CAMPUS :

DO NOT OPEN THIS BOOKLET UNTIL YOU ARE TOLD TO DO SO.

Read the following instructions carefully:

1. This paper has **two** sections: **A** and **B**.
2. Section **A** has 40 questions (40 marks)
Section **B** has 15 questions (60 marks)
3. Answer all questions. All questions to both Sections **A** and **B** must be written in the spaces provided.
4. All answers must be written using a blue or black ball-point pen or fountain pen.
5. Unnecessary changes of work may lead to **loss** of marks.
All diagrams must be drawn in pencil.
6. Any handwriting that cannot easily be read may lead to **loss of marks**.
7. Do **not** fill anything in the boxes indicated:
“For Examiners’ Use Only”

FOR EXAMINERS’ USE ONLY		
Qn. No.	MARKS	EXRS’ IN.
1 – 20		
21 – 30		
31 – 50		
51 – 53		
54 – 55		

SECTION A: **(40 MARKS)**

(Questions 1 to 40 carry one mark each.)

1. Name any **one** component of soil.

2. Why is it important to include eggs in our diet?

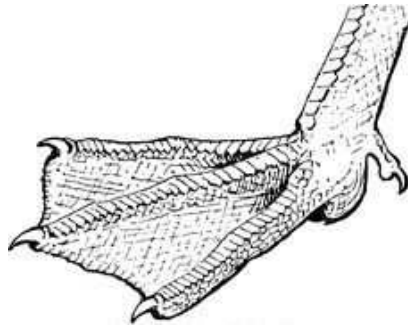

3. Mention any **one** factor that affects the speed of sound.

4. Why do bees collect nectar?

5. Give **one** activity carried out to protect water sources from contamination.

6. Mention any **one** poisonous substance found in tobacco.

The diagram below shows a foot of a bird. Use it to answer questions 7 and 8.

7. Name **one** example of a bird with the foot shown above.

8. Identify the group of birds that have the above kind of foot.

9. Mention any **one** example of exotic breeds of rabbits.

10. How are incisor teeth useful to a P.6 child?

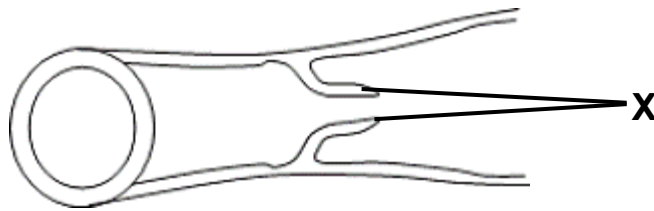

11. Name any **one** instrument used to measure length.

12. Why do plants with weak stems climb others?

13. Mention any **one** example of crops that have one growing season.

14. Why is water obtained by filtration not good for drinking?

The diagram below shows a blood vessel. Use it to answer questions 15 and 16.

15. Name the blood vessel shown in the diagram.

16. State the function of parts marked **X**.

17. Give the importance of the pinna in the process of hearing.

18. Name the weather instrument that shows where wind is blowing from.

19. The doctor prescribed **2 X 3** to a patient but the patient took **1 X 3** instead. State one reason why the patient used a wrong prescription.

20. Name any **one** condition needed for a seed to germinate.

21. State any **one** way of taking good care of pregnant mothers.

22. Give any **one** cause of swarming in bees.

23. Which component of the environment enables a P.3 child to play with a kite?

24. Give any **one** advantage of mulching.

25. Why is it advisable to cover left over food?

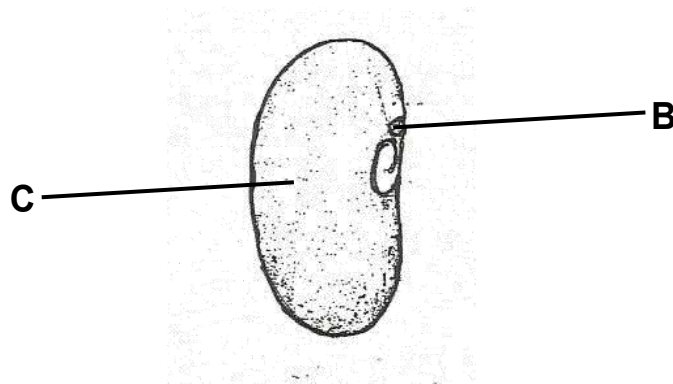

26. Write down **one** role of children at home.

27. Give any **one** effect of heat on matter.

28. Mention any **one** example of a sea mammal.

29. Give **one** reason why farmers castrate their farm animals.

The diagram below shows external parts of a bean seed. Use it to answer questions 30 and 31.

30. Name the part marked **C**.

31. Give the function of part marked **B**.

32. Name the farm structure where vaccination of cattle is carried out.

33. State any **one** way of controlling worm infestations.

34. Mention **one** characteristic of seeds/fruits dispersed by animals.

35. Why should children with chicken pox be isolated from others?

36. In which **one** way are echoes useful to bats?

37. Where does respiration take place in the body of animals.

38. Why is **BCG** vaccine given to babies?

39. Why are rat guards put on granaries?

40. Mention any **one** respiratory disease caused by smoking.

SECTION B: (60 MARKS)

(Questions 41 to 55 carry four marks each.)

41. (a) What is first aid?

(b) Give the importance of the following items when giving first aid.

(i) Splints _____

(ii) Stretcher _____

(c) Write down **one** quality of a first aider.

42. (a) Mention any **two** examples of dairy breeds of cattle.

(i) _____

(ii) _____

(b) Write down **one** characteristic of dairy breeds of cattle.

(c) Give **one** condition that can lead to a drop in milk production in lactating cows.

43. (a) How does heat travel through the following states of matter.

(i) Solids _____

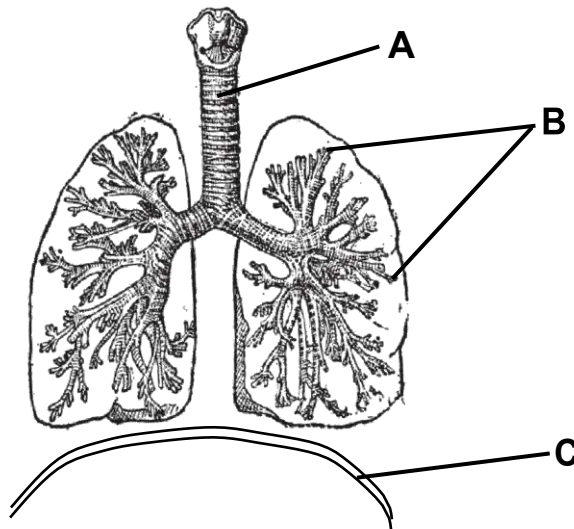

(ii) Gases _____

(b) State any **two** uses of heat to people.

(i) _____

(ii) _____

44. The diagram below shows respiratory system in man. Use it to answer questions that follow.

(a) Name the parts marked **B** and **C**.

(i) **B** _____

(ii) **C** _____

(b) Why is part **A** made of rings of cartilage?

(c) Give **one** health activity that keeps the above system in a good health condition.

45. (a) Name **one** solute used in the preparation of **ORS**.

(b) Mention the first two steps involved in the preparation of **ORS**.

(i) _____

(ii) _____

(c) Why should a dehydrated person be given **ORS** to take?

46. (a) Apart from yeast, mention any **two** other examples of fungi.

(i) _____

(ii) _____

(b) How does yeast reproduce?

(c) State the importance of yeast to brewery industries.

47. (a) Name **one** type of erosion common in hilly areas.

(b) How can soil erosion be controlled in hilly areas.

(i) _____

(ii) _____

(c) Mention any **one** natural cause of soil erosion in the environment.

48. (a) Write down any **two** examples of tuber crops.

(i) _____

(ii) _____

(b) Give **one** sign of pest damage in tuber crops.

(c) State **one** way of controlling pests in tuber crops.

49. **Match the type of changes in list A to their examples in list B correctly.**

List A

Biological change

Chemical change

Natural change

Physical change

List B

evaporation.

ripening of fruits.

decomposition.

landslides.

Correct order

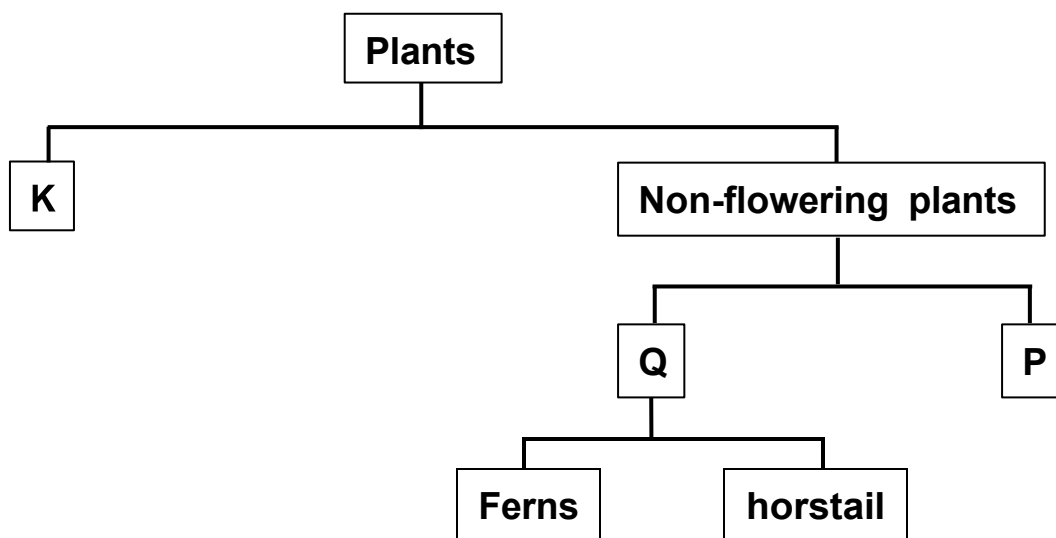

(i) Biological change

(ii) Chemical change

(iii) Natural change

(iv) Physical change

50. **Use the classification table of plants below to answer questions that follow.**

(a) Identify the group of plants marked **K**.

(b) Name any **two** examples of non-flowering plants that belong to group **P**.

(i)

(ii)

(c) How do plants in group **Q** reproduce?

51. (a) Where does digestion of food end in humans?

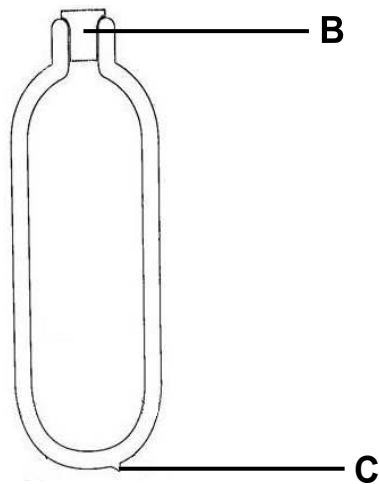

(b) State the role of saliva in the process of digestion.

(c) Write down any **two** disorders of the digestive system.

(i) _____

(ii) _____

52. The diagram below shows a vacuum flask. Use it to answer questions that follow.

(a) Name the parts marked **B** and **C**.

(i) **B** _____

(ii) **C** _____

(b) How does part **B** prevent heat loss or gain?

(c) Give the function of a vacuum flask at home.

53. (a) What is a resource?

(b) Mention any **two** examples of living resources in the environment.

(i) _____

(ii) _____

(c) State any **one** way of conserving renewable resources in the environment.

54. (a) To which group of arthropods do houseflies belong?

(b) Apart from houseflies, mention **two** other organisms that belong to the group named above.

(i) _____

(ii) _____

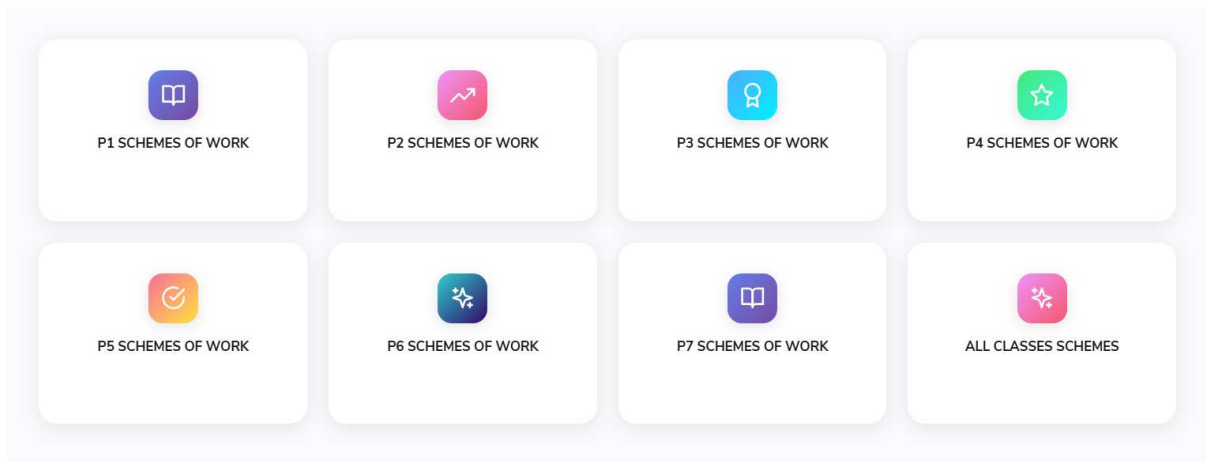

(c) State any **one** characteristic of arthropods.

55. **Complete the table below correctly.**

Food nutrient	Source	Deficiency disease
Proteins	(i) _____	Kwashiorkor
(ii) _____	Iodized salt	Goitre
Iron	(iii) _____	Anaemia
Carbohydrates	Cassava	(iv) _____
