

KAMPALA EXCELLENCE EXAMINATION BOARD.
END OF TERM I ASSESSEMENT 2026
S.1 GEOGRAPHY
TIME: 1:45 MINS

NAME:SIGN:
CLASS: STREAM:
SCHOOL:

INSTRUCTIONS:

Attempt ANY TWO ITEMS ONLY.

ITEM 1.

At Kasubi secondary school, the geography club has been recording weather elements every morning for one week. They use a thermometer, rain gauge and wind vane. They noticed that most mornings were cloudy and it rained heavily in the afternoon.

TASK:

- (a) Identify the weather elements being recorded by the students.
- (b) Explain how one of the weather elements is measured at a weather station.
- (c) Why is it important to record the weather elements.

ITEM 2.

During the last year's holidays, members of your geography club planned and went for a field tour in areas of Kisoro, Kabale, Rukiga and Rubanda. You chose this place because you had magnificent scenery and made up of several relief landforms, drainage features a variety of vegetation types and animals among others. While there, you came across a large upland that you were told extended to the republic of Rwanda and Eastern parts of the democratic republic of Congo.

Support material.

TASK:

- (a) Using your knowledge of geography, help the members of your club understand how such an upland came into existence.
- (b) If you lived along the slopes of an upland, suggest the problems you would face.

ITEM 3.

Oprah was given the map below but failed to understand the map.

- (a) (i) Why do you think Oprah failed to understand the map.

- (ii) Redraw it; make it a good map so that a person who reads it can understand it

(b) Explain the qualities of a good map.

(10 marks)

(c) Identify three types of scales.

(3 marks)
