

WEEK	PERIOD	THEME	TOPIC	SUB TOPIC	COMPETENCES		CONTENT	METHOD \$TECHNIQUES	LEARNING ACTIVITY	LIFE SKILLS \$ VALUES	LEARNIG AIDS	SNE TIPS	REF
1	1	SCIENCE IN HUMAN ACTIVITIES AND OCCUPATION	KEEPING POULTY AND BEES	Keeping Poultry	The learner; i)Describes the meaning of poultry and poultry keeping ii) Gives the types of poultry. ii) Suggests the importance of rearing poultry. iv) describes the external parts of a domestic fowl s	The learner reads spells and uses words in sentences -poultry -fowl -poultry keeping -chicken -hen	Poultry keeping Poultry; are all kinds of domestic birds /fowl. Poultry keeping ;is the rearing of domestic birds <u>TYPES OF POULTRY</u> - Chickens - Ducks - Turkey <u>IMPORTANCE OF REARING POULTRY</u> -For egg production External parts of a cock and a hen	-Observation -Questions and answer	-Drawing -Answering to guiding questions	-decision making. -care. Critical thinking Effective communication Creative thinking	-real objects	-use of real objects	-p.5 Cur. Pg. 22 Comprehensive Primary Science Pg. 1.3
	2			Types of chicken	The learner; i)States the differences between a cock and a hen ii)gives examples in each type of chicken	The learner reads , spells and uses words in sentences - Layers - Broilers - Dual purpose	<u>DIFFERENCES BETWEEN A COCK AND A HEN</u> -a cock has a big comb while a hen has a small comb <u>TYPES OF CHICKEN</u> A type of chicken is a group of chicken kept for a particular purpose. <u>Layers</u> are types of chicken kept for egg production e.g. ; - Ancona , white leghorn						

	3				The learner ; i) Describes the different types of chicken. ii) gives examples in each type	The learner reads spells and uses words in sentences -broilers (table birds) Dual purpose	<u>BROILERS</u>, are the types of chicken kept for meat production e.g. – Cornish white. -jersey black giant. <u>DUAL PURPOSE</u> ; are types of chicken kept for both egg and meat production E.g. Rhode island red	-Guided Discovery - demonstration	-describing different types of chicken	-creative thinking -decision making -fluency	- Real objects	Proper positioning	Mk Integrated p.5 science pg. 6 p5 curriculum Pg. 22
	4		KEEPING POULTRY AND BEES	Breeds of chicken	The learner; i) describes the term breed of chicken ii) suggest the breeds of chicken iii) mention the x-tics of each breed of chicken	The learner spells reads and uses words in sentences -breed -local -exotic	<u>BREEDS OF CHICKEN</u> Are groups of chicken with similar characteristics and origin <u>BREEDS OF CHICKEN</u> <u>LOCAL/ INDIGENOUS BREED</u> , this is a breed of chicken which has been kept in a Uganda for many years <u>Characteristics of local breeds of chicken;</u> They have different colours They mature slowly <u>Exotic breeds of chicken</u> Are imported breeds_ of chicken e.g. white leg horn <u>Characteristics</u> They mature fast	Brain storming Demonstration	-Describing the different breeds of chicken	- concern problem Solving coping with stress	Real objects	Being audible enough	MK INTEGRATE D P5 SCIENCE PG 5 PS CURRICULUM PG 22

	5	S I C E N C E I N H U M A N A C T I V I T I E S A N D O C C U P A T I O N S	KEEPING POULTRY AND BEEES	BREEDS OF CHICKEN	The learner i)describes across breed ii) Suggests the advantages and disadvantages of keeping exotic breeds. iv)identifies the ways of improving the quality of local breeds of chicken	The learner reads , spells and uses the word in a sentence -cross breeding -hybrid	<u>Cross breed is a breed</u> Got by mating a local breed with an exotic breed <u>Advantages of keeping local breeds</u> -they are resistant to disease causing germs <u>Disadvantages of keeping local breeds</u> -they mature slowly <u>Advantages of keeping exotic breeds</u> -they mature faster <u>Disadvantages of keeping exotic breeds</u> They are less resistant to disease causing germs <u>Ways of improving on the quality of local breeds</u> By cross breeding By proper feeding	-group discussion -questions and answer	-suggesting the advantages and disadvantages of each breed of chicken	-confidence -effective communication	Nearby poultry unit	-proper positioning	Sure key integrated p5 science pg. 14 4 P5 curriculum 22
--	---	--	--	-----------------------------	---	---	---	---	--	--	---------------------	---------------------	---

	6	S I C E N C E I N H U M A N A C T I V I T I E S A N D O C C U P A T I O N S	KEEPING POULTRY AND BEES	Systems of keeping chicken	The learner ; i)describes free range system ii)suggests advantages and disadvantages of free range system ii) Describes the fold /pen system. iv)suggests the advantages and disadvantages of range system	The learner reads and spells words correctly in sentences -free range system -fold system -pen system	<u>System of keeping poultry ;</u> <u>i) Free range system.</u> It is a system where birds are left to move looking for food. <u>Advantages of free range</u> It is cheap <u>Disadvantages</u> Birds can be stolen folden system. <u>Fold/pen system ;</u> is A system in small movable structures <u>Advantages</u> It is easy to collect manure <u>Disadvantages</u> -birds lack enough physical exercise	-observation -Question\$ answer -observation	Mentioning the advantages and disadvantages of the free range system -describing the advantages and disadvantages of the free range and open system	-Creative thinking -Decision making -care -decision , Making -self awareness	-Nearby community with poultry -nearby poultry unit	Being audible -Use of real objects	Sure key science (p5) pg. 14-15 p5 curriculum pg. 23 comprehensive p.5 science pg. 13-14 p5 curriculum pg. 23 23
--	---	--	---------------------------------------	-------------------------------------	---	---	---	--	---	---	--	---	--

2	1	Science in Human activities And occupation	KEEPING POULTRY AND BEES	Deep litter and battery system	The learner i)describes the deep litter system ii)identifies the advantages and disadvantages of the deep litter system ii) Describes the battery /cage advantages and disadvantages of the battery /cage system.	The learner reads ,spells and uses words in sentences -batter -deep litter	<u>-Deep litter system ;</u> is a system where birds are kept in a house all the time <u>Advantages</u> Manure is easy to collect <u>Disadvantages</u> Birds lack enough physical exercise. <u>Components of the deep litter house</u> -litter which keeps the house dry and worm -perches for birds to do physical exercise. <u>Battery system</u> is where birds are kept in separate cages <u>Advantages</u> eggs are easy to collect <u>Disadvantages</u> it is expensive.	-Observation -question and answer	-describing the advantages and disadvantages of the deep litter and battery system	- self awareness -Empathy -Confidence -effective communication Critical thinking Creative thinking Concern 4	_Nearby poultry unit	-Use of real objects	Mk integrated P5 science pg. 1-10 P5 curriculum Pg23
---	---	--	--------------------------	--------------------------------	---	---	--	---	---	---	----------------------	----------------------	---

	2	Science in Human activities And occupation	KEEPING POULTRY AND BEES	Management practices in poultry ie feeding and housing	The learner ; i)describes feeding and housing as management practices	-the learner reads spells and uses words in sentences -feeding Housing	<u>Management practices</u> these are routine activities on a form e.g. <u>Feeding</u> -poultry feeds i.e. Chicks mash for chicks , Growers mash for growers /layers <u>(ii) importance of proper feeding</u> -it improves eggs production -for birds to lay eggs with hard shells <u>ii) housing</u> <u>importance of housing</u> -to protect birds from harsh weather <u>Qualities of a good poultry house</u> -should be well ventilated	-Demonstration -project work -brain storming	Answering question	-self esteem -care	-proper Positioning	Comprehensive p.5 science pg. 12 p5 curriculum pg. 23	
--	---	--	--------------------------	--	--	--	--	--	--------------------	---------------------------	---------------------	---	--

	3	Science in Human activities And occupation	KEEPING POULTRY AND BEES	Breeding /reproduction	The learner ; i)described the term breeding in poultry ii)draw and describes the parts of an egg	The learner reads, spells and uses words correctly in sentences -breeding / reproduction in poultry	- Breeding is the way how poultry reproduces and increases in number - How do poultry reproduces? By laying eggs <u>parts of an egg and their functions</u>	- Observation demonstration	- -Drawing	- Creative thinking -Problem solving -logical reasoning	-use of real objects	Comprehensive p5 science pg. 24 p5 curriculum pg. 23	
	4	Science in Human activities And occupation	KEEPING POULTRY AND BEES	Incubation	The learner i)describes the term incubation ii) Suggests the types of incubation. iii)gives the advantages and disadvantages of each type of incubation	The learner reads , spells and uses words in sentences -natural incubation -artificial incubation	<u>Incubation:</u> is the providing of right conditions for fertilized eggs to hatch <u>-Types of incubation</u> <u>Natural incubation</u> Is where a broody hen provides right conditions for its eggs to hatch <u>Advantages of natural incubation</u> It is cheap <u>Disadvantages</u> -it is not good for commercial purposes <u>Artificial incubation</u> This is where eggs are put in an incubator <u>Advantages</u> It is good for commercial purposes <u>Disadvantages</u> <u>It is expensive</u>	Guided discovery observation	Describing the advantages and disadvantages of natural and artificial brooding	-Critical thinking -problem solving -Care	-Being audible	Mk integrate science (p5)pg. 13 p5 curriculum 23	

	5	Science in Human activities And occupation	KEEPING POULTRY AND BEES	Brooding	The learner ;)describes the term brooding ii) mentions the types of brooding iii)suggests the advantages and disadvantage s of each type of brooding	The leaner reads , spells and uses the words in sentences ; -natural brooding -artificial brooding	Brooding ;is the providing of special care to chicks Types of brooding i)Natural brooding; is where a broody hen provides care to its chicks Advantages Its cheap Disadvantages It is not good for commercial purposes ii) artificial brooding is where chicks are cared for in a brooder Advantages It is good for commercial purposes Disadvantages it is expensive	-Project work -Question and answer	_Describing the types of brooding	-Decision making -Effective communication	-Nearly poultry unity	-Proper positionin g	p.5 curriculum pg. 23 . comprehensive p.5 science pg. 26
	6			Poultry vices	The leaner; i)describes poultry vices ii)gives examples of poultry vices iii)suggest the signs and control of poultry vices	The learner reads ,spells and uses words in sentences, -Poultry vices -Feather pecking -Toe pecking	Poultry vices ; are bad habits in poultry Examples of poultry vices -egg eating -toe pecking Feather pecking Causes of poultry vices -Poor feeding Signs of poultry vices -egg shells with holes -Yellow stains on the birds beak. Control of poultry vices By de beaking	-Brain storming -illustration	-Mentioning the examples of poultry vices	-Critical thinking -Self esteem	-Nearby poultry unit	Using real objects	Mk integrated p5 science pg. 15 p5 curriculum pg. 23

3	1	Science in Human activities And occupation	KEEPING POULTRY AND BEES	Parasites and diseases in poultry	The learner i)defines parasites ii)suggest types of parasites iii)gives examples of each type of parasites iv) control of parasites in poultry.	The learner reads ,spells and uses the words in sentences -Parasites -Endo parasites _ Ecto parasites	<u>Parasites in poultry</u> <u>Parasites</u> are organisms which depend on the host <u>Types of parasites</u> <u>External parasites</u> E.g. –mice -lice <u>internal parasites</u> worms <u>How to control parasites in poultry</u> By spraying By giving birds clean feeds	Group discussion Brain storming	Describing the types of parasites	Care -self awareness -effective communication	Real objects	Proper positioning	Mk integrated science (p5) pg. 20 p5 curriculum pg. 23
	2			Parasites and diseases in poultry	The learner i)suggests the diseases in poultry ii)gives the causes of diseases in poultry iii) states the signs and control measures of each disease in poultry	The learner reads ,spells and uses words in sentences -protozoa -virus -bacteria -coccidiosis	<u>Diseases , causes signs , prevention and control</u> <u>-coccidiosis</u> Caused by protozoa Signs \$symptoms -dullness -diarrhoea <u>Prevention</u> -Keep the poultry house clean and dry <u>New castle</u> Caused by a virus Signs \$ symptoms Coughing , body weakness Prevention vaccination	-observation -question and answer	-Answering questions	-Creative thinking -Love sharing	-Charts	- Allocating extra time	Mk integrated p5 science pg. 18 .p5 curriculum pg. 23
	3			Bee keeping / apiculture	The learner; i)describes the term apiculture ii)states the importance of bees to plants and people ii)describes the life cycle of bees	The learner reads , spells and uses words In sentences -Apiculture _grud Honey	<u>Apiculture /bee keeping</u> It is the act of rearing honey bees <u>Importance of bee</u> To people; i)bees provide honey ii)bees provide wax to plants ; i)they pollinate plants <u>the life cycle of a bee.</u> Adult –eggs –larva-pupa.	Demonstration Brain storming	Stating the importance of keeping bees	Effective communication Problem solving Sharing	chart	Allocating extra time	P5 Curriculum pg. 23 Comprehensive p.5 science pg.31-35

	4	Science in Human activities And occupation	KEEPING POULTRY AND BEES	swarming	The learner i)defines the term swarming ii)states the reasons ,conditions, for swarming ii)suggests the control measures for swarming	The learner reads spells and uses words in sentences -swarming -swarm	Swarming ; is the movement of a group of bees from one place to another looking for a new hive Reasons for swarming -when another queen bee is born -direct sunlight into the hive Control measure for swarming By planting flowers	Brain storming Illustration	Drawing	-self esteem -confidence -fluency	Chart Text Books	Proper positioning	P5 curriculum pg. 23
	5	Science in Human activities And occupation	KEEPING POULTRY AND BEES	Types of bees	The learner i)identifies the types of bees ii)states the duties of each type iii)suggests the characteristics of each type iv)draws the structure of each type	The learner reads ,spells and uses words in sentences -sterile -royal jelly -sting -ovipositor	types of bees and the characteristics i)queen bee the largest bee ii)drone bee they don't have a sting iii)worker bee smallest bee in the hive		Stating the duties of each type of bee	-care -creative thinking	Real object	Proper positioning	P5 curriculum pg 23
	6	Science in Human activities And occupation	KEEPING POULTRY AND BEES	Bee hives	The learner i)describes the meaning of a bee hive ii)suggests the type of bee hive iii)gives example of each type iv)draws different	The learner ,spells ,reads and uses words in sentences -hive -dug out log -queen excluder	Bee hives A bee hive is a habitat for bees Types of bee hive i) natural bee hives they exist naturally e.g. holes in the out hill ii)Artificial bee hives these are bee hives which are made by man e.g. kigezi bee hive iii)modern bee hive	Observation Demonstration Question and answer	Describing different types of bees	Critical thinking Problem solving Sharing	Real objects	Being audible enough	P5 comprehensive science pg 35-36

					types of bee hives		they are bee hives which have a queen excluder; e.g. top bar hive <u>structure of a modern bee hive</u>						
4	1	Science in Human activities And occupation	KEEPING POULTRY AND BEES	Sitting and stocking hives	The learner ; i)describes the terms sitting and stocking ii)states the factor considered during sitting iii)suggests the methods of stocking beehives	The learner reads , spells and uses words in sentences -sitting -stocking -at other net	<u>Sitting and stocking hives</u> Sitting is the selecting of a suitable place to put bee hives <u>Factors to consider when sitting</u> -a place should be far from noise - a place should be near flowering plants <u>Stocking</u> ; is the act of attracting bees to enter a hive <u>Methods of stocking</u> -using a catcher box -using a swarm catching net	-Observation -brain storming - illustration -question and answer	Answer to questions	Confidence Decision making	Improvised Catcher net	Proper positioning	p.5 comprehensive science pg 38 p5 curriculum
	2	Science in Human activities And occupation	KEEPING POULTRY AND BEES	Harvesting honey	The learner i)describes the term honey harvesting ii)suggests the equipment used in honey harvesting iii)draws a diagram of a honey harvester	The learner spells reads and uses words in sentences -harvesting Combs Smoker	<u>Harvesting honey</u> Is the act of removing honey combs from hives <u>Equipment used</u> <u>i)knife for cutting</u> honey combs <u>bucket</u> ;for putting in honey combs <u>diagram of a honey harvester</u>	Demonstration Question and answer	Answering to questions	Self-awareness Confidence	Bucket Knife Overall	Being audible Enough	P5 mk scie pg. 27 P5 curriculum pg. 23

	3	Science in Human activities And occupation	KEEPING POULTRY AND BEES	Honey extrication	The learner i)describes the term honey extraction ii) suggests the methods of honey extraction iii)states the products of bees and their importance iv)mention the bee enemies	The learner reads , spells and uses words in sentences -honey extraction Centrifuging Bees wax	Honey extraction Is the removal of honey from combs Methods of extraction Pressing honey method modern method bee products honey bees wax bee enemies ants honey badges	Illustration Brain storming	Stating the method of extracting honey	Problem solving Critical thinking	Honey bees	Allowing more extra times	P5 mk science page29 P5 curriculum 23
	4	Science in Human activities And occupation	KEEPING POULTRY AND BEES	Record keeping	The learner i)defines the term records and record keeping ii)states the types of records iii) suggests the importance of records	The learner reads ,spells and uses word in sentences -record keeping -records	Record keeping Records are written information about activities on the farm Record keeping is the storing of written information Types of records Production records Sales records Reasons for record keeping For future references To plan for the farm	Question and answer Demonstration	Suggesting the importance of record keeping	Creative thinking Decision making	Record book	Proper position	Comprehensive p5 science pg. 30 p5 curriculum pg. 23
	5	MATTER AND ENERGY	MEASUREMENTS	Instruments and units used in measurements	The learner ; i)defines the terms -matter -measurements -ii)states the importance of measurements ii)suggests the tools used in	The learner reads spells and uses words in sentences -matter -mass -weight -measurements	Matter ; is anything that occupies space and has weight and mass . Measurement ; is the act of finding out the size ,amount or degree of something Importance of measurement ; -to find out the exact amount of something Tools used in measurements Weighing scale Ruler Units used Metres Grammes	-Observation -Brain storming	-Measuring different aspects of matter	Problem solving Critical thinking Logical reasoning	-Ruler -Weighing scale	-Using real objects	P5 curriculum pg25

5					measurements								
	6	MATTER AND ENERGY	MEASUREMENTS	Mass and weight	The learner; i)states what we measure ii)describes mass and weight iii)states the units for measuring mass and weight iv) compares weight and mass v)gives the relationship between weight and mass	The learner reads , spells and uses words in sentences -grammes -newton	<u>what we measure</u> <u>Mass;</u> is the quantity of mater contained in an object. Mass is measured in grammes <u>Weigh;</u> is the force of gravity exerted by an object on earth weight is measured in newton <u>Differences and similarities between weight and mass -relationship between weight and mass</u>	Demonstration Guided discovery Question and answer	Comparing weight and mass	Confidence Creative thinking	Weighing scale	Using clear instructions	Comprehensive p5 science pg. 51 o5 curriculum pg. 25
	1	MATTER AND ENERGY	MEASUREMENTS	Volume and capacity	The learner i)describes the terms -volume -capacity ii) suggests the units for measuring volume and capacity ii)finds the volume of	The learner reads spells and uses the words in sentences Volume Capacity Cubic units	<u>Volume and capacity</u> <u>Volume</u> is the amount of space occupied by an object - It is measured in cubic units <u>Volume of a regular object</u> Regular objects are objects with a definite shape e.g. cube tins <u>Find the volume of the figure below</u> Volume=length x width x height	Illustration Guided discovery	Finding the volume regular objects	Effective communication Decision making accuracy	Real objects	Using Real objects	Mk integrated p5 science pg. 36-37 P5 curriculum pg. 25

					regular objects		$=(5 \times 3 \times 2)$ $= 30 \text{ cm}^3$ Capacity is the amount of liquid and container can hold It is measured in litres						
	2	M A T T E R A N D E N E R G Y	M E A S U R E M E N T S	Density	The learner i)describes the term density ii)calculate density iii)states the behaviour of different objects when placed in water iv) describes the term	The learner reads spells uses word in sentences -density -mass per unit volume	Density is the mass per unit volume of an object Calculating for density Find the density of object with mass of 8g and volume of 4cc $\text{density} = \frac{\text{mass}}{\text{volume}}$ $= \frac{8}{4}$ $= 2 \text{ g/cc}$ Behaviour of different objects when place in water Some objects sink in water (sinking objects) Other objects float on water(floating objects) Reasons for sinking or floating Buoyancy the force which enables to float on water	Chalkboard illustration Think, pair and share	Calculating for density	-self awareness -accuracy -critical thinking	-water in a basin Floating and sinking objects	Proper positionin g	Comprehensive p5 science pg. 53 -54 P5 curriculum pg. 25
	3			Volume of irregular objects	The learner i)describes irregular objects ii)gives example of irregular objects iii)finds the volume of irregular objects	The learner spells , reads and uses the words in sentences -Volume -Displacement -irregular	Irregular objects These are objects without a definite shapes e.g. –a stone Volume of irregular objects i)by subtracting what is the volume of the stone below ? $\text{Vol} = (2^{\text{nd}} - 1^{\text{st}}) \text{ level}$ $= (20 - 10) \text{ cc}$ $= 10 \text{ cc}$	Experimentation Question and answer	Carrying out a displacement experiment	Accuracy Problem solving	Water Measuring cylinder stone	Using real objects	Mk integrated p5 science pg. 38-39 P5 curriculum pg. 25

	4	Human health	immunisation	Natural immunity	The learner i)describes the term natural immunity ii)suggests the type of immunity iii)explain how we acquire artificial immunity iv0 suggests the importance of immunity	The learner reads ,spell, and use words in sentences - immunity -natural immunity -antibodies	<u>Immunity</u> ;is the ability of the body to resist against disease causing germs <u>Types of immunity</u> <u>Artificial immunity</u> is the type of immunity acquired from vaccines <u>Ways of acquiring Artificial immunity</u> Through taking drugs Through immunisation QN <u>how does immunisation boost the immunity of a body</u> Vaccines make the body to produce anti-bodies <u>Importance of immunity</u> makes the body to resist against diseases	-Guided discovery _Think pair and share	-describing the term immunity	Effective communication -self awareness care	-nearby health centre Resourceful person	Being audible enough	P5 curriculum pg. 26
	5	Human health	immunisation	Natural immunity	The learner; i) describes the term natural immunity. ii)states the way how we acquire natural immunity iii)suggests how different ways improve immunity	The learner read, spell and use words in sentences -natural immunity Balanced diet	<u>Natural immunity</u> is the type of immunity acquired through natural ways <u>Ways how we acquire natural immunity</u> Through breast feeding <u>How breast feeding improves immunity</u> Breast milk has anti bodies which boost immunity of the body By eating a balanced diet (how) balanced diet helps the body to produce anti bodies	Guided discovery Discussion	Answering to guiding questions	Critical thinking Decision making	Fruits	Using real life situations	New vision p5 science pg. 45 p5 curriculum pg. 26

6	1	Human health	immunisation	Childhood immunizable diseases	The learner ; i)gives the meaning of childhood immunisable diseases ii)states the examples of childhood immunisable diseases iii)gives the causes, signs and symptoms of each childhood immunisable` disease	The learner reads spells and uses the word to construct sentences ; -immunizable diseases -childhood killer diseases	<u>Childhood immunisable diseases</u> These are diseases common in children below six years and are prevented through immunisation <u>Examples of childhood immunisable diseases</u> Polio Tuberculosis Tetanus <u>Causes, signs and symptoms of childhood immunisable diseases</u> Polio Measles Tuberculosis Pertussis <u>Causes ,signs and symptoms of childhood immunisable diseases</u> Tetanus Pneumonia Diphtheria Hepatitis B	Guided discovery Question and answer Brain storming	Describing the causes signs and symptoms And prevention Of childhood killer diseases	Creative thinking Concern Care Problem solving	chart	allocating	New vision integrated p5 science pg. . 46-47 P5 curriculum pg. 26
---	---	--------------	--------------	--------------------------------	---	--	--	---	--	---	-------	------------	--

	2	Human health	immunisation	immunisation	The learner i) defines the term immunisation ii) states the methods of immunisation iii) gives the importance of immunisation	The learner reads spells and uses the words in sentences Immunisation Oral method Injection method	<u>Immunisation</u> is the introduction of vaccines into the body to boost immunity <u>Methods of immunisation</u> Injection method and oral method <u>Importance of immunisation</u> To reduce infant mortality rate	Guided discovery Question and answer Brain storming	Describing the causes signs and symptoms And prevention Of childhood killer diseases	Creative thinking Concern Care Problem solving	chart	allocating	New vision integrated p5 science pg. . 46-47 P5 curriculum pg. 26
	3	Human health	immunisation	Vaccines	The learner i) describes the term vaccines ii) gives the examples of vaccines iii) suggests the ways how vaccines are stored iv) gives reasons why vaccines should be stored in good conditions v) names the materials used in storage of vaccines	The learner reads ,spells and uses the words in sentences -vaccines -storage of vaccines -cold chains	<u>Vaccines</u> are special drugs introduced into the body to boost its immunity <u>Examples types of vaccines</u> -BCG vaccine Polio vaccine <u>Ways how vaccines are stored</u> Storing in clean cool dry places <u>Reasons why vaccines should be stored in cool conditions</u> To protect them from contamination To maintain their strength <u>Materials used to store vaccines</u> Cold chain box Refrigerator	- Demonstration -Question and answer	-identifying the ways how vaccines are stored	Care -Effective communication -Critical thinking -Creative thinking	-Cold chain box	Proper positioning	Comprehensive p5 science pg. 60 p5 curriculum pg. 27
	4	Human health	immunisation	Immunisation sites	The learner; i) gives the meaning of immunisation sites i) name different immunisation sites ii) states the reason for immunising on different sites	The learner reads ,spells and uses the words to construct sentences , Sites Left upper arm Right upper arm	<u>Immunisation sites</u> Are parts of the body where vaccines are introduced <u>Illustration</u> <u>Reason for different immunisation sites</u> For easy identification of vaccines already administered	Demonstration Brain storming	Drawing immunisation sites	Sharing Confidence Problems solving	A Chart showing Immunisation sites	Being audible	Sure key integrated p5 science pg. 71 p5 curriculum pg. 27

7	5	Human health	immunisation	Immunisation schedule	The learner i)gives the meaning of the term immunisation schedule ii)states different immunisation schedules iii)gives reasons for different immunisation schedules	The learner reads spells and uses words in sentences -Schedule	<u>Immunisation schedule</u> Is the time interval between different vaccinations <u>Immunisation schedule</u> <table><tr><th>disease</th><th>age</th><th>Vaccine</th></tr><tr><td>polio</td><td>At birth</td><td>Polio vaccine</td></tr><tr><td>measles</td><td>9 months</td><td>Measles vaccine</td></tr></table> <u>Why is polio vaccine given at birth</u> This is because babies are born without natural immunity against polio <u>Why is measles vaccine given at 9months</u> This is because babies are born with natural immunity against measles	disease	age	Vaccine	polio	At birth	Polio vaccine	measles	9 months	Measles vaccine	Group discussion Think pair and share	Stating the different immunisation schedules	Self-awareness Logical reasoning	Charts	Being audible enough	New vision integrated p5 science pg49 p5 curriculum pg.27		
	disease	age	Vaccine																					
	polio	At birth	Polio vaccine																					
measles	9 months	Measles vaccine																						
6	Human health	immunisation	Other immunisable diseases	The learner i)gives examples of other immunisable diseases ii) states the causes signs /symptoms and prevention of other immunisable diseases	The learner reads , spells and uses the words in sentences -CHOLERA Typhoid _Coved 19	<u>Other immunisable diseases</u> <table><tr><th>disease</th><th>cause</th><th>Sign symptom</th><th>prevention</th></tr><tr><td>cholera</td><td>bacteria</td><td>Severe vomiting</td><td>Promote sanitation Immunisation</td></tr><tr><td>Coved 19</td><td>Virus</td><td>Severe fever</td><td>Immunisation</td></tr></table>	disease	cause	Sign symptom	prevention	cholera	bacteria	Severe vomiting	Promote sanitation Immunisation	Coved 19	Virus	Severe fever	Immunisation	Guided discovery Demonstration	Answering to guiding questions	Self-awareness Decision making	Charts	Proper positioning	Sure key integratedp5 science pg. 74-75 p5 curriculum pg.27
disease	cause	Sign symptom	prevention																					
cholera	bacteria	Severe vomiting	Promote sanitation Immunisation																					
Coved 19	Virus	Severe fever	Immunisation																					
1 & 2	Human health	immunisation	Child health card	The learner; I)Gives the meaning of the term child health card ii)states the information found on a child health card iii)gives the importance of each information found on a child health card	The learner reads spells and uses the words in sentence Child health card	<u>Child health card</u> is a document which shows the child 's growth and immunisation records <u>Information on a child health card and the importance of each</u> <table><tr><th>information</th><th>Importance</th></tr><tr><td><u>Date of birth</u></td><td><u>To</u> give the right vaccine at the right age</td></tr><tr><td><u>Next date of immunisation</u></td><td><u>To</u> remind parents of the next immunisation</td></tr></table>	information	Importance	<u>Date of birth</u>	<u>To</u> give the right vaccine at the right age	<u>Next date of immunisation</u>	<u>To</u> remind parents of the next immunisation	Illustration Brain storming	Stating the importance of each information on a child health card	Decision making Responsibility	Child health card	Using real objects	Sure key integratedp5 science pg. 76 p5 curriculum pg.27						
information	Importance																							
<u>Date of birth</u>	<u>To</u> give the right vaccine at the right age																							
<u>Next date of immunisation</u>	<u>To</u> remind parents of the next immunisation																							
	3	Human health	immunisation	Importance of a child	The learner ; gives the importance of a child health card to	The learner reads ,spells and uses	<u>Importance of a child health card to the parent</u> It reminds the parent the next date of immunisation	Illustration Brain storming	Giving reasons why it is important	Decision making responsibility	Child health Card	Using real objects	P5 curriculum pg. 27											

				health card	- the parent -the health worker	words in sentences -Child health card	It helps the parent to monitor the growth of the baby <u>To the health worker</u> Helps the health worker to know the next vaccine to be given to the baby		to keep a child health card				
	4 \$ 5	Human health	immunisation	Ways of promoting immunisation	The learner; i)states the responsibilities of individuals community and families in promoting immunisation	The learner reads spells and uses words in sentences -Health centres -Immunisation meetings -Sensitization	<u>Roles of @ individuals in promoting immunisation</u> Taking children for immunisation <u>b)families</u> -participating in immunisation meetings -reminding other people the date of immunisation <u>School children</u> -taking their siblings for immunisation -informing their parents about national immunization days <u>d)communities</u> -sensitizing the mass about the importance of immunisation -building centres <u>Examples of immunisation centres</u> Health centres Hospitals	Question and answer demonstration	Answering guiding questions	Confidence Critical thinking	Text books	Being audible	Sure key integratedp5 science pg. 79 p5 curriculum pg.27
	6	Human health	immunisation	digestion	The learner i)defines the terms digestion ii)sates the types of digestion iii)draws the alimentary canal	The learner reads ,spells and uses words in sentences -digestion -alimentary canal	<i>Digestion is the process by which food is broken down into smaller particles</i> <u>Types of digestion</u> <i>Chemical digestion</i> <i>Mechanical digestion</i> <u>Parts of the alimentary canal</u>	Discussion Pair think and share	Drawing the aliment canal	Decision making Sharing	charts	Proper positioning	P5 curriculum pg. 28s
8	1 \$ 2	The human Body	The digestive System	Parts of the alimentary canal and their functions	The learner; i)defines the term alimentary canal ii) states the importance of each part	The learner reads spells and uses words in sentences -ileum -stomach -duodenum -pancreas	<u>The alimentary canal is a muscular tube –like structure running from the mouth to the anus</u> <u>Parts and their functions</u> <u>Mouth</u> <i>Is where digestion Of food beings</i> <u>Gullet</u> <i>Transports food to the stomach</i> <u>Stomach</u> <i>Stores food for some time Etc.</i>	Demonstration explanation	Starting importance of each part of the alimentary canal	-sharing -critical thinking	chart	Being audible enough	Mk integrated p5 science pg55 p5 curriculum pg28
	3	The human Body	The digestive System	Adaptation of each	The learner i)gives the adaptation of	The reads spell and use words in sentences	<u>Adaptation of each part</u> <u>Mouth</u>	Illustration Group discussion	Answering to guiding questions	Problem solving Concern	Text books chart	Proper positioning	Comprehensive p5 science pg88

				part of the alimental canal to its function	each part of the alimentary canal to its function	-colon Gullet -rectum	<i>It contains teeth which breakdown food</i> <u>Gullet</u> <i>It is elastic to allow passage of food</i> <u>Stomach</u> <i>It contains enzymes for breaking down food into smaller particles</i> <u>Ileum</u> <i>It is long enough</i>						p5 curriculum pg. 28
	4	The human Body	The digestive System	Digestion of food in the mouth	The learner i)describes the digestion of food in the mouth ii)defines the term peristalsis	The learner spells reads and uses words in sentences -peristalsis -bolus	<u>Digestion of food is the mouth</u> <i>-digestion of food begins in the mouth</i> <i>-saliva softens and lubricates food</i> <i>The tongue rolls food</i> <u>The gullet ;</u> <i>Food moves through the gullet by peristalsis</i> <u>Peristalsis</u> <i>Is the wave like contraction of the alimentary canal to allow food through</i>	Demonstration explanation	Describing digestion of food in the mouth	Critical thinking Logical reasoning	chart	Allocating extra time	Comprehensive p5 science pg88 p5 curriculum pg. 28
	5	The human Body	The digestive System	Digestion of food in the stomach	The learner i)describes the digestion of food in the stomach	The learner reads ,spells and uses words in sentences -hydrochloric -churning food	<u>Digestion of food in the stomach</u> <i>i)the stomach churns food to form chyme</i> <i>ii) hydrochloric acid kills the germs that come along with food</i> <i>iii) the walls of the stomach produce gastric juice that contains enzymes</i> <i>iv)digestion of proteins takes place in the stomach</i>	Illustration Question and answer	Answer questions	Creative thinking Problem solving	Text books chart	Proper Positioning	Comprehensive p5 science pg88 p5 curriculum pg. 28
	6	The human Body	The digestive System	Digestion of food in the duodenum and the ileum	The learner i)Describes the digestion of food in the duodenum and ileum	The learner spells ,reads and uses the words correctly Ileum Duodenum emulsify	<u>Digestion of food in the duodenum and ileum</u> <i>The duodenum contains bile juice from the liver to emulsify fats</i> <i>-final digestion of proteins takes place here</i> <u>The ileum</u> <i>Digestion of food end here</i> <i>Digestion of food takes place here .</i> <i>Food from the ileum is passed to the colon for absorption of water and passed out in the anus as faeces</i>	Group discussion Brain storming	Describing food in the duodenum and ileum	Self thinking Creative thinking	chart	Allocating extra time	Comprehensive p5 science pg89-90p5 curriculum pg. 28
