TOTAL	

SECTION A: 40 MARKS

Answer **all** questions in this section.
Question **1** to **20** carry **two** marks each.

1. Workout:

$$\begin{array}{r} 3 \ 4 \ 7 \\ + 2 \ 3 \ 2 \\ \hline \end{array}$$

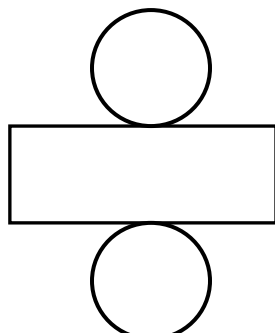

2. Musa is 38 years old. Write his age using tallies in the space provided below.

3. Workout the next two numbers in the mathematical sequence below.

1, 3, 5, 8, 11, 13, 15,,

4. Nambi was told to workout $-9 + +4$. Help her to find the answer.

5. Identify the prism whose net is drawn below.

.....

6. Workout: $\frac{3}{4} + \frac{2}{5}$

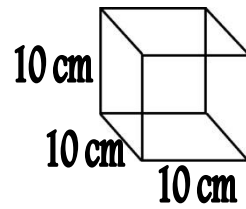

7. Given that set $M = \{4, b, 3\}$. Calculate the number of subsets that can be got from set M.

8. Mubiike ran from Muhoro to Kagadi covering a distance of 70 Km in 5 hours. Workout the speed at which Mubiike was running?

9. Given that $b = 6$ and $a = 7$. Find the value of $3b + 2a$.

10. Find the Lowest Common Multiple of 30 and 40.

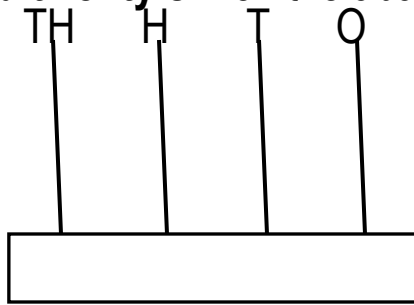

11. Given that the figure below is a cube. Study and use it answer the question that follow.

Workout the volume of the given figure.

12. Find the complement of 30° and then construct your answer in the space below.
13. Wotari planted 18 trees in a straight line leaving 10 metres apart. Calculate the total distance covered by all the trees.

14. Represent **Two thousand twenty six** on the abacus drawn below.

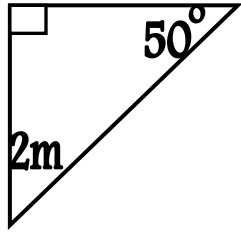

15. In a class of 160 pupils, $\frac{3}{8}$ of them are boys and the rest are girls. How many girls are in the class?

16. Kagoya paid Sh: 3000 for 5 pens. How much will someone pay for 10 similar pens from the same shop?

17. Solve for the value of P given that $4P + 3 = 19$

18. Given that the figure below is a right angled triangle. Find the value of m in degrees.

19. Find the **value of 3** and the **place value of 9** in the numeral 4 9, 2 3 5.

20. Express $1\ 2\ 3_{\text{Five}}$ as a base ten number in the space provided below.

SECTION B: 60 MARKS

Answer **all** questions in this section.

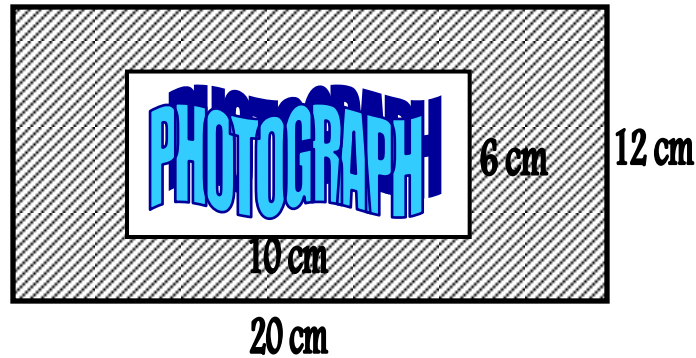

Marks for each part of the question are indicated in the brackets.

21. The shopping bill table below shows how Nakalembe did her Easter Holiday shopping at Nakasero market Kampala. Study and complete it correctly.

(6 marks)

ITEMS	QUANTITY	UNIT COST	AMOUNT
Sugar	kg	Shs. 6000	Shs. 12000
Rice	6 kg	Shs.....	Sh.18000
Salt	1 ½ kg	Shs. 4000	Shs.....
Onions	 kg	Shs. 5000	Shs. 20000
Posho	4 kg	Shs. 3200	Shs.....
Total amount of money paid altogether.			Shs

22. Mr. Kantale the village carpenter made a photo frame and later placed a photograph centrally into the frame as shown below. Study and use it to answer the questions that follow.

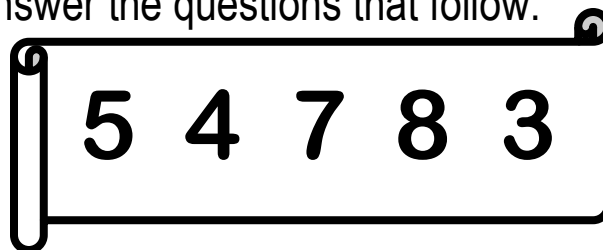

- a. Workout the area of the frame.
(2 marks)
- b. Calculate the area of the photograph.
(2 marks)
- c. Find the area of the shaded part which was not covered by the photograph.
(1 mark)
23. The sum of four consecutive even numbers is 52. What are the numbers?
(4 marks)

24. Complete the 4 by 4 magic square below by finding the values of y, r, w, h and m. (6 marks)

15	1	m	12
4	w	9	h
8	y	5	11
3	13	r	0

25. Given that Mr. Mukembo took a card to P. 2 Flair with a numeral as shown below. Use it to answer the questions that follow.

- a. Write the numeral in words.

(1 mark)

b. Find the sum of the values of **4** and **8** in the numeral on the card above.
(3 marks)

26. a. In the space below, use a sharp pencil, a ruler and a pair of compasses only to construct a regular hexagon of radius 5 cm. (4 marks)

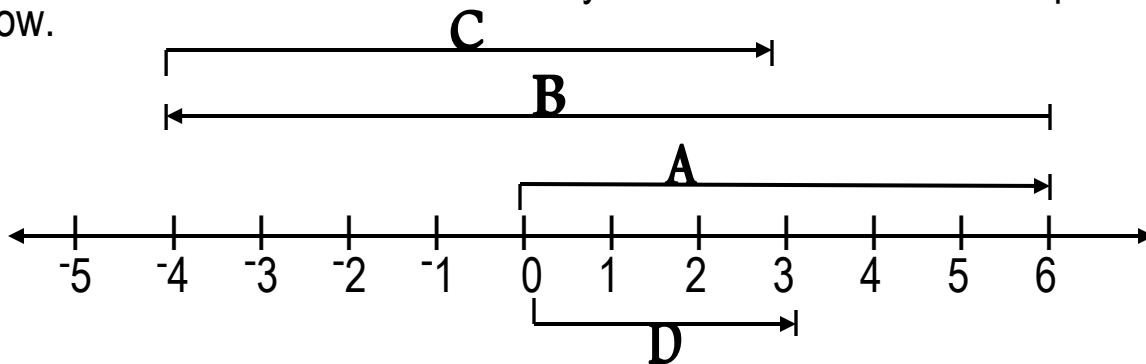

b. Workout the perimeter of the hexagon you have constructed in (a) above.
(1 mark)

27. a. Simplify: $6m + 5w - 3m + p$ (2 marks)

b. Muwolo is 25 years old. Matege is 7 years younger than Muwolo.

i. How old is Matege now? (2 marks) ii. Calculate their total age. (1 mark)

28. Given the number line below. Study and use it to answer the questions that follow.

a. Identify the integers whose arrows are marked: (4 marks)

D **B** **A** **C**

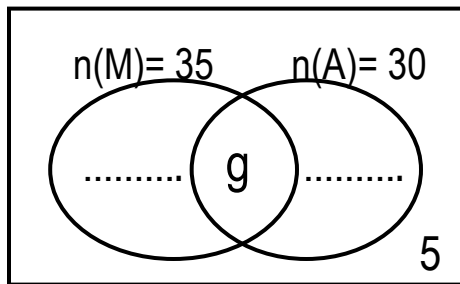

b. Write down the suitable mathematical statement for the given number line. (1 mark)

.....

29. In a class of 60 pupils, 35 pupils like Melons (M), 30 pupils like Apples (A) and g pupils like both melons and apples while 5 pupils like neither of the two fruits.

a. Use the above information to complete the Venn diagram below. (2 marks)

$$n(\mathcal{E}) = 60$$

b. Solve for the value of g .

(2 marks)

c. Workout the probability of getting a pupil who likes Apples only in that class. (1 mark)

30. a. Share 48 books equally among 6 pupils.

(2 marks)

b. A taxi carries 14 passengers each trip. How many passengers will the taxi carry in 5 trips? **(2 marks)**

c. Musa bought 33 eggs from the shop. On his way, 17 eggs got broken. How many eggs did he reach home with? **(2 marks)**

31. a. How many hours are in a week? **(1 mark)**

b. Ukasha left Nakasongola at 8:30 am and reached Kawempe at 11: 30 am driving at a steady speed of 60 Km/h. calculate the distance between Nakasongola and Kawempe. **(3 marks)**

32. The table below shows some pupils in P.6 Brilliant with their ages. Use it to answer the questions that follow.

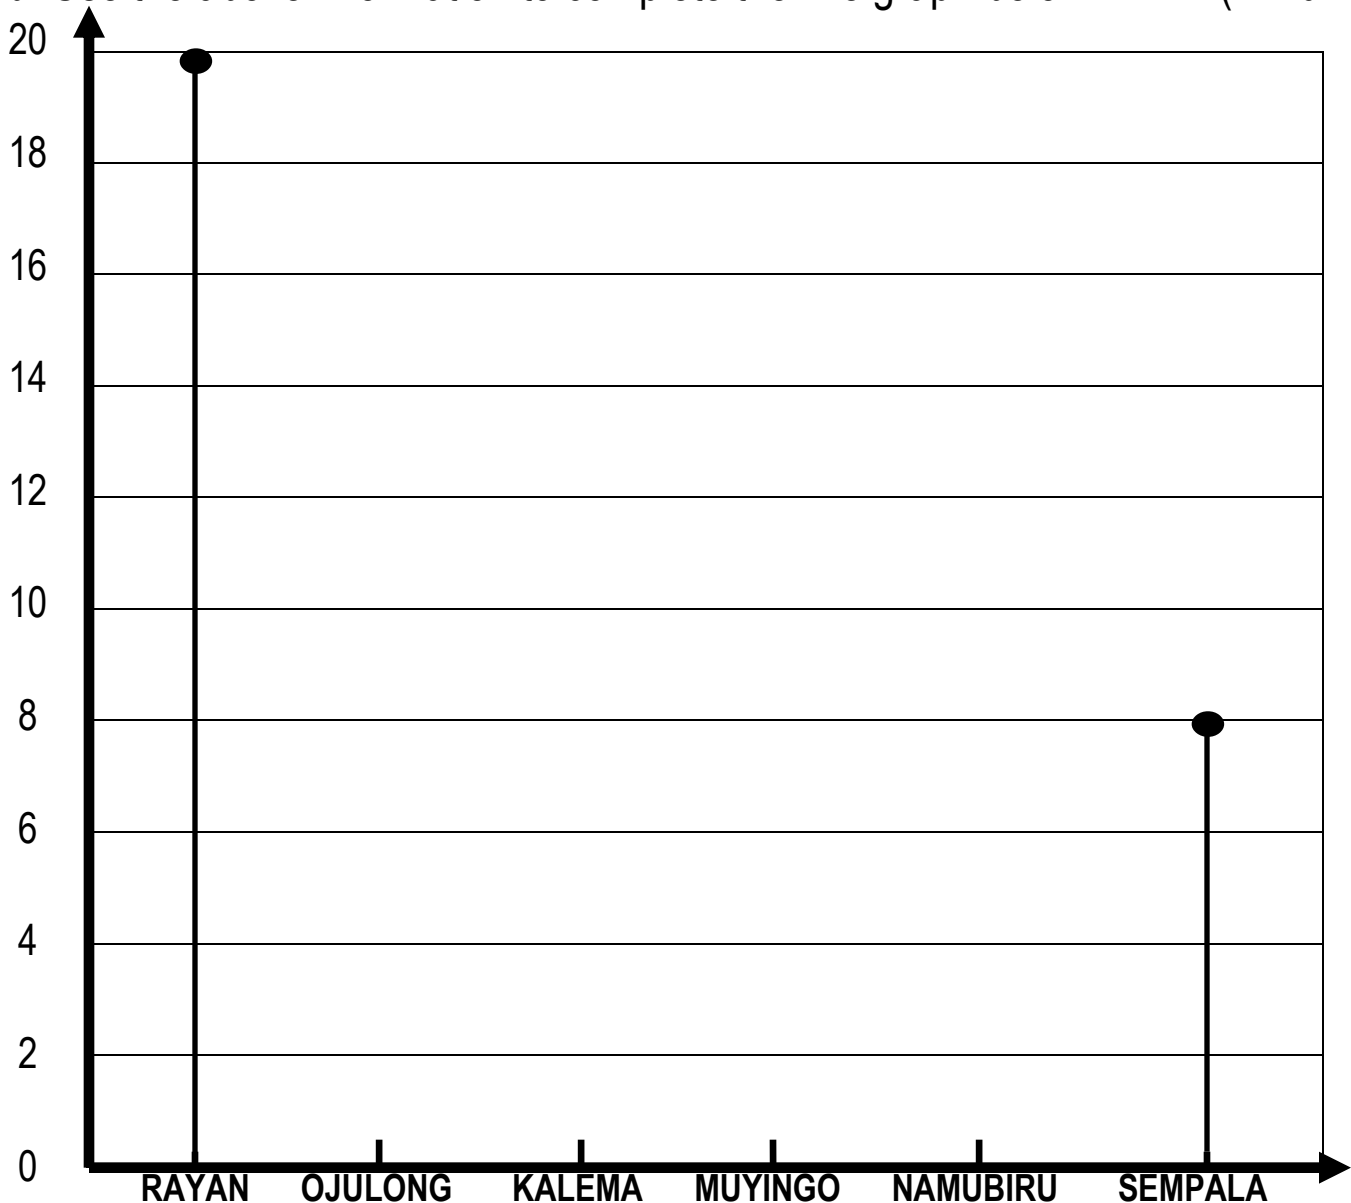

Pupil	RAYAN	OJULONG	KALEMA	MUYINGO	NAMUBIRU	SEMPALA
Age	20 years	12years	18years	10years	14years	8years

a. Workout the range of their ages.

(1 mark)

b. Use the above information to complete the line graph below.

(4 marks)

GOOD LUCK
