

THE BRIDGE EXAMINATIONS BOARD- KAMPALA
P.7 PRE-MOCKS EXAMINATIONS SET II 2026
MATHEMATICS

Time Allowed: 2 Hours 30 Minutes

Index No.

Random No						Personal No		

Candidate's Name:

Candidate's signature:.....

Read the following instructions carefully.

1. Do not forget to write your name and stream on this paper.
2. This paper has two sections: **A** and **B**.
Section **A** has **20** questions and section **B** has **12** questions. The paper has **14** printed pages.
3. Answer all questions in both sections. All the working for both sections **A** and **B** must be shown in the spaces provided.
4. All answers must be written using **Blue** or **Black** ballpoint pen or ink. Any work done in pencils other than graphs and diagrams will not be marked.
5. No calculators are allowed in the examinations room.
6. Unnecessary changes in your work and handwriting that cannot easily be read may lead to loss of marks.
7. Do not fill anything in the table indicated **"For Examiner's Use Only"** and boxes inside the question paper.

FOR EXAMINER'S USE ONLY		
QN. NO.	MARKS	INITIALS
1 – 5		
6 – 10		
11- 15		
16 – 20		
21 – 22		
23 – 24		
25 – 26		
27 – 28		
29 – 30		
31 – 32		
TOTAL		

SECTION A: 40 MARK

Questions 1 to 20 carry two marks each.

1. Workout: $14 + 494$
2. Write the sum of 159 and 32 in words.
3. The sum of two numbers is 26. Find the second number if the first one is 18.
4. Round of 23.76 to the nearest whole number.
5. Roy plans to go to Afghanistan next week. What is the probability that he will fly on a day that begins with letter "T"?
6. Using a ruler, a pencil and a pair of compasses only, construct the complement of 30° .

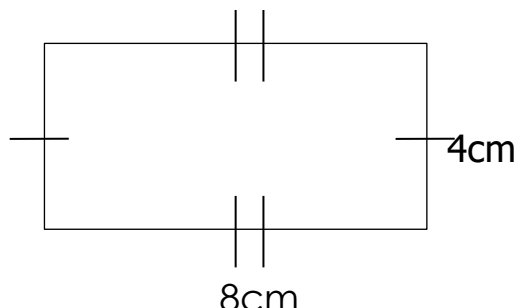

7. A man bought an article at sh.120,000. He later sold it and realised a profit of sh.75,000. At what price did he sell the article?

8. Simplify: $3y + 2k - y - k$

9. Add:

1	3	4	five
+ 3	2	0	five

10. Patrick ran twice round the rectangular field given below. Calculate the total distance that he covered.

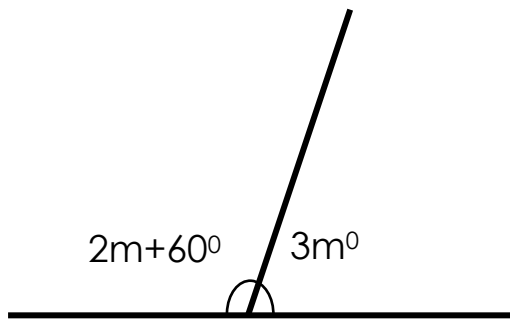

11. Find the product of the next two numbers in the sequence below.

1, 3, 5, _____, _____

12. Write 4536 in scientific notation.

13. Find the value of M in the diagram below.

14. Mr. Lizard shared his salary of sh.120, 000 between his two sons John and Roy. If John got $\frac{3}{4}$ of the total amount, find how much money Roy got.

15. A street jam dance that lasted for $2\frac{1}{2}$ hours started at 5:30p.m. Find the time at which it ended.

16. Solve for K: $2k + 8 \geq 12$

17. Find the value of P: $3 - 6 = 2 \pmod{P}$

18. Find the number which has been expanded to get;
 $(2 \times 10^2) + (6 \times 10^{-1}) + (7 \times 10^0)$

19. It takes **6** men **6** days to build a house. How many more days will it take **2** men to do the same work at the same rate?

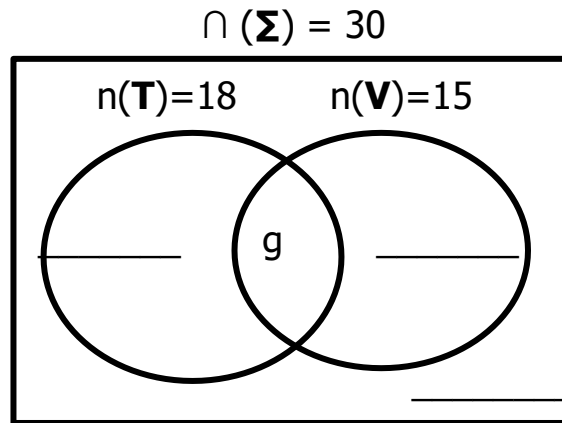

20. Okiring shared some money among his three children Mary, Joyce and Ronald in the ratio of 2:3:7 respectively. If Ronald got sh.40, 000 more than Mary, find how much money was shared.

SECTION B: 60 MARKS

Marks for each question are indicated in brackets.

- 21.** In a class of **30** pupils, **18** pupils play tennis (**T**), **15** play volleyball (**V**), **g** pupils play both games while **2** play neither of the games.

- a)** Complete the Venn diagram below using the above information.

- b)** Find the number of pupils who play only one type of games.

(02 marks)

- 22. a)** Simplify: $\frac{0.5 \times 0.4}{0.02 \times 0.5}$

(03 marks)

- b)** Orago spent $\frac{1}{3}$ of his money on treatment, $\frac{1}{2}$ of the remainder on transport and saved sh.5000. Find the total amount of money he had at first. (03 marks)

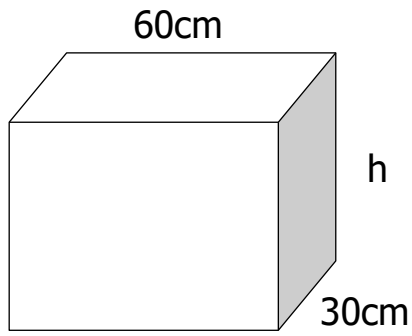

- 23.** The table below shows the weight of children who were immunized against polio at Nagongera Health Center IV.

Weight in (kg)	4	10	8	5
No. of children	4	1	m	2

- a)** If 10 children were immunised against polio, find the value of m. (02 marks)

- b)** Find the average weight of all the immunized children. (03 marks)

- 24.** The diagram below shows a cuboid whose capacity is 72 litres. Use it to answer questions that follow.

- a)** Find the value of h. (03 marks)

- b)** Calculate the area of the shaded part. (02 marks)

- 25.** A mother went to the market and bought the items listed below.

2kg of meat at sh. 12,000 per kilogram.

$1\frac{1}{2}$ litres of cooking oil at sh.6, 000 per litre.

500g of salt at sh.1,200 per kilogram.

- a)** Find how much did she pay for all the items on the list. (04 marks)

- b)** If she went to the market with sh.40, 000, calculate her change.
(02 marks)

26. The interior angle of a regular polygon is **9** times the exterior angle.

- a)** Find its exterior angle. (02 marks)

- b)** Calculate the interior angle sum of the polygon.

(03 marks)

27. Using a pair of compasses, a sharp pencil and a ruler only, construct a triangle **KLM** where angle **KLM** = **120°** , **KL** = **4.8cm** and line **LM** = **6.0cm**. Drop a perpendicular from **M** to meet line **KL** at **P**.

(04marks)

b) Measure angle **LKM** _____ (01 marks)

- 28.** Reagan deposited sh.120, 000 in DFCU bank which offers an interest rate of 5% per annum. Calculate the simple interest generated in the bank after a period of $2\frac{1}{2}$ years. (03 marks)

b) How much money was in his bank account by the end of 2 years? (02 marks)

- 29.** A lion ran after a warthog at a speed of 40km/h from 3:30 p.m to 5:30 p.m. Calculate the distance covered by the lion. (04 marks)

30. a) Solve for M: $2(m+4) = 32$

(02 marks)

b) Opot is 3 times as old as Ogot. The difference in their age is 42 years.
How old is Ogot now? (02 marks)

31. The median of 3 consecutive counting numbers is 24.

a) Find the numbers

(03 marks)

b) Find the difference between the biggest and the smallest number

(02 marks)

32. When marking a Mathematics test, a teacher awarded 5 marks for every correct answer and subtracted 2 marks for every wrong answer given by a pupil in a test of 20 questions.

a) Find the score of a pupil who failed 3 questions.

(02 marks)

b) Find the number of wrong responses given by a pupil who scored 65 marks.

(03 marks)

THE END
