.....

b) Identify any two categories of people in our society who stand high risks of catching HIV.
.....

48. *The diagram below shows a method of producing alcohol. Use it to answer the given questions.*

a) Name the method of producing alcohol in the diagram.
b) State the role of cold water in the process above.
.....

c) Mention the form of physical change that takes place in drum A.
.....

d) Give one use of the alcohol produced by the above method.
.....

49. a) State two factors you would use to identify a dicotyledonous plant.
-
- b) Give the role of each factor below during seed germination.
- i) Moisture:
-
-
- ii) Oxygen:
-

50. *Match the processes to the gases they need to take place.*

<u>Process</u>	<u>Gas</u>
i) Preservation of bottled drinks:	carbon dioxide
ii) Rusting	nitrogen
iii) Storage of semen	carbon dioxide
iv) Putting out fire	oxygen

- i) Preservation of bottled drinks:.....
- ii) Rusting:
- iii) Storage of semen:.....
- iv) Putting out fire:

51. *Use the reproductive system below to answer the given questions.*

a) Name the part marked

P.
.....

b) What do we call the type of pregnancy where a zygote implants itself in part

Q?
.....

c) What health problem affects part R that women should always check for?

d) Which letter indicates the part where sperms are deposited during sexual intercourse?

.....
.....
