7. Do not fill anything in the table indicated **"FOR EXAMINERS' USE ONLY"** and the boxes inside the question paper.

FOR EXAMINERS' USE ONLY		
Qn. No.	MARKS	EXR'S No.
1 - 5		
6 - 10		
11 - 15		
16 - 20		
21 - 22		
23 - 24		
25 - 26		
27 - 28		
29 - 30		
31 - 32		
TOTAL		

SECTION A

Answer **all** questions in this section.
Questions **1 to 20** carry two marks each.

1. Work out.

$$\begin{array}{r} 612 \\ \times 3 \\ \hline \\ \hline \end{array}$$

2. Write XLVI in Hindu-Arabic numerals.

3. Find the missing number.

$$\boxed{} + 5 = 18$$

4. Find the perimeter of the figure below.

5. Set A = (All even numbers less than 10).
Find $n(A)$

6. Convert 4m to cm

7. Write down the number represented by tallies below in words.

8. Find the value of x

$$2x - 3 = 5$$

9. What number has been expanded to give.
 $(6 \times 10^4) + (2 \times 10^3) + (3 \times 10^2) + (1 \times 10^0)$

10. A rubber costs shs. 500. What is the cost of 4 rubbers?

11. Round off 326.54 to the nearest whole number.

12. Find the next number in the sequence.
1, 3, 5, 7 _____, _____
13. Find the G.C.F of 9 and 18
14. Change 120 seconds to minutes.
15. James started the journey from home at 7:05a.m, going to school and reaches at 8:00a.m. How did he take in his Journey to school?
16. In Kapeta Primary School, there are 80 pupils in Primary five (P.5) and out of these 26 are boys. What is the number of girls in that class?

17. Change $2\frac{1}{2}$ to improper fraction.

19. Name the shape below.

18. Using a ruler, a pencil and a pair of compasses only, construct an angle of 90° in the space provided.

20. Nakaweesi is 20 years old and her daughter is 5 years old.
Find the total age?

SECTION B

Answer **all** questions in this section.

Marks for each question are indicated in the brackets

21. Given that set x = (All counting numbers up to 10),
set y = (All odd numbers up to 11)

- a) Represent the above information on the venn diagram below (3marks)

- b) Find $n(x)$ only (2marks)

22. The figure below shows a cube, study it carefully and use it to answer the questions that follow.

- a) How many vertices does the above figure has? (2mks)
- b) Calculate the volume of the figure above. (3marks)

22. a) Expand 8360 using values.

(2mks)

b) Find the product of the value of 8 and 6 in the numeral above
(3marks)

24 In a class of 75 pupils, $\frac{2}{3}$ are girls and the rest are boys.

a) How many girls are in the class? (2marks)

b) How many more girls than boys are in the class (3mks)

25. Fill in the missing numbers.

(3marks)

b). List down all the factors of 15

(2marks)

25a)Add:
$$\begin{array}{r} 412_{\text{five}} \\ + 13_{\text{five}} \\ \hline \end{array}$$

(2marks)

b) Multiply: $21_{\text{three}} \times 2_{\text{three}}$

(2marks)

c) Expand: 102_{two} using values

(2marks)

27a)Work out: $3 - 5 =$ _____ (mode 7) using a dial (2marks)

b) Using a dial, add $2+3 =$ _____ (mode 5) (2marks)

28a) Solve for a

(2marks)

c) Find the value of x

(3marks)

29 Complete the multiplication magic puzzle below (4mks)

30. A cock is two times as much as a hen. If their total cost is shs. 45,000.

a) What is the cost of a hen? (3marks)

b) How much is a cock (2marks)

30. Martin went with sh.20,000 and bought the following items.
 1 bar of soap at shs. 5,000.
 $\frac{1}{2}$ kg of sugar at sh 2,500.
 $\frac{1}{2}$ litre of cooking oil at shs 3,000.
 $\frac{1}{2}$ tray of eggs at shs 5,000.

a) Find his total expenditure (4marks)

b) What was his change? (2marks)

32. The graph below shows the number of balls that were sold in four days by Mr. Odongo.

Days	Number of Balls
Mon	    
Tues	  
Wed	       
Thur	    

Key =  stands for 2 balls.

a) When did he sell the highest number of balls? (1mark)

.....

- b) When did he sell the smallest number of balls? (1mark)
- c) What is the difference in the number of balls that were sold on Tuesday and on Wednesday? (2marks)
- d) How many balls did he sell on Thursday? (1mark)

END
