TERM III ASSESSMENT 2025
PRIMARY FOUR
INTEGRATED SCIENCE

"For Better Performance"

TIME ALLOWED: 2HRS:15 MINUTES

NAME:.....

SCHOOL NAME: .....

DISTRICT NAME: .....

READ THE FOLLOWING INSTRUCTIONS CAREFULLY

1. The paper has two sections A&B
   Section A has 40 short Questions (40 marks)
   Section B has 15 Questions (60 marks)
2. Answer All Questions. All answers to both sections A and B must be written in the spaces provided.
3. All answers must be written using a blue or black ball-point pen or fountain pen.
   Diagrams should be drawn in pencil.
4. Unnecessary changes of work may lead to loss of marks.
5. Any handwriting that cannot easily be read may lead to loss of marks
6. Do not fill any thing in the boxes shown " for Examiners' use only" and those inside the Question paper.

SECTION A

1. Name the main natural source of water in the environment.

2. Name the best food for babies.

3. Give any **one** importance of soil to animals.

4. Name the vector that spreads malaria to people.

5. Explain the meaning of the term **balanced diet**?

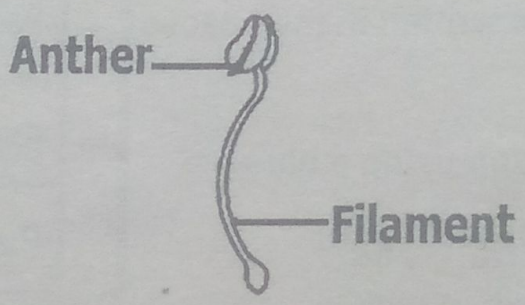

6. Which part of a seed grows into a seedling?

7. Name the vitamin obtained from eating carrots.

8. How are the canines useful to people?

9. Write the material used to kill germs in our bodies when bathing.

10. **Name the part of the flower drawn below.**

11. What do we call the process by which plants make their food?

12. Name the component of air used during the process of germination.

13. Where do mosquitoes lay their eggs?

14. Write **one** example of a bird that provides eggs at home.

15. Mention **one** way of preserving food at home.

16. Mention **one** insect likely to be found in your clothes if they are not kept clean.

_____

17. Give the meaning of the term **food**.

_____

_____

18. Name the body organ that is protected by the skull.

_____

19. Give **one** part of a plant attacked by pests.

_____

20. Where are delicate weather instruments kept at the weather station?

_____

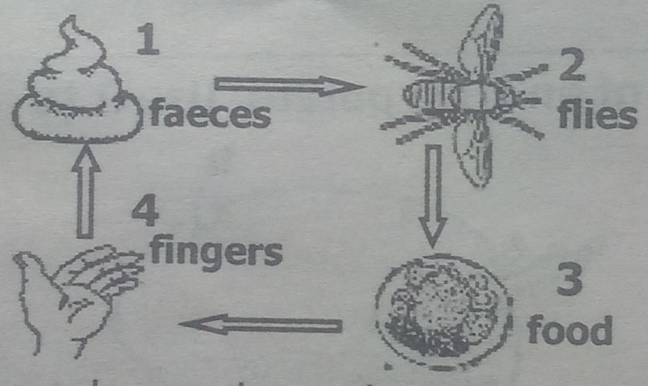

21. Write **one** danger of not brushing the teeth.

_____

22. What is the first set of teeth?

_____

Below is a diagram showing how diarrhoeal diseases can be spread. Use it to answer the questions about it.

23. What does the diagram drawn above show?

_____

24. How is organism number **2** in the diagram dangerous in the environment?

_____

25. Write **one** function of leaves to plants.

_____

26. Give any **one** example of a non flowering plant.

_____

27. State **one** use of a dustbin in a classroom.

_____

28. Mention any **one** danger of soil erosion in the environment.

_____

29. State any **one** type of germination you know.

_____

30. Name **one** product of bees.

_____

The diagram below shows an item used to promote personal hygiene. Study and use it to answer the questions that follow.

31. State the use of the item shown in the diagram above.

_____

32. Write the name of the item drawn above.

_____

33. Give a reason why animals move from one place to another.

_____

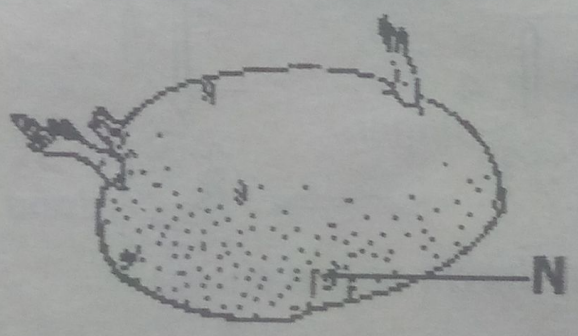

34. Write any **one** component of soil.

_____

35. Give **one** function of the ears.

_____

Below is a diagram of an Irish potato. Use it to answer questions 36 and 37.

36. Name the part marked **N**.

_____

37. Apart from an Irish potato, write **one** example of a stem tuber.

_____

38. Write **one** way in which water sources like wells can be contaminated.

_____

39. What enables a housefly to carry germs on its body?

_____

40. Give the meaning of the term **pollination.**

_____

_____

SECTION B

41. a) **Draw and name two things used to clean our body.**

b) Give any **two** uses of water.

i) _____

ii) _____

42. a) **Which food value;**

i) **gives energy** _____

ii) **builds the body** _____

iii) **promotes health** _____

b) What are **deficiency diseases**?

_____

_____

43. a) Give any **two** elements of weather.

i) _____

ii) _____

b) Write any **two** ways of managing rainy weather.

i) _____

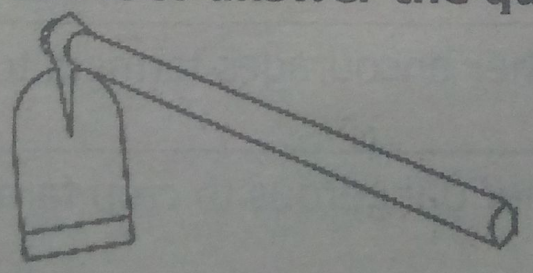

ii) _____

44. a) What is meant by the term **cash crops**?

_____

_____

b) **Study the garden tool and use it to answer the questions about it.**

i) Name the garden tool.

_____

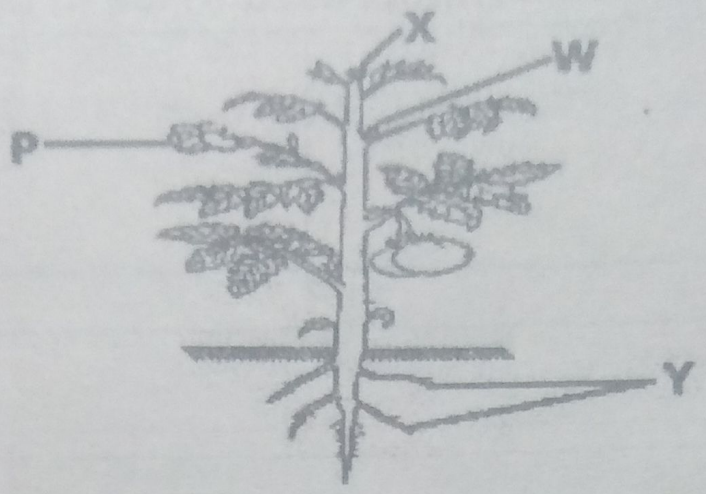

ii) Give the use of the garden tool drawn above.

_____

iii) Write any **one** way of caring for the above garden tool.

_____

45. **Below is a diagram of a flowering plant. Use it to answer the questions about it.**

a) Name the parts marked **P** and **W.**

i) **P** _____

ii) **W** _____

b) What does part **X** grow into?

_____

c) Write **one** use of part **Y** on the plant.

_____

46. a) Name the **two** types of germination.

i) _____

ii) _____

b) Apart from warmth, name **two** other conditions necessary for germination to take place.

i) _____

ii) _____

47. a) What time of the day do farmers carry out transplanting?

_____

b) Name the garden tool crop farmers use to transplant seedlings.

_____

c) Which type of weather encourages farmers to put their seeds in the soil?

_____

d) How is windy weather dangerous to crop farmers?

_____

_____

48. **Name the type of soil used for;**

i) **making glasses** _____

ii) **making ceramics** _____

iii) **growing crops** _____

iv) **modeling** _____

49. **Study the parts of a flower below in A and their meaning in B. Match them correctly.**

A	B
pistil	- female reproductive cells of a plant.
stamen	- male reproductive cells of a plant.
ovules	- male part of a flower.
pollen grains	- female part of a flower.

i) **Pistil** _____

ii) **Stamen** _____

iii) **ovules** _____

iv) **pollen grains** _____

50. a) What is **photosynthesis**?

_____

_____

b) Mention any **one** raw material for photosynthesis.

_____

c) Why are plants unable to make their food at night?

_____

_____

d) Give the importance of photosynthesis to plants.

_____

51. a) What is **air**?

_____

_____

b) Mention any **one** component of air.

_____

_____

c) **Draw the diagrams that represent the properties of air named below.**

Air has weight	Air exerts pressure

52. **Name the crop growing practices that help crop farmers to;**

a) remove excess and extra branches from a plant.

_____

b) Keep moisture in the soil.

_____

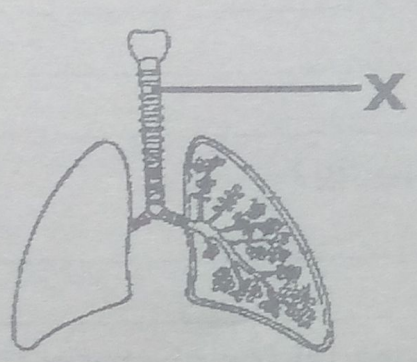

c) remove excess crops from the garden

_____

d) remove mature or ready crops from the garden.

_____

53. **Below is a diagram showing a major human body organ. Use it to answer questions about it.**

a) Name the major organ drawn above.

_____

b) Where in the human body is the above organ located?

_____

c) Name the part labeled **X**.

_____

d) State the importance of the above organ in the human body.

_____

54. a) Give any **two** examples of fruits found in your environment.

i) _____

ii) _____

b) Write **two** uses of trees in the environment.

i) _____

ii) _____

55. a) Give the meaning of the term **basic needs**.

_____

_____

b) Mention any **three** examples of basic needs in your community.

i) _____

ii) _____

iii) _____

PROSPER EDUCATIONAL CONCERN

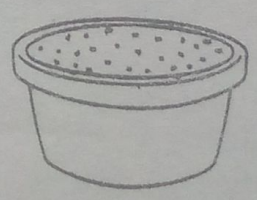

P.4 SCIE MARKING GUIDE SET I TERM III 2025

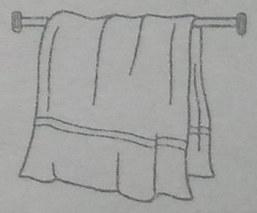

S/N	CLASS	RESPONSES
1.	P3	▪ Rain
2.	P3	▪ Breast milk
3.	P3	▪ Soil is a habitat for animals like ea[illegible]ms, rats and squirrels. ▪ Soil provides protection to animals.
4.	P4	▪ Infected female anopheles mosquito
5.	P4	▪ Is a meal that contains all the food va[illegible]es in their correct amount
6.	P4	▪ Seed embryo
7.	P4	▪ Vitamin A
8.	P4	▪ Canines help people to tear flesh/food.
9.	P4	▪ Soap
10.	P4	▪ Stamen
11.	P4	▪ Photosynthesis
12.	P3/4	▪ Oxygen
13.	P3	▪ In stagnant water/still water
14.	P2	▪ Hen/Guinea fowls ▪ Duck/Grease ▪ Turkey
15.	P4	▪ Salting ▪ Sun drying ▪ Refrigeration ▪ By smoking
16.	P4	▪ Bedbugs ▪ Mites ▪ Fleas ▪ lice
17.	P4	▪ Food is anything eaten and nourishes the bodv.
18.	P4	▪ Brain/inner eyes/Inner ears
19	4	▪ Leaves ▪ Stems ▪ Roots ▪ Fruits
20.	P4	▪ Stevenson Screen
21.	P4	▪ Not brushing the teeth leads to accumulation of remaining food particles on the teeth that attract bacteria that can cause teeth diseases. ▪ It can lead to tooth decay./It can lead to bad breathe..
22.	P4	▪ Milk teeth
23.	P4	▪ The 4fs germ path

24.	P4	▪ Organism number 2 spreads disease causing germs that cause diseases.
25.	P4	▪ Leaves help plants to carryout photosynthesis/They help plants to breathe/Some leaves store food for the plants. ▪ They help plants during transpiration/Some leaves are used for propagation.
26.	P4	▪ Fern/Conifers/Horse tail. ▪ Mosses
27.	P3,P4	▪ A dustbin is used for proper disposal of wastes in a classroom
28.	P3	▪ Soil erosion reduces the fertility of the soil/It leads to soil infertility.
29.	P3	▪ Epigeal germination ▪ Hypogeal germination
30.	P2	▪ Bee wax ▪ Honey ▪ Pollen
31.	P4	▪ The item is used for cutting finger nails short and toe nails short.
32.	P4	▪ Nail cutter
33.	P3	▪ Animals move to get food/To look for protection. ▪ To look for their young ones/To look for mate/To look for good shelter.
34.	P3	▪ Humus /Rock particles ▪ Air/Living organism (Bacteria and fungi) ▪ Water
35.	P4	▪ The ears help to maintain body balancing ▪ The ears help in hearing
36.	P4	▪ Lateral bud or eye
37.	P4	▪ Coco yam
38.	P4	▪ Defecating in them/By swimming in them/Dumping rubbish in wells. ▪ Urinating in them/spraying chemicals near wells.
39.	P.4	▪ Hairy body
40.	P.4	▪ Pollination is the transfer of pollen grains from the anther to the stigma.
		SECTION B
41.	a)	P2
	b)	▪ Water is used for washing clothes. ▪ Water is used for cooking.
42.	a)	P4 i) Carbohydrates ii) Proteins iii) Vitamins

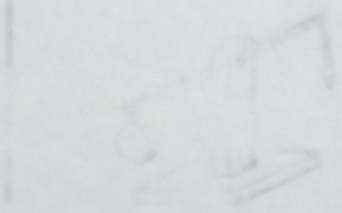

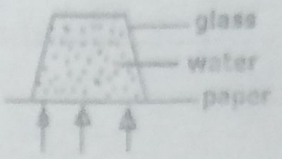

Soap

Water

Towel

	b)		▪ Deficiency diseases are diseases that are caused by lack of enough food values in the body.
43.	a)	P3/4	▪ Sunshine/Temperature ▪ Rainfall/Humidity ▪ Wind /Air pressure ▪ Cloud cover
	b)		▪ Wearing sweaters ▪ Wearing gumboots ▪ Wearing jackets
44.	a)	P4	▪ Cash crops are plants grown mainly for sale.
	b)		i) Hoe ii) For weeding/ For harvesting crops
	iii)		▪ Keeping the garden tool in a clean dry place to avoid rusting. ▪ By removing soil after using it.
45.	a)	P4	P – Flower W – Lateral bud/ Axillary bud
	b)		▪ Part X grows into a new leaf and flower.
	c)		▪ Part Y absorbs water and mineral salts from the soil to the plant. ▪ Part Y holds the plant firmly into the soil
46.	a)	P4	▪ Epigeal germination ▪ Hypogeal germination
	b)		▪ Moisture ▪ Oxygen /warmth
47.	a)	P4	▪ In the evening
	b)		▪ Trowel
	c)		▪ Rainy weather
	d)		▪ It breaks/destroys the farmers crops/It carries away top fertile soil.
48.	a)	P3	▪ Sand soil
	b)		▪ Clay soil
	c)		▪ Loam soil
	d)		▪ Clay soil
49.	a)	P4	▪ Pistil - Female part of a flower ▪ Stamen – Male part of a flower ▪ Ovules - Female reproductive cells of a plant ▪ Pollen grains – Male reproductive cells of a plant
50.	a)	P4	▪ Photosynthesis is the process by which plants make their own food.
	b)		▪ Carbon dioxide ▪ Water
	c)		▪ There is no presence of sunlight during the night
	d)		▪ Photosynthesis enables plants to get their food
51.	a)	P3	▪ Air is the mixture of gases

	b)		• Oxygen • Nitrogen • Carbon dioxide • Rare gases
	c)		Air has weight: 
			Air exerts pressure: 
52.	a)	P 4	• Pruning
	b)		• Mulching
	c)		• Thinning
	d)		• Harvesting
53.	a)	P4	• Lungs
	b)		• In the chest cavity
	c)		• Trachea / Wind pipe
	d)		• The above organ is used for breathing.
54.	a)	P4	• Oranges • Mangoes • Passion fruits • Pineapples • Jackfruits • Lemons • Apples • Grapes • Avocad • Blue berry • Straw berry • Watermelon • Cherry
	b)		• Trees purify air in the environment • Trees help in rain formation. • Trees act as wind breakes to control soil erosion. • Some trees provide us with fruits. • Trees provide wood for timber, firewood, charcoal/
55.	a)	P2	• Basic needs are things man cannot live without
	b)		• Food • Shelter • Clothes • Water

End
