one** way how feathers keep a bird warm on a cold day.

.....

- 46.** A farmer planted maize in two gardens. In the first garden, he added manure and carried out weeding regularly. In the second garden, he did not add manure and left many weeds growing. After some time, maize in the first garden grew tall and healthy. In the second garden, it became weak and stunted.

- (a) State what would have made maize to grow well in the first garden.

.....

- (b) Give the importance of adding manure to the garden.

.....

- (c) State the effect of weeds to maize plants in the second garden.

.....

- (d) Name any **one** kind of manure, the farmer can add in the second garden.

.....

- 47.** (a) Name the type of clouds that are important in the water cycle.

.....

- (b) Mention any **one** element of weather which is useful in plant growth.

.....

- (c) State any **two** ways heat from the sun can be dangerous to our environment.

(i).....

(ii).....

- 48.** The table below shows different organisms. Study them and answer the questions that follow.

A	B	C
Frogs Toads	Bat Duck-billed platypus Lion	Scorpion Spiders

- (a) Name the class of vertebrates to which animals in A and B belong.

(i) **A**

(ii) **B**

- (b) State the way organisms in list C breathe.

.....

- (c) Identify any **one** common characteristic in animals of list B.

.....

- 49.** (a) Give the importance of the acid produced in the stomach during digestion.

.....

- (b) State any **two** roles of the stomach in the process of digestion.

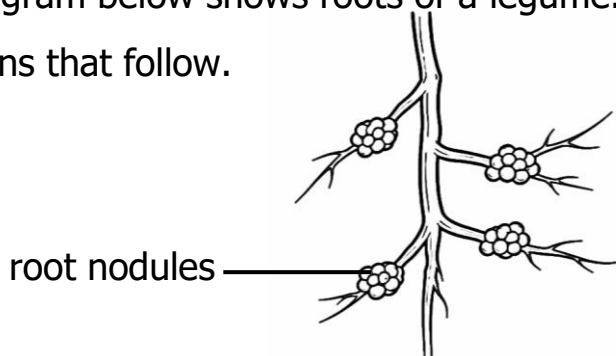

(i).....

(ii).....

- (c) Mention any **one** way of caring for the digestive system.

.....

- 50.** The diagram below shows roots of a legume. Study it and use it to answer questions that follow.

(a) Give the use of the root nodules in a legume.

.....

(b) State the way legumes improve soil fertility.

.....

(c) Apart from beans, give any **two** examples of legumes.

(i).....

(ii).....

51. (a) Mention any **two** crop-growing practices carried out after planting seeds.

(i).....

(ii).....

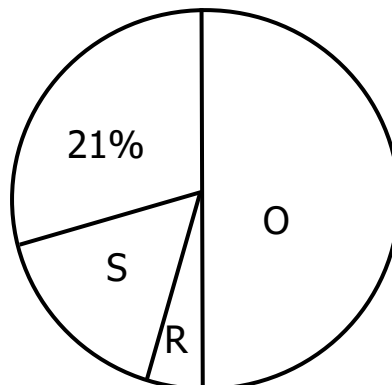

(b) Give any **one** garden tool used for planting seeds.

.....

(c) State any **one** way of caring for garden tools.

.....

52. A group of Primary Six learners carried out an activity to show the different components of air using a circle graph below. Study it carefully and answer the questions that follow.

(a) Name the component of air represented by letter **O**.

.....

(b) Identify any **one** example of component **S** used in disco lights.

.....

(c) Apart from being used by people, state **one** other use of air component that makes up the 21% in daily life.

.....

(d) Mention the way component R is useful to green plants.

.....

53. (a) Name the internal body organ responsible for:

(i) Producing urine

(ii) Pumping blood

(b) Identify the body sense that helps humans to know that tea is hot.

.....

(c) State any **one** reason why blood is carried to the lungs.

.....

54. (a) Name any **two** parts of the plant that provide food to humans.

(i).....

(ii).....

(b) Give **one** reason why people are encouraged to use energy-saving stoves when cooking food.

.....

(c) Mention **one** way ficus trees are useful to people.

.....

55. The following sentences describe how to cross a busy road.

Study and arrange them to make a correct order.

(i) If the road is clear, then cross but do not run.

(ii) Look right again.

(iii) Look right, look left.

(iv) First stop alongside the road.

.....

.....

.....

.....
