THE SIPRO END OF TERM I EXAMINATIONS 2026

SUBJECT : MATHEMATICS

CLASS : PRIMARY SIX

DURATION : 2 hours 30 minutes

Name: _____

School: _____

District: _____

READ THE FOLLOWING INSTRUCTIONS CAREFULLY:

1. This paper has two sections: **A** and **B**.
2. Section **A** has **20** questions **(40 Marks)**.
3. Section **B** has **12** questions **(60 Marks)**.
4. Attempt all questions in both sections. All answers to both sections **A** and **B** must be written in the spaces provided.
5. All answers must be written in blue or black ball point pens or ***ink***. Only diagrams and graph work must be done in ***pencil***.
6. Unnecessary ***alteration*** of work will lead to loss of marks.
7. Any ***handwriting*** that cannot be easily read may lead to loss of marks.
8. Do not fill anything in the boxes indicated: "FOR EXAMINER'S USE ONLY"

For Examiner's Use Only;

SECTION A: 40 MARKS

Attempt **all** *questions in this section.*
Questions **1** *to* **20** *carry* **two** *marks each.*

1. **Work out:** 8 ÷2

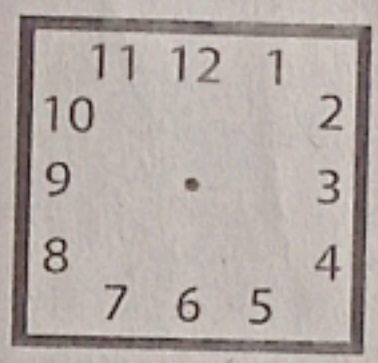

2. Without dividing, show which of the following numbers is exactly divisible by 3:
727, 379, and 972

3. Expand **4078** using values.

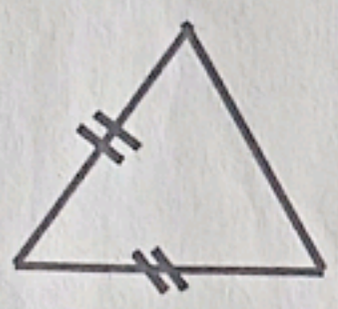

4. Find the **missing** number.
□ - 7 = 2

5. Arrange the following integers in **ascending** order.
-2, +3, -5, 0 and +1.

6. On the clock face below, show **20** minutes to **4**.

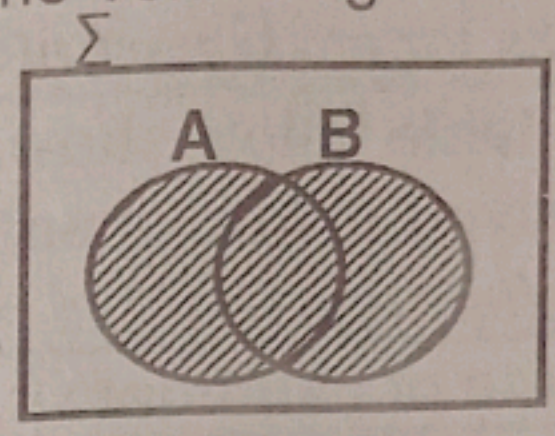

7. How many lines of folding symmetry has the shape below?

8. Shamim bought **12** apples at **sh.2,000** for every three apples. How **much** money did she pay?

9. **Work out:** 1½ ÷ ¼

10. How **many** 200gm packets of curry powder can be obtained from 1⅘ kg of curry powder?

11.	Four girls Alinda, Favour, Mercy and Birabwa have mass of 42kg, 48kg, 38kg and 44kg respectively. Calculate their **average** mass.	12.	Describe the **unshaded** region in the Venn diagram below. 
13.	**Work out:** 18 – 3 x 2 + 12.	14.	**Express** $\frac{2}{5}$ as a decimal fraction.
15.	Write **49,064** in words.	16.	Solve for **P**: 2P + 8 = 12.
17.	Jane was standing at **+7**, she moved **9** steps to the left. Find her **new** position.	18.	An assembly started at **10: 30am** and lasted for **1** hour **20** minutes. At what time did it end?
19.	Peter was facing North-East and turned clockwise to face in the South. Through what **angle** did he turn?	20.	Given that set **A**={p, q, r, s, t, u} and set **B**={v, w, p, s, k}. Find **A-B**.

SECTION B: 60 MARKS

Attempt **all** *questions in this section.*

Marks for **each part** *of the question are* **indicated** *in the brackets.*

21. **The table below shows the number of votes that different candidates received in the recently concluded parliamentary elections.** *Study it carefully and use it to answer the questions that follow.*

Name of candidate	Male	Female	Total
Amos Dango	10,765	4,789	_____
Dida Moses	_____	7,029	15,202
Guehi Tom	6,807	_____	13,762

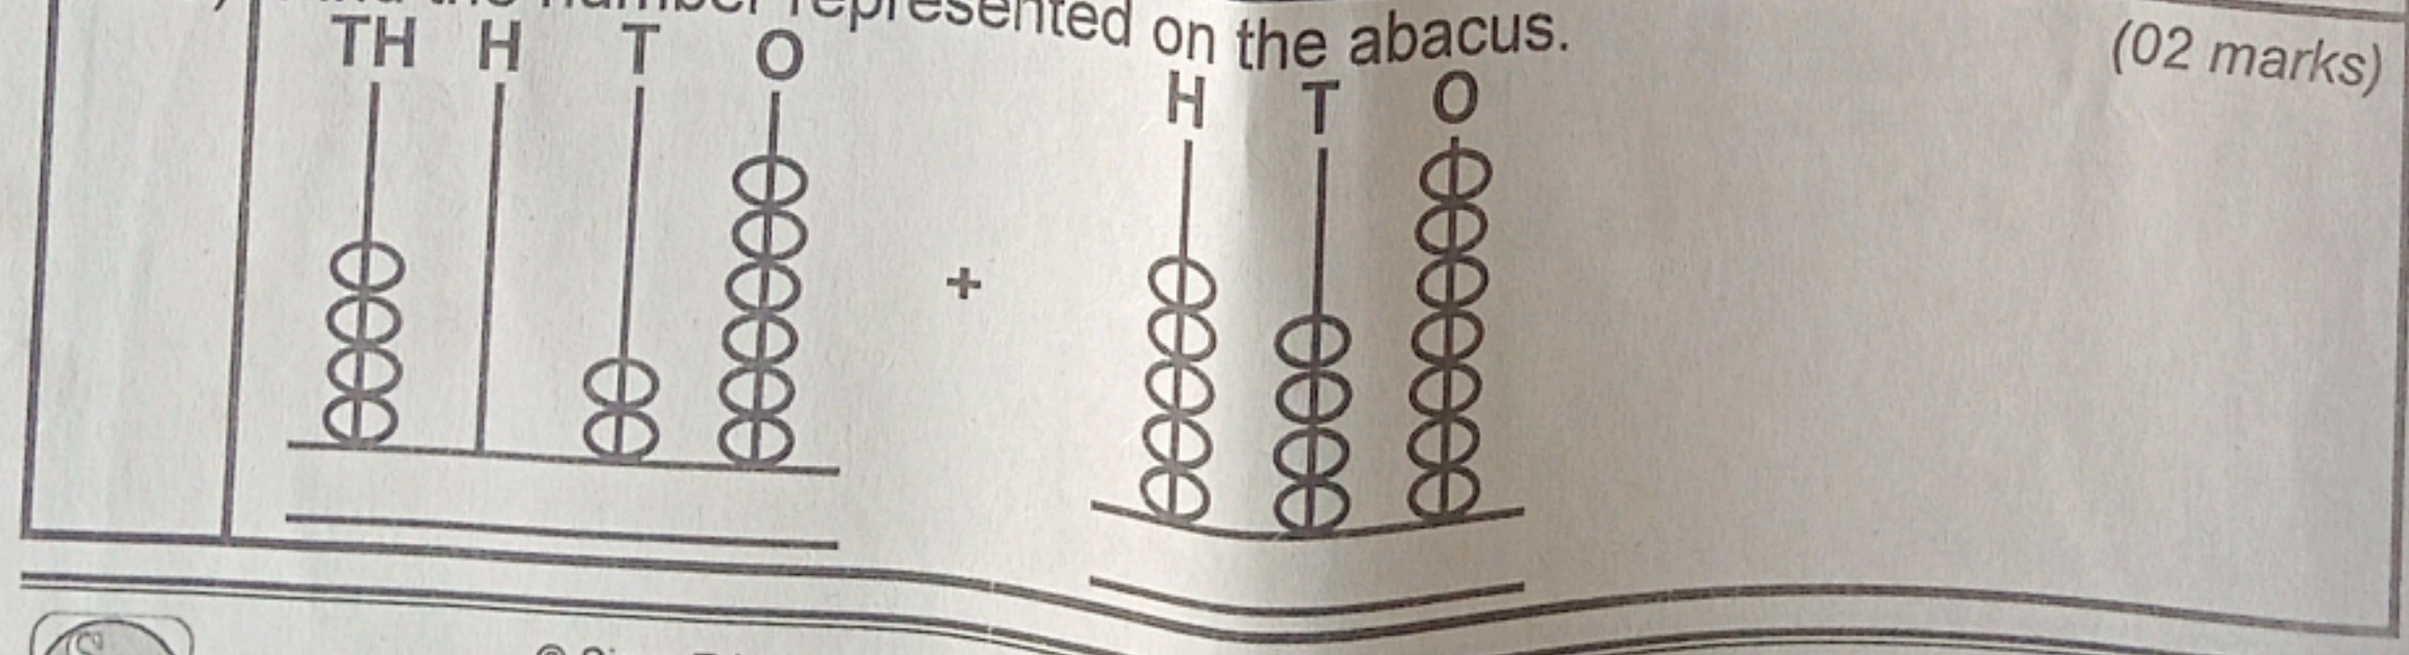

(a) How many females voted for Guehi Tom during the elections? *(02 marks)*

(b) How many more votes did Amos Dango get than Dida Moses? *(03 marks)*

22.a) Find the square root of **196**. *(02 marks)*

(b) Find the Lowest Common Multiple of **6**, **8** and **9**. *(02 marks)*

23.a) Find the number represented on the abacus. *(02 marks)*

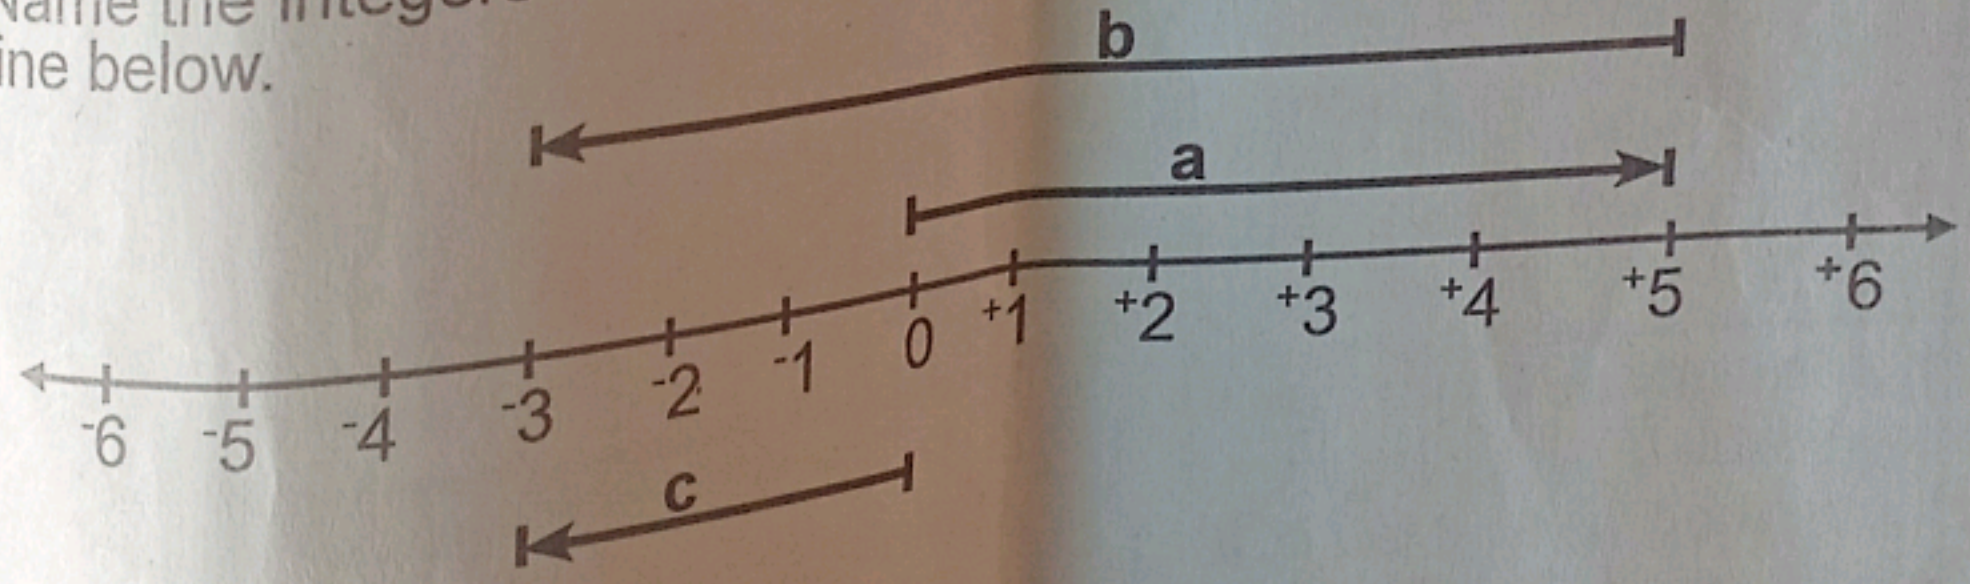

(b) Draw an abacus and **represent** the sum of the numbers in (a) above on it. *(03 marks)*

24.a) Given that **a**=3, **b**=5 and **c**=2; Find the **value** of abc +2b. *(02 marks)*

b) James had a certain number of goats. He sold off **24** goats during Christmas period last year and remained with **48** goats. How many goats did he have at **first**? *(02 marks)*

25.a) Name the integers that are represented by the arrows on the number line below. *(03 marks)*

(i) arrow **a** = _____

(ii) arrow **b** = _____

(iii) arrow **c** = _____

b) Form the additional mathematical statement represented by the arrows on the number line above. *(02 marks)*

26.a) **Work out:** *(02 marks)*

weeks	days
2	4
+3	5

b)i) A driver covered **162km** in 3 hours, at what speed was he driving? *(02 marks)*

ii) What distance could he have covered in **3** hours if he was driving at a speed of **96** km/ h? *(02 marks)*

27.a) Using a pair of compasses, a pencil and a ruler only; construct a square **ABCD** of side 4.5cm. *(04 marks)*

b) Work out the **perimeter** of the above square. *(01 mark)*

28. **Namukasa bought the following items from a shop:**
3kg of rice at sh. 4,200@
2 bars of washing soap at sh. 5,500 per bar
1,500g of sugar at sh. 4,000 per kilogramme

(a) Calculate her **total** expenditure. *(04 marks)*

(b) If she had two notes of twenty thousand shillings, what was her **change**? *(01 mark)*

29. Arrange $\frac{2}{5}$, $\frac{2}{3}$ and $\frac{1}{4}$ in **descending** order. *(05 marks)*

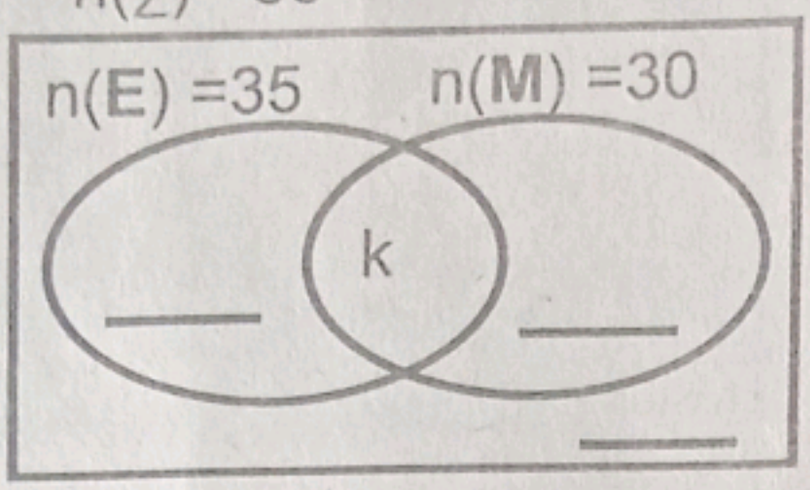

30.a) Express **7.4km** into metres. *(02 marks)*

(b) In a certain restaurant, tea is prepared in a **6** litre saucepan. The tea is served to customers using **300**ml cups. How many full cups will be served to the customers? *(02 marks)*

31. In a primary six class of **60** pupils, **35** like English **(E)**, **30** like Mathematics **(M)**, **k** pupils like both subjects while **3** pupils do not like any of the two subjects.

a) **Represent** the above information on the Venn diagram. *(03 marks)*

$n(\Sigma) = 60$

(b) Find the value of **k**. *(02 marks)*

(c) If a pupil is picked at random, find the chance of picking the one who likes mathematics only. *(02 marks)*

32 **The table below shows marks that were obtained by primary six pupils in Mid-term exams**. *Study and use it to answer the questions that follow.*

Marks scored	75	80	60	90
Number of pupils	2	3	4	1

(a) How **many** pupils did the test? *(01 mark)*

(b) Find the **range** of the score. *(02 marks)*

(c) What was the **highest** mark? *(02 marks)*
