Candidate's Name: .....

Candidate's Signature: .....

### SECTION A

1. Name the type of cloud which is nearest to the ground.  
\_\_\_\_\_
2. Give one function of the cotyledon to a germinating bean seed.  
\_\_\_\_\_
3. State any one way in which the spread of germs by cockroaches can be controlled.  
\_\_\_\_\_
4. Give a reason why the goat house should be constructed with a slanting floor.  
\_\_\_\_\_
5. Apart from debeaking, mention one other way of controlling poultry vices.  
\_\_\_\_\_

The diagram below shows a method of making water clean. Study and use it to answer the questions that follow.

6. Name the method of obtaining clean water shown above.  
\_\_\_\_\_
7. Give reason why liquid **K** is not recommended for drinking.  
\_\_\_\_\_
8. In which **one** way does air pollution affect human health?  
\_\_\_\_\_
9. State any **one** characteristic of seeds dispersed by animals.  
\_\_\_\_\_

10. Mention any **one** life skill which safeguards adolescent girls against teenage pregnancy.
- 
11. State any **one** way of increasing egg production in layer birds.
- 
12. Mention the first aid you would give to a friend who has got a scald on his or her leg.
- 
13. Name the method used by cooks to separate iron filings from rice.
- 
14. State one reason why compound cleaners should put on gumboots.
- 
15. Name any one example of a perennial crop.
- 
16. Which property of air enables a school nurse to inject medicine in the body of a sick child.
- 
17. Give one reason why some farmers prefer rearing local cattle to exotic cattle.
- 
18. Apart from the elderly, name one other group of vulnerable people in the community.
- 
19. Kigezi's pit latrine produces a lot of bad smell. What advice would you give to reduce the bad smell in the pit latrine?
- 

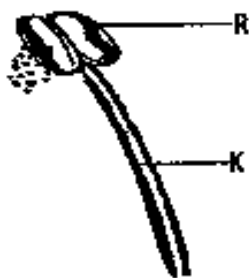

**The diagram below shows part of the human skeleton. Study and use it to answer the questions that follow.**

20. Name the immovable Joint located at U.
- 
21. Give the importance part T to a of P7 child.
-

- 
22. Name the part of the human ear that converts sound waves into sound vibration.
- 
23. Give any one way of controlling the spread of measles among school children.
- 
24. Mention any one way in which the body can acquire natural immunity.
- 
25. Name any one example of a useful fungi.
- 
26. State one way in which vitamins are important in the body of a sick person.
- 
27. Give a reason why the strings of a guitar are made with different lengths.
- 
28. Give one way in which heat travel through liquids.
- 
29. Mention any one example of voluntary muscles.
- 
30. State any one characteristic of wading birds.
- 

The diagram below shows part of a flower. Study and use it to answer questions 31 and 32.

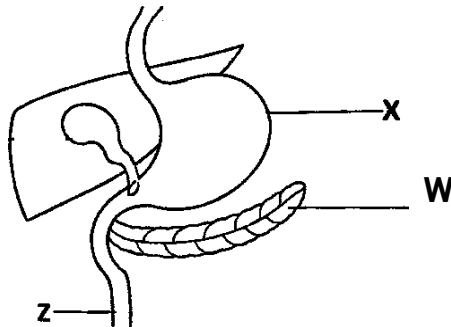

31. Name the part labeled with letter K.
- 
32. Give the function of part R to a flower.
- 
33. State any one way in which animals are used as energy resources.
-

34. The chairperson of Kanyebwa village was seen distributing mosquito nets to his community members. What element of PHC was the chairperson promoting.
- 
35. Give the importance of ventilators on a living house.
- 
36. Name the method of soil formation which involves the action of bacteria.
- 
37. Apart from using root nodules, how else can you identify a leguminous crop?
- 
38. Give any one importance of echo to sailors.
- 
39. Name the components of blood affected by sickle cell.
- 
40. State any one way how regular bathing helps to promote personal hygiene.
- 

### **SECTION B**

The diagram below shows part of the digestive system. Study and use it to answer the questions that follow.

41. a) Name the parts labelled  
W \_\_\_\_\_  
Z \_\_\_\_\_
- b) Give one function of part labelled X.
- 
- c) Mention any one disorder that affects the above system.
- 
42. a) Name the type of current electricity where current;  
(i) periodically reverses its direction as it flows in a circuit.
- 
- (ii) Flows in one direction.
-

c) Osmosi's radio uses 8 dry cells. Calculate its total voltage (02marks)

43. a) Name the respiratory organ which is protected by the ribcage.

b) What happens to the ribcage during the following processes?

i) Breathing in

ii) breathing out

c) Give the use of oxygen we breathe in.

44. The table below shows immunisable disease, vaccines and body sites. Study and complete it correctly.

| <b>Vaccines</b> | <b>Diseases</b> | <b>Body sites</b> |
|-----------------|-----------------|-------------------|
| .....           | Polio           | Mouth             |
| Hep B vaccine   | .....           | Left upper thigh  |
| Measles vaccine | Measles         | .....             |
| PCV vaccine     | .....           | Right upper thigh |

45. a) Name the outermost layer of the human skin.

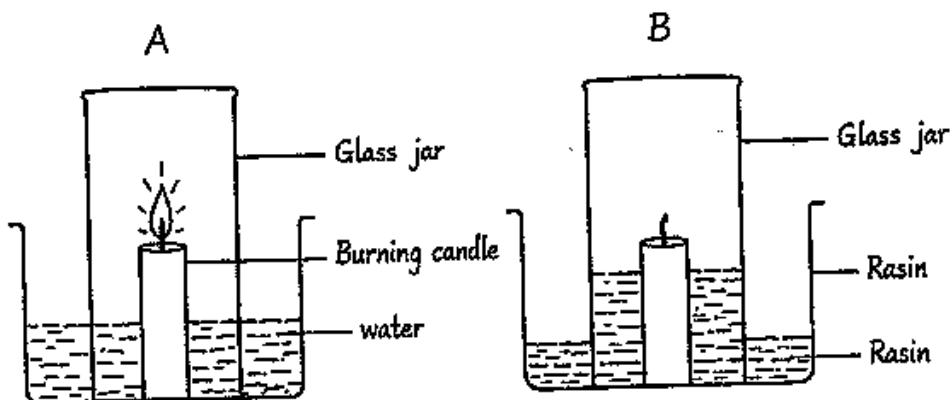

b) State any one waste product removed by the human skin from the body.

c) Apart from removing wastes, mention any two other functions of the human skin.

(i) \_\_\_\_\_

(ii) \_\_\_\_\_

The diagram below shows an experiment carried out by a P.5 class. Study and use it to answer the questions that follow.

46. a) State what the pupils were proving about air.

b) Give a reason why?

(i) the candle went off in B.

(ii) the water level rose in glass jar B.

c) Name the component of air that supports burning of candle in A.

47. Below are the step followed when administering first aid of a certain accident. Re arrange them to make a meaningful story.

(i) Tie a bandage slightly above the bitten part .

(ii) calm the casualty

(iii) Take the casualty to the nearest health facility

(iv) Identify where the fang marks are on the victim's body.

**Correct Order**

48. a) Mention any **two** examples of natural fertilizers.

(i) \_\_\_\_\_

(ii) \_\_\_\_\_

b) Give any **two** advantages of using natural fertilizers over artificial fertilizers.

i) \_\_\_\_\_

ii) \_\_\_\_\_

49. (a) Write down any **two** disorders that affect the male reproductive system.

i) \_\_\_\_\_

ii) \_\_\_\_\_

b) State any **one** advantage of child spacing to a mother in a family.

c) Give any **one** reason why females are highly affected by HIV/AIDs.

50. a) Write down any **two** qualities of essential drugs.

i) \_\_\_\_\_

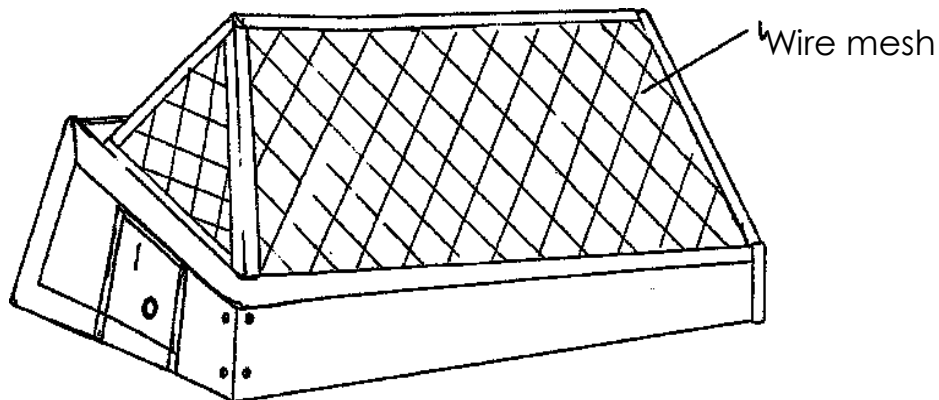

ii) \_\_\_\_\_

b) Mention any **two** proper ways of storing drugs.

i) \_\_\_\_\_

ii) \_\_\_\_\_

The diagram below shows a habitat for one of the domestic animal. Study and use it to answer questions that follow.

51. a) Give any **two** reasons why a wire mesh is used to construct such habitat above.

i) \_\_\_\_\_

ii) \_\_\_\_\_

b) Apart from a wire mesh, write down any **two** other materials that can be used to construct the above habitat.

i) \_\_\_\_\_

ii) \_\_\_\_\_

52. (a) State the role played by following parts of an electric bell.

(i) gong

\_\_\_\_\_

(ii) hammer

\_\_\_\_\_

b) State the energy change that takes place in an electric bell.

\_\_\_\_\_

c) Apart from electric bell, name one other appliance that uses electricity to produce sound energy.

\_\_\_\_\_

53. a) Name the type of teeth suitable for cutting food.

\_\_\_\_\_

b) Mention any one disease that affects the human teeth.

\_\_\_\_\_

c) State any two ways of preventing the diseases of the human teeth.

i) \_\_\_\_\_

ii) \_\_\_\_\_

54. a) Give the meaning of the term food contamination.

\_\_\_\_\_

b) State any **one** effect of eating contaminated food to human health.

\_\_\_\_\_

c) Give any **two** ways in which you can prevent food from getting contaminated before serving it.

(i) \_\_\_\_\_

(ii) \_\_\_\_\_

55. a) Name any two materials used in biogas production.

i) \_\_\_\_\_

ii) \_\_\_\_\_

b) Give any one reason why biogas digester is buried underground.

\_\_\_\_\_

c) State any one way in which the use of biogas is friendly to the environment.

\_\_\_\_\_

**END**
