END OF YEAR ASSESSMENT TEST 2025

BIOLOGY

S.1

Time: 1 Hours: 30 mins

INSTRUCTIONS:

- The paper contains two items.
- Attempt **ALL** items.

ITEM 1

In certain forests, there were antelopes which were living in the forest. They fed alright without resting. During the day, Antelopes were being resting in the middle of the jungle. They're come roaring lions which used and spent alright no food to feed on, so these lions became weak. The lion saw an antelope resting and tried sneak to sneak to catch, but unfortunately heard the swift movement of the lions and took off, the lions tried to chase but could not catch the antelopes and thus the antelopes survived being caught.

Task:

- Define the term life processes.
- Identify the life processes involved in scenario (i).
- Explain the importance of Each identified life process in (ii) above

ITEM 2

While in a Biology lesson, Mr. Mutyaba informed all learners that the biological hierarchy relates with the different political administration levels in Uganda. In this scenario, he used man as an example. Kyomuhendo Peter, one of the students in Mr. Mutyaba's class has found a challenge in relating the concept.
