

MID TERM TWO EXAMINATIONS - 2026

P.7 MATHEMATICS

Time allowed: 2hours 30minutes

Index No:

--	--	--	--	--	--	--	--	--

Name:

School:Stream:.....

SECTION A (40 MARKS)

1. Work out: $48 \div 4$

2. Given the $Q = \{m, a, n\}$, find the number of proper subsets of set Q.

3. A school prayer started at a quarter past nine in the morning and took 45 minutes. Find the time when the prayer ended.

4. The average mass of 3 parcels is 25 grammes. Find their total mass.

5. A man's stride is 90cm. how many strides does he make to cover a distance of 7.2m?

6. Solve for k. $3k - 6 = 15$

7. In the figure below shade 25%

8. Given that the circumference of a circle is 44dm .Calculate its radius.

9. Workout the mean of 2p,0,4,3p and 1.

10. Using a ruler, a pencil and protractor, draw an angle of 105° .

11. The area of the shaded part in the cylinder below is 58cm^2 . Calculate its volume.

12. Work out:

$$\begin{array}{r} 103_{\text{four}} \\ + 122_{\text{four}} \\ \hline \end{array}$$

13. Use distributive property to work out. $(18 \div 3) - (12 \div 3)$

14. The product of two numbers is 384 and their G.C.F is 8. Find their LCM.

15. Find the number whose scientific notation is 6.024×10^3	16. A workshop for Ntungamo municipality teachers lasted for 45 days. If it started on Monday, find the day the workshop ended?
17. The cost price of a cow and a sheep are in the ratio of 8:3 respectively. If the cost price of a sheep is sh. 210,000, find the buying price of a cow.	18. Study the figure below and find the value of y. 
19. Express 108km/h as metres per second.	20. Find the next time in the sequence below. 7:30am, 8:10am, 8:50am, 9:30am, _____

SECTION B (60 MARKS)

21. In a class of 50 pupils, 30 like maths (M), 25 like English (E), K like both subjects while 5 pupils do not like any of the two subjects.

a) Complete the Venn diagram below. **(3mks)**

$$n(\Sigma) = 50$$

b) Find the value of K. **(2marks)**

c) How many pupils do not like mathematics? (2marks)

22. In a class, there are 40% more boys than girls. If there are 280 boys;

a) find the total number of pupils in a class **(3mks)**

b) Express the number of girls as a ratio to the number of boys. (2mks)

23. The table below shows Mr. Kalenzi's shopping bill.

Item	Qty	Unit Price	Amount
Sugar	2 ½ kg	Sh.4000	Sh. _____
Rice	_____ kg	Sh.3500	Sh. 7000
Bread	3 loaves	Sh, _____	Sh. 12,000
Slat	½ kg	Sh. 2000	Sh. _____
Total expenditure			Sh. _____

Complete the above table. (5mks)

24. a) Given the number 98.239, find the sum of the place value of 9 and the value of 3. **(2marks)**

b) Write the numeral above in words. (1mark)

c) Round off the above number to the nearest tenths. (2mks)

25. a) A mother has 3 daughters whose ages are:
($3b+4$), ($2b-2$) and ($4b+1$) years. Their total age is 48 years.
(a) Find the value of b . **(3mks)**

b) How old is the youngest sister? **(2marks)**

26. Dr. Nkata spends $\frac{1}{4}$ of his salary on school fees, $\frac{1}{12}$ food and saves the rest.

a) Find the fraction of his salary saved. **(2marks)**

b) If sh. 90,000 is spent on fees, find his salary. **(2marks)**

27. The graph below shows the number of pens sold in 4 days of a week in a school canteen.

Day	Tallies	No. of pens
Monday	_____	44
Tuesday	HHH	_____
Wednesday	HHH	5
Thursday		_____

a) Complete the above table. (3mks)

b) Calculate the mean number of pens. (2mks)

28. Using a pair of compasses, a ruler and a pencil only, construct parallelogram ABCD where angle ABC = 60° , line AB = 7cm and line BC = 4cm.

(b) Measure line AC.

29. A motorist travelled for 3 hours from town A to town B at a speed of 40km/h. He then returned to town A at a speed of 10km/hr less than the previous speed. Calculate the average speed of the motorist for the whole journey. (4mks)

30. The interior angle of a regular polygon is 150° .

a) Find the size of each exterior angle. **(2mark)**

b) Name the polygon (3marks)

31. Study it carefully and answer the questions that follow if the carpet was place in the middle of the floor.

(a) Find the area of the floor figure. (2marks)

(b) Calculate the length and width of the carpet figure. (2mks)

(c) Work out the area of the floor not covered by the carpet. (2mks)

32. (a) Change 120_{ten} to octal base. (2mks)

(b) If $102_{\text{four}} = 24_p$, find the value of p. (3marks)
