SECTION A (40 MARKS)

1. Identify any one liquid that can float on water.
.....
2. Write one word that refers to the physical change of state from vapour to water.
.....
3. Mention any **one** characteristic of essential drugs.
.....
4. Give any one reason why mothers are encouraged to breastfeed their babies for at least two years.
.....
5. Why it is advisable for farmers to include legumes in crop rotation?
.....

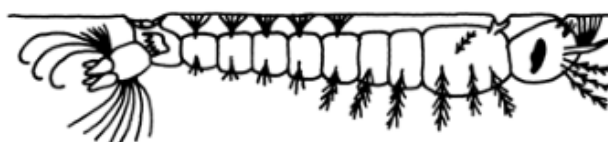

The diagram below shows a garden tool. Use it to answer question 6.

6. State the use of the garden tool above to crop growers.
.....
7. Which immunisable disease in children is fought using the BCG vaccine?
.....
8. Name the type of bees in a hive that mate with the queen bee.
.....
9. How is the breathing of crocodiles different from that of grasshoppers?
.....
.....
10. Mention any **one** way of controlling foot and mouth disease in cattle.
.....
11. Give anyone structural difference between arteries and veins.
.....

12. Mention any **one** example of living resources in the environment.
.....
13. Give the components of air used in stopping fire outbreak.
.....
14. Identify the component of blood that transports waste materials in the body.
.....
15. State the reason why water obtained by filtration is not good for drinking.
.....
16. Mention the method used to separate liquids with different densities.
.....
17. Give any **one** factor one should consider when selecting a breed of cattle to rear.
.....
18. Name the human body organ that helps to regulate sugar level in the body.
.....

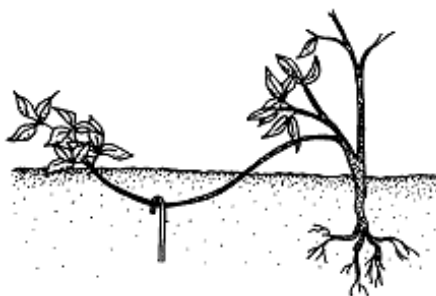

The diagram below shows the larva stage of a mosquito. Use it to answer questions 19 and 20.

19. Mention the disease spread by the mosquito that develops from the above stage.
.....
20. State **one** way of destroying the breeding of the above stage.
.....
21. Write down one group of crops that provide multiple harvests to crop farmers.
.....
22. Name the component of soil formed from weathering of rocks.
.....
23. State the reason why the trachea is made of rings of cartilage.
.....

24. Write down any one component of a first aid box.
.....
25. Give any one biological method of controlling mosquitoes at home.
.....
26. Which part of the heart prevents oxygenated blood from mixing with deoxygenated blood?
.....
27. Mention **one** way in which heat transfer by radiation is useful in our daily life.
.....

.....
39. Which element of PHC helps to prevent infant and maternal mortality rates?
.....
40. Name the type of hutch in rabbits which is similar to the fold system of keeping poultry.
.....

SECTION B (60 MARKS)

41. (a) Give any two reasons why animals move from one place to another.
.....
.....
- (b) How do snakes move from one place to another?
.....
- (c) Why is a frog able to live comfortably both on land and in water?
.....
.....
42. (a) How do the following methods help to preserve meat;
(i) salting
.....
(ii) refrigeration
.....
- (b) Write down **two** importance of preserving food.
(i).....
(ii).....

43. The diagrams below are showing eggs of amphibians. Study and use them to answer the questions that follow.

- (a) Name the amphibians that lay eggs represented by;
(i) A **(ii) B**
- (b) How are the above eggs protected from predators?

- (c) State how the amphibian whose eggs are labelled **A** breathes.

44. (a) Write down the first thing you should do when preparing ORS at home.

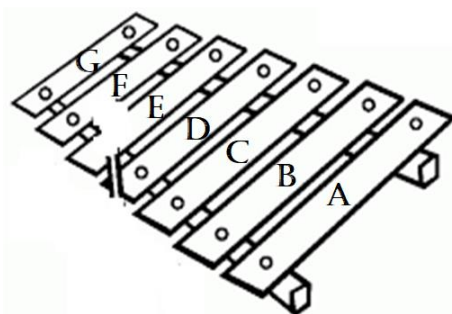

- (b) Apart from giving ORS, give two other ways of rehydrating a dehydrated person.

- (c) How useful is sugar during ORS preparation?

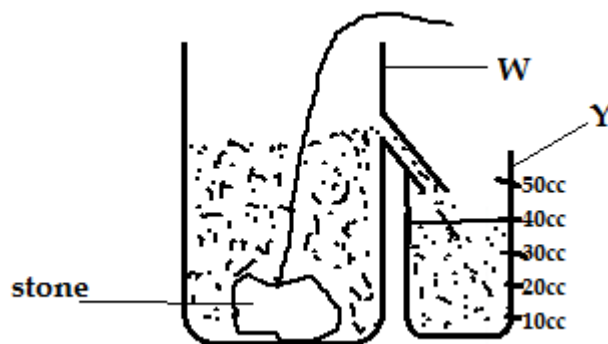

45. (a) Name **one** state of matter in which heat travels by convection.

- (b) State **two** ways in which heat transfer by convection is useful in our daily life.
 (i).....
 (ii).....
- (c) Apart from convection, mention any other method of heat transfer.

46. **Below is a diagram of musical instrument. Use it to answer the questions that follow.**

- (a) Identify the musical instrument above.
.....
- (b) How does the instrument above produce sound?
.....
- (c) Identify the bar which will produce the lowest pitch.
.....
- (d) In which way can the pitch of sound produced by the above instrument be changed?
.....
47. (a) How is the human heart adapted for its function?
.....
- (b) Name the blood component that transport oxygen to all body parts.
.....
- (c) Give any two ways in which you can increase the amount of blood in your body.
.....
48. **Study the diagram below and answer the questions that follow.**

- (a) Name the container marked **W** on the diagram above.
.....

- (b) State the function of container labelled **Y** above.

 (c) What is the volume of the stone in the diagram above?

 (d) Why is the above method used when measuring the volume of a stone?

49. (a) State what happens to each of the following when ice melts.
 (i) volume

 (ii) density

 (b) Give any two ways in which melting is important to people
 (i)
 (ii)

50. **The diagrams below show garden tools . Use them to answer the questions that follow.**

- (a) Name the garden tools marked **A** and **B**.
 (i) **A**.....
 (ii) **B**.....
 (b) Give one use of tool marked **A** to a crop farmer.

 (c) In which way does painting help to safeguard metallic garden tools from rusting?

 51. (a) Write any one disease that results from active smoking.
 (i).....
 (ii).....

(b) Give any one reason why people smoke.

.....

(c) Name any one life skill that can safe guard you against smoking.

.....

52. (a) What are scavenger birds?

.....

(b) Why is it not advisable to kill scavenger birds in the environment?

.....

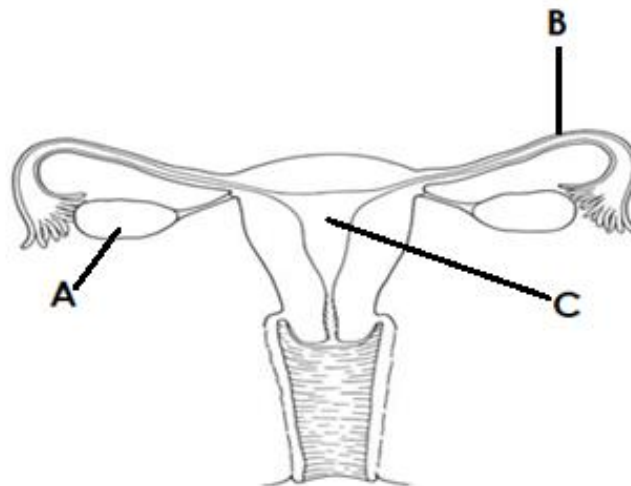

(c) How do scavenger birds help to clean up the environment?

.....

(e) Besides vultures and Marabuou storks, identity any other example of a scavenger bird.

.....

53. **Study the diagram of a female reproductive organ below and answer the questions that follow.**

(a) Name the parts marked by letters **A** and **C**.

(i) **A**.....

(ii) **C**.....

(b) Which reproductive disorder occurs in part marked **B**?

.....

- (c) Identify any one sexually transmitted disease that attacks the above system.

.....

54. (a) How do hookworms enter our bodies?

.....

- (b) State any two signs and symptoms of hookworm infestation.

(i).....

(ii).....

- (c) Write down any one health habit that can help people to avoid hookworm infestation.

.....

55. (a) Write PIASCY in full.

.....

.....

- (b) How is PIASCY useful to school children?

.....

.....

- (c) Write any one PIASCY message.

.....

- (a) Give any one effect of AIDS to an AIDS victim.

.....
