Read the following instructions carefully:

1. Do not write your school or district name anywhere on this paper.
2. This paper has two sections: A and B. Section A has 40 questions and section B has 15 questions. The paper has 12 printed pages.
3. Answer all the questions. All answers to both sections A and B must be written in the spaces provided.
4. All answers must be written using a blue or black ballpoint pen or ink. Any work written in pencil will not be marked.
5. Unnecessary changes in your work and handwriting that cannot be easily read may lead to loss of marks.
6. Do not fill anything in the table indicated **"FOR EXAMINERS USE ONLY"** and the boxes inside the question paper.

FOR EXAMINERS' USE ONLY

TOTAL		

SECTION A: 40 MARKS

Answer **all** questions in this section
Questions **1** to **40** carry **one** mark each

1. Give any **one** way of caring for crops in a garden.

.....

2. State **one** reason why some people record sound.

.....

3. Mention the way of killing germs in water by heating it to 212°F.

.....

4. Name the group of animals to which a slug belongs.

.....

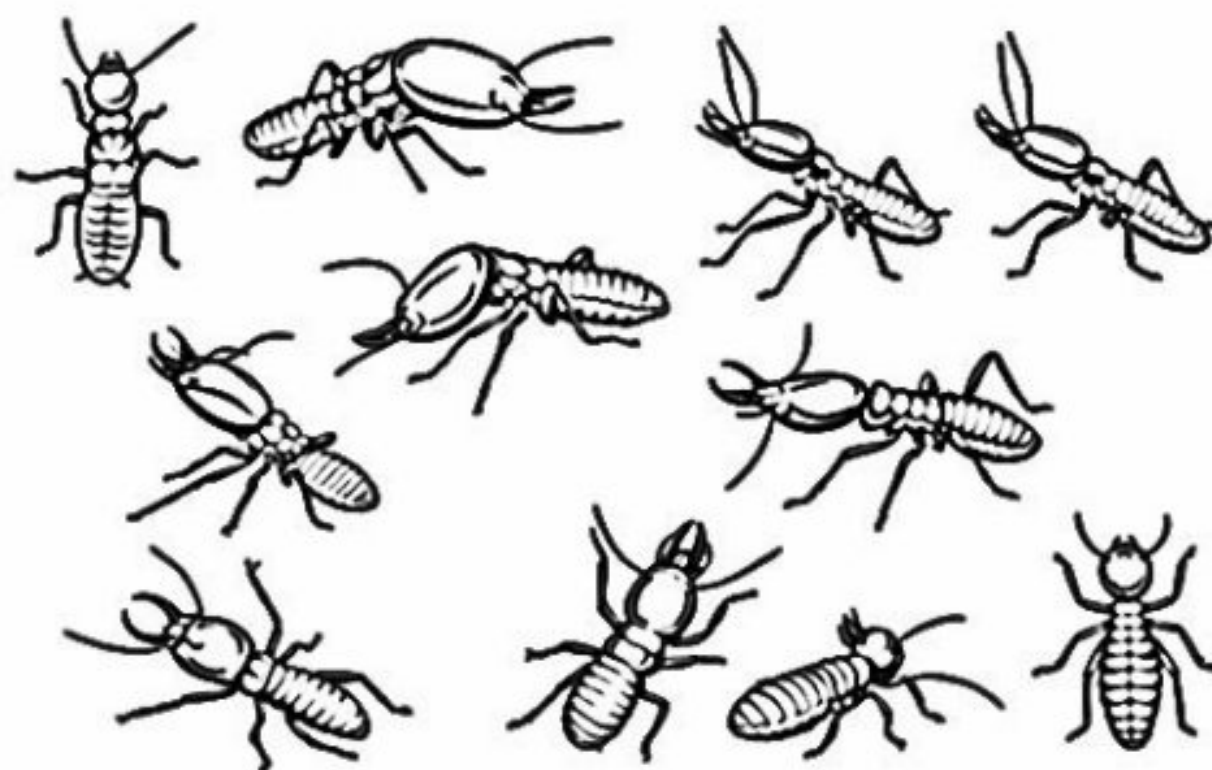

5. State any **one** way of controlling foodborne diseases at home.

.....

6. Give the meaning of the term **electricity**.

.....

7. Mention the reason why insects below are grouped under social insects.

.....

8. Give **one** way in which animals provide useful energy to people.

.....

9. State the term used to mean anything that occupies space and has mass.
.....
10. Mention **one** way in which poultry keeping promotes the development of agricultural industries.
.....
11. Give the element of Primary Health Care (PHC) that supports the total well-being of expectant mothers.
.....
12. Gilbert kept hot water in a vacuum flask, he later found it cold. Give **one** reason why this happened.
.....
13. Mention **one** reason why bacteria are important in a biodigester.
.....
14. Give any **one** method by which food is taken into the body.
.....
15. Give the reason why cooks require heat energy in the kitchen.
.....
16. State the reason why immunisation of babies with BCG vaccine is at birth.
.....
17. Give the difference between lodestone and the earth as used in magnetism.
.....
.....
.....

18. State any **one** way of rearing goats at home that requires the use of a rope most times.

.....

The diagram below shows a root system. Study and use it to answer the questions **19** and **20**.

19. Identify the root system shown in the diagram above.

.....

20. Give a reason to support your answer.

.....

21. State the difference between air and atmosphere.

.....

.....

22. Identify the method of finding the volume of a radish tuber.

.....

23. Give any **one** factor that promotes the breeding of fungi on bread.

.....

24. Mention the component of sand soil that makes it good for making glasses.

.....

25. Give any **one** way you would use to identify arteries from veins in the body.
-
26. State any **one** advantage of brushing teeth using a chewed stick.
-
27. Mention the reason why burning of paper to ash is a chemical change.
-
28. Give the meaning of **weather change**.
-
29. State any **one** way of preventing poisoning at home.
-
30. Name the group of worms to which a lugworm belongs.
-
31. Give any **one** viral disease of the circulatory system in humans.
-
32. State any **one** way in which food nourishes the body.
-
33. State any **one** means of simplifying work by machines.
-
34. Mention any **one** fact to prove that water is a resource at school.
-
35. Give **one** reason why brewing local alcohol at home should be discouraged.
-

36. State how the use of lukewarm water helps in giving first aid to a person with fever.
-
37. Give any **one** way in which afforestation controls soil erosion.
-
38. In the space provided below, draw a diagram to show a male reproductive part of a flower.
-
39. Mention any **one** reason why crop farmers should carry out crop rotation.
-
40. Give **one** similarity between bats and hens in the way they increase in number.
-

SECTION B: 60 MARKS

*Answer **all** questions in this section*

*Questions **41** to **55** carry four marks each*

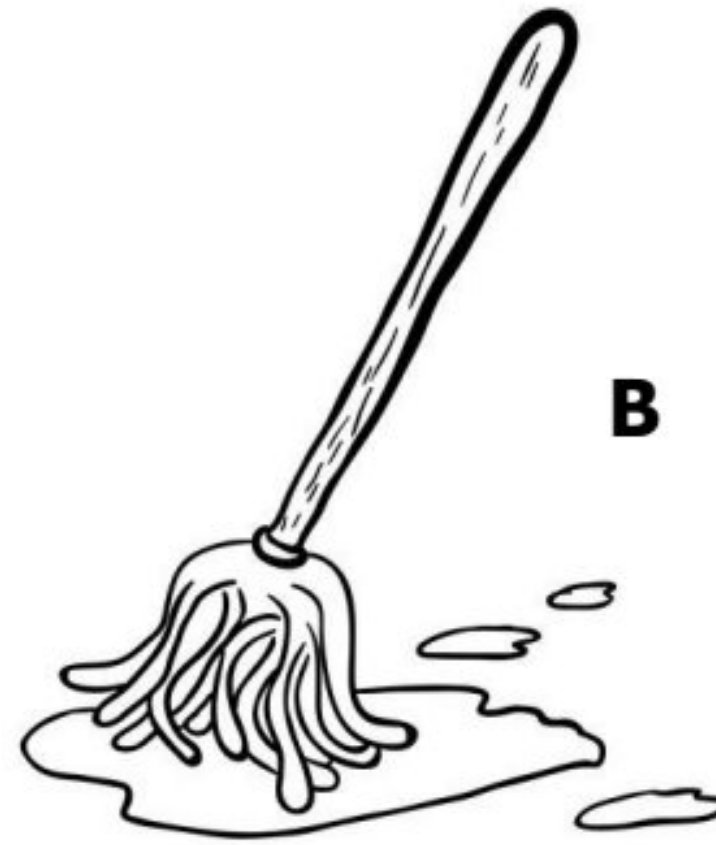

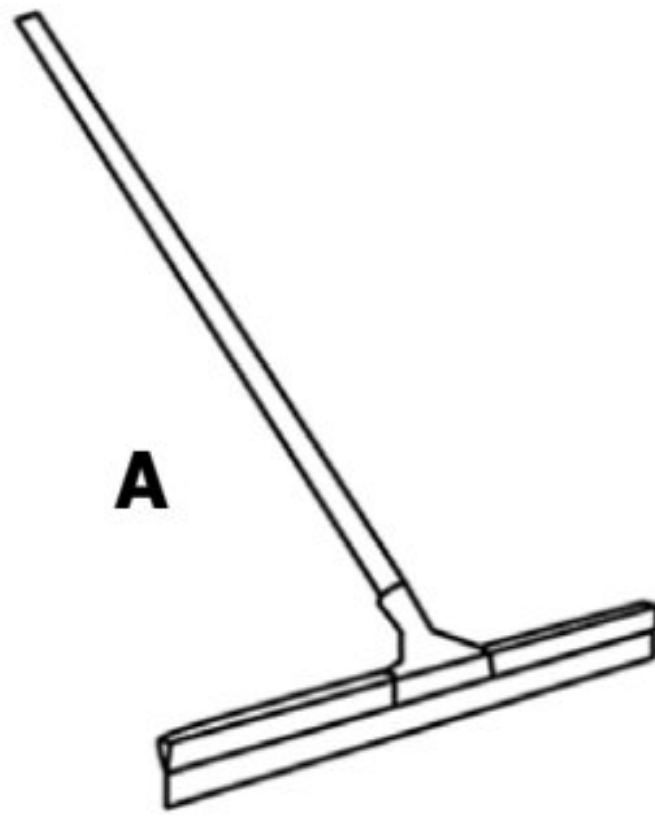

41. (a) State any **two** social effects of AIDS in an area.
- (i).....
- (ii).....

- (b) Give any **two** preventive measures taken by a P.7 candidate to avoid the contraction of HIV/AIDS.

(i).....

(ii).....

42. The diagrams below show sanitary items. Use them to answer questions that follow.

- (a) Name the sanitary items **A** and **B**.

A

B

- (b) Explain how sanitary item **A** makes cleaning easier. (02 marks)

.....

.....

43. (a) State any **one** way in which the following are used as energy resources:

- (i) Mango tree

.....

- (ii) Water

.....

- (b) Give any **two** methods of saving non-renewable energy resources.

(i).....

(ii).....

Turn Over

44. (a) Give any **one** way in which primary sex characteristics are different from secondary sex characteristics.
-
-
- (b) Mention any **two** examples of secondary sex characteristics in males.
- (i).....
- (ii).....
- (c) Give any **one** way in which girls can care for their reproductive organs.
-
45. (a) Mention any **two** organs of the circulatory system.
- (i).....
- (ii).....
- (b) Name the blood disease caused by protozoa.
-
- (c) State the importance of valves in the human heart.
-
46. (a) Mention the **two** types of stems.
- (i).....
- (ii).....
- (b) Give any **one** example of a stem tuber.
-
- (c) Give any **one** example of a root tuber.
-

47. The table below shows deficiency diseases in group **A** and their causes in group **B**, but in wrong order. Study it correctly and match by filling in the spaces provided below it.

Group A(Disease)	Group B (cause)
Goitre	Lack of carbohydrates in the body
Marasmus	Lack of iron in the body. Insufficiency of iodine in the body.
Scurvy	Marasmus is caused by lack of all food values in the body
Anaemia	Inadequacy of vitamin C in the body.

- (i) Marasmus:
- (ii) Anaemia:
- (iii) Goitre:
- (iv) Scurvy:

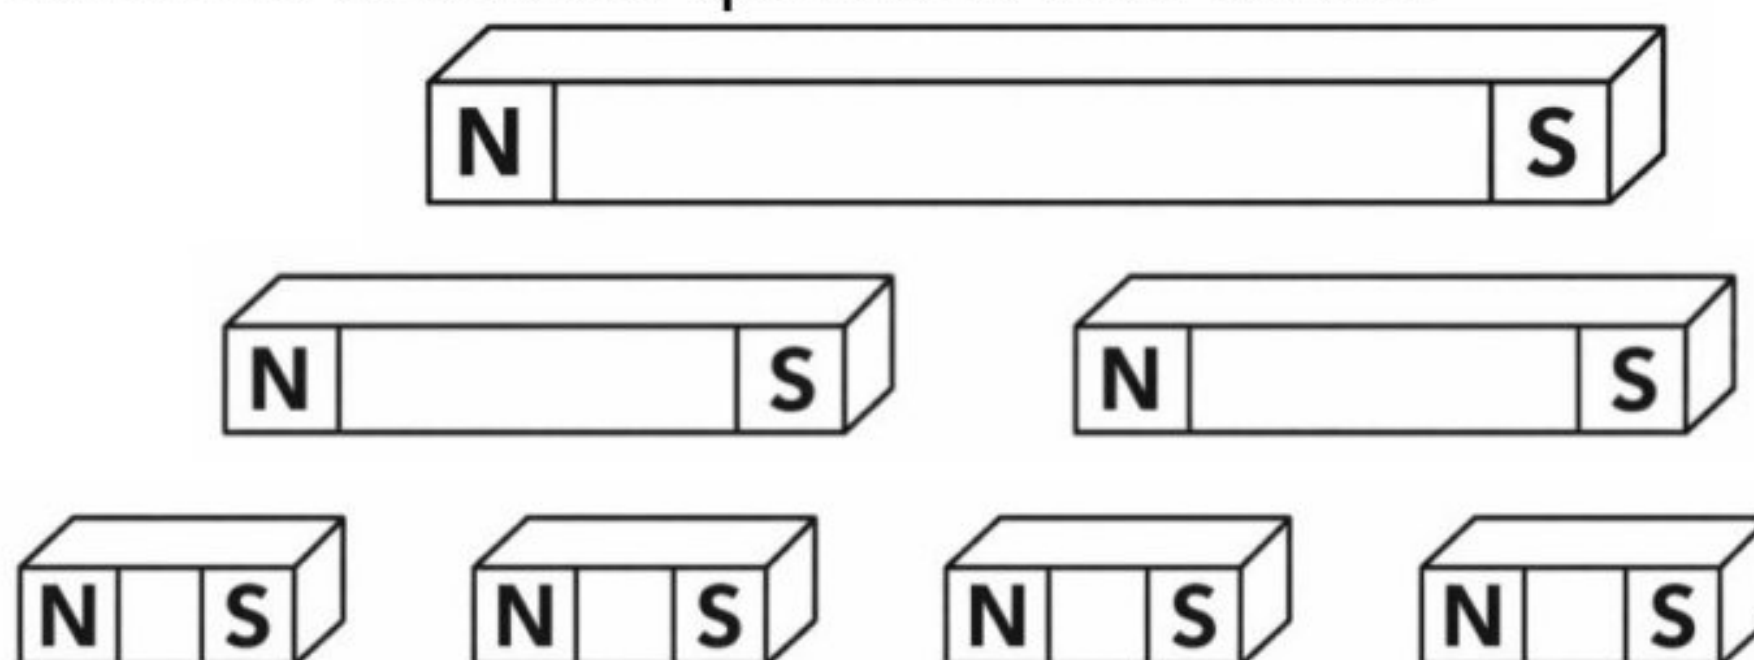

48. (a) Mention any **two** ways in which school-going children can promote immunisation at school.

- (i).....
- (ii).....

- (b) Give the body site for the following vaccines:

- (i) Hep B vaccine:
- (ii) PCV:

The diagram below shows broken pieces of magnets placed in an open area. Study and use it to answer questions that follow.

49. (a) Name the magnet shown above.
.....
- (b) State the property of magnets illustrated above.
.....
- (c) Give a reason why a freely suspended bar magnet rests in the north-south direction.
.....
- (d) Mention **one** way in which magnets are useful to watch repairers.
.....
50. You are provided with the following items, a hoe and a garden fork. In four steps, describe how you can turn growing weeds into mulch in the garden.
.....
.....
.....
.....
51. (a) Give any **two** factors that favour the breeding of a bacterium.
(i).....
(ii).....
- (b) State any **two** conditions that affect the multiplication of germs on our hands.
(i).....
(ii).....

52. (a) Explain how Mr. Ocheng can continue rearing his animals at home if the nearby bush is destroyed by uncontrolled fire. (02 marks)
-
-
- (b) State the importance of the following when improving on local breeds of cattle:
- (i) Proper feeding
-
- (ii) Crossbreeding
-
53. (a) The quantity of matter contained in an object is 50 kg. If the mass per unit volume of the same object is 10 kg/m^3 , find the required space taken by the object. (02 marks)
- (b) State any **two** reasons why it is important to understand density.
- (i).....
- (ii).....
54. (a) Mention any two bacterial diseases of the muscular-skeletal system.
- (i).....
- (ii).....

Turn Over

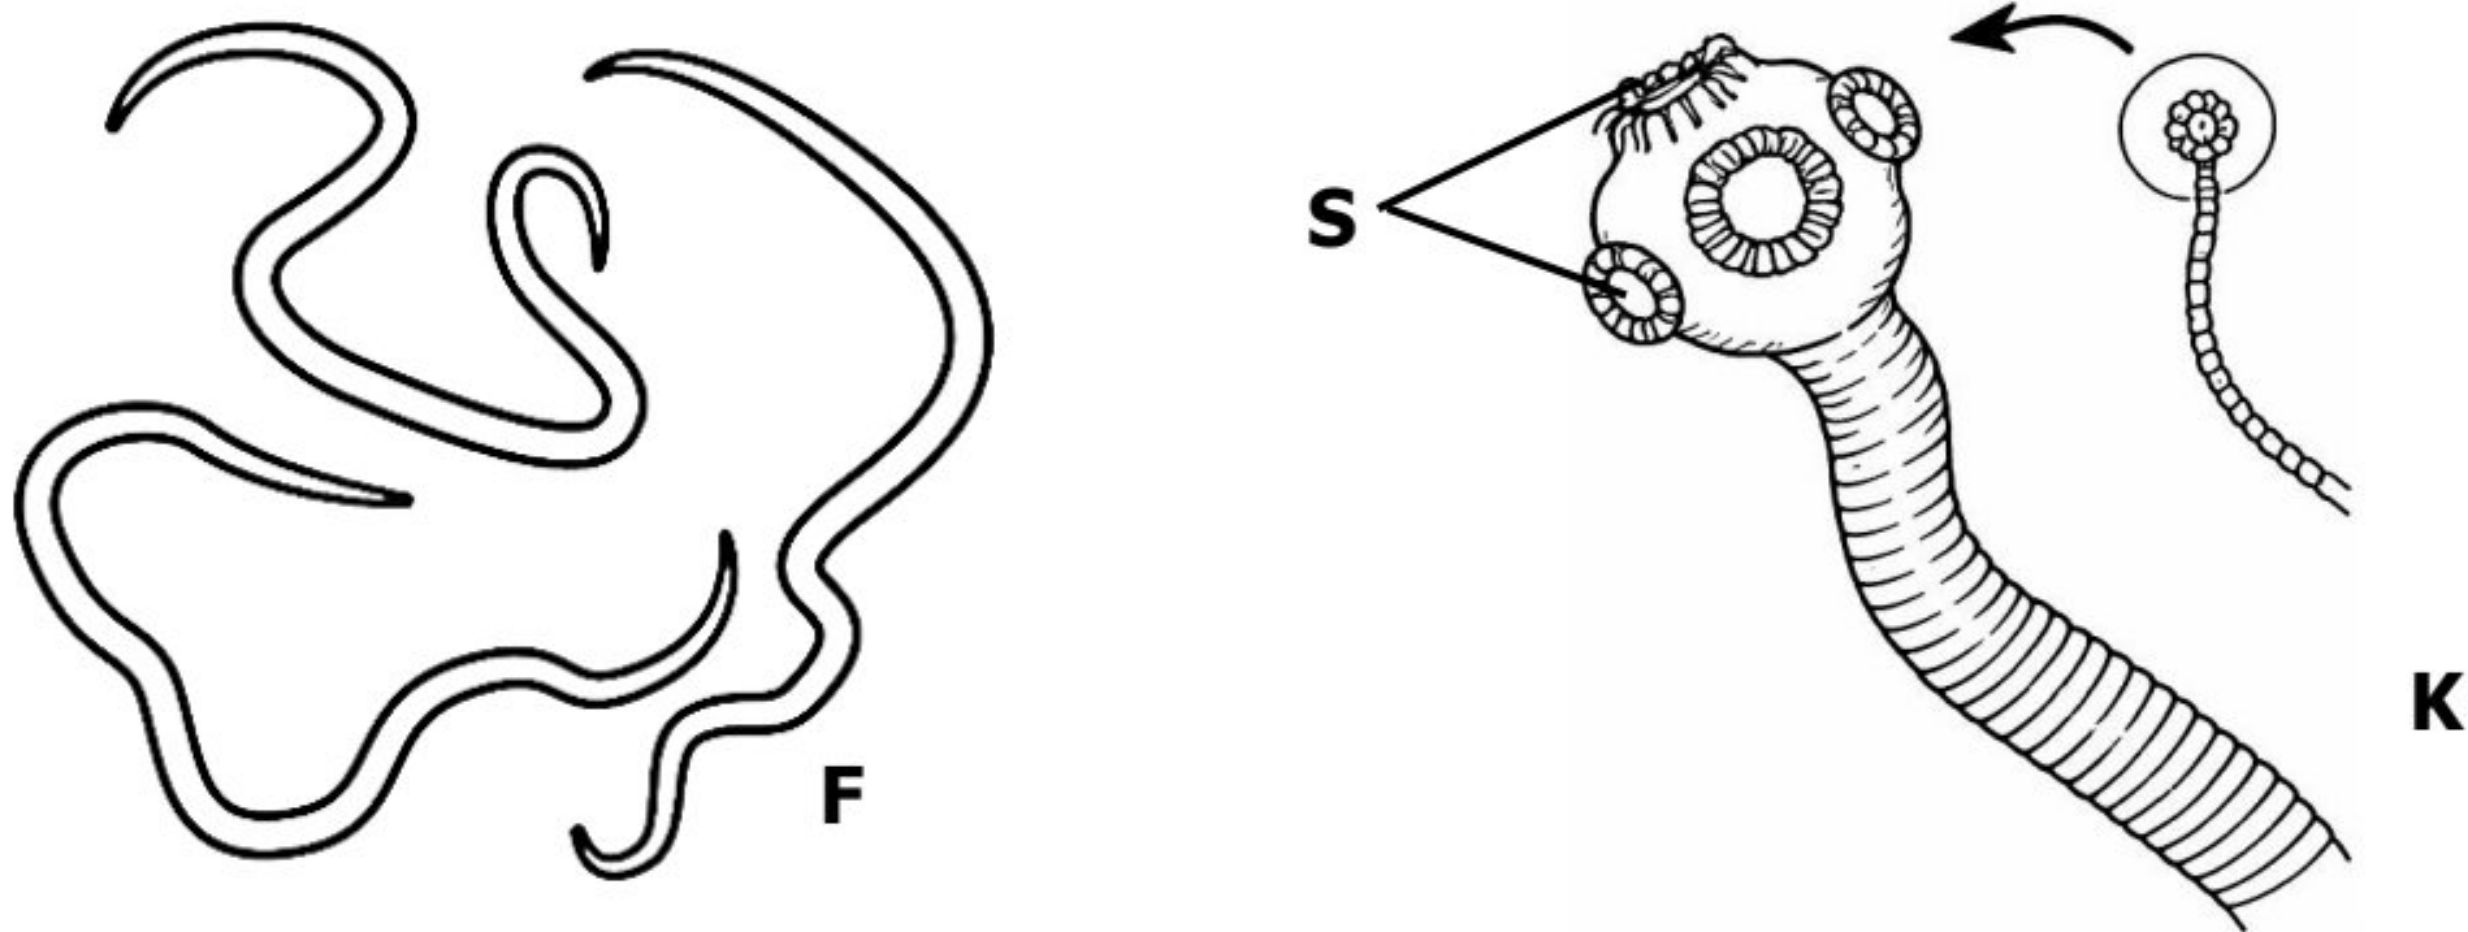

- (b) Give a reason why cockroaches should be killed during the control of poliomyelitis.

.....

- (c) Besides cockroaches, mention any one other example of an arthropod that aids in the transmission of poliovirus.

.....

55. The diagrams below show animals in the group of invertebrates. Study them carefully and answer the questions that follow.

- (a) Identify the group of parasites to which F and K belong.

.....

- (b) Name the part of a bean seed that performs the same function as part S.

.....

- (c) Explain how animal K is able to feed itself in the body of humans.

(02 marks)
