GENERAL PAPER (G. P)
2025
TERM THREE**

Turn over

Item 1

Scenario

A rural district in Uganda has been experiencing prolonged droughts and floods, affecting agriculture and livelihoods. Local leaders have invited youth to contribute ideas on how to raise awareness and promote environmental protection in their communities.

Task

As a concerned youth, suggest effective ways you would use to sensitize your community about the causes and dangers of climate change.

Item 2

Scenario

A school headteacher is concerned that students are spending excessive time on social media platforms, which is affecting their academic performance and social behaviour. A debate is organized to explore whether social media is more harmful than beneficial.

Task

As a student leader, give the argument you would present to show how social media can be used positively by youth.
