(c) Work out the mechanical advantage of the above simple machine.

(02 marks)

46. (a) State how each of the following conditions is important during seed germination;

(i) water _____

(ii) oxygen _____

(b) Give one reason why the radicle comes out first during seed germination.

(c) Write one factor that may make a viable seed fail to germinate.

47. In the table below, A shows deficiency diseases while B shows signs and symptoms of the deficiency diseases.

A	B
goitre	skin
rickets	bleeding gums
anaemia	swollen neck and thyroid glands
scurvy	weak limbs

Match correctly the signs and symptoms in B in the spaces provided;

(a) goitre _____

(b) rickets _____

(c) anaemia _____

(d) scurvy _____

48. (a) State any **two** factors that a poultry farmer should consider when choosing a system of keeping birds.

(i) _____

(ii) _____

(b) Give any **two** ways of increasing the amount of eggs collected from a poultry farm.

(i) _____

(ii) _____

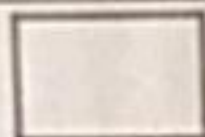

49. (a) Mention any **two** human activities that can lead to silting.

(i) _____

(ii) _____

(b) Give any **one** effect of silting of water bodies.

(c) State any **one** way of controlling silting in water bodies.

50. (a) State any **one** way cooked food can get contaminated.

(b) Mention any **two** effects of eating contaminated food to human health.

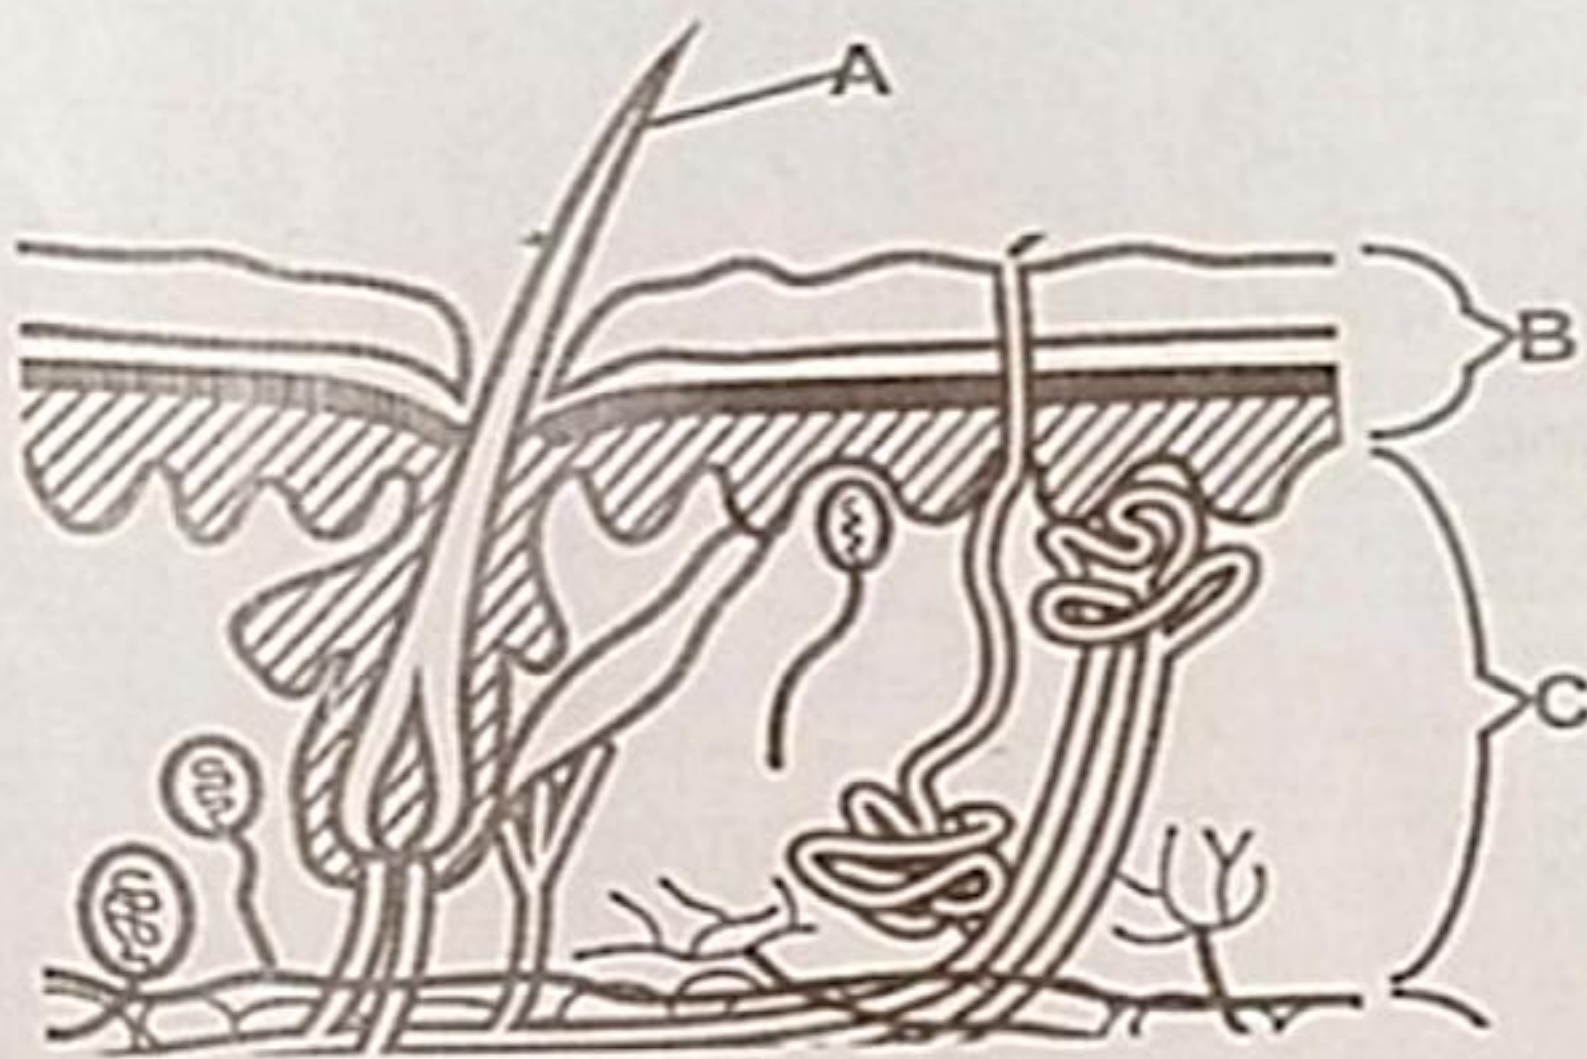

(i) _____

(ii) _____

(c) Give any **one** way in which you can prevent food from getting contaminated during serving.

51. The diagram below shows the human skin. Study and use it to answer the questions that follow.

(a) Name the parts marked with letters B and C.

(i) B _____

(ii) C _____

(b) State the role of part marked with letter A.

(c) Give one reason why applying vaseline on the above organ is important.

52. You are provided with a mixture of salt and sand, a clean container, water, a source of heat, a spoon, a saucepan and a sieve.

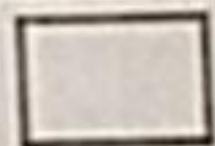

In four sentences, describe how you can recover the salt from the sand.

(i) _____

(ii) _____

(iii) _____

(iv) _____

53. The diagrams below show common parasites that attack cattle. Study and use them to answer the questions that follow.

(a) Name the parasite labelled with letter P.

(b) Give any one disease spread to cattle by parasite labelled with letter K.

(c) Write any two effects of the above parasites to cattle.

(i) _____

(ii) _____

54.(a) Write the meaning of each of the following terms;

(i) implantation _____

(ii) conception _____

(b) Mention any two health care services provided to pregnant mothers during antenatal care in hospitals.

(i) _____

(ii) _____

55.(a) Name the type of roots that develops from the radicle of a germinating seed.
