

THE SHINE STAR EXAMINATIONS BOARD

P.7 SPECIAL SET

2026

MATHEMATICS

Time Allowed: 2 hours 30 minutes

Random No.					Personal No.		

Candidate's Name:

Candidate's Signature:

District ID No.

--	--	--	--

Read the following instructions carefully;

1. Do not write your **school** or **district name** anywhere on this paper.
2. This paper has two sections: **A** and **B**. Section **A** has **20** questions and section **B** has **12** questions
3. Answer **all** the questions. **All** the answers to both sections **A** and **B** must be written in the spaces provided.
4. **All** the answers **must** be written using a **blue** or **black** ball point pen or ink. Any work written in pencil will **not** be marked.
5. **No calculators** are allowed in the examination room.
6. Unnecessary **changes** in your work and handwriting that cannot be read easily may lead to **loss of marks**.
7. Do not fill anything in the table indicated:
"FOR EXAMINERS' USE ONLY" and boxes inside the question paper.

FOR EXAMINERS USE ONLY		
QN NO	MARKS	EXR'S NO.

SECTION A: 40 MARKS

Answer **all** questions in this section

Question **1** to **20**, carry **two** marks

1. Find the position name of **7** in the numeral 3741.
2. Write 21,021 in words.
3. Write in short: 7 apples + 8 goats – 3 apples – a goat.
4. In a family of 20 members. 11 members like Meat (**M**), 13 members like Beans (**B**) and some like both Meat and Beans. Draw a Venn diagram to represent the above information.

5. Work out: $(0.25 \div 0.01) + (0.75 \div 0.01)$

6. Given that 1 square represents 5 parts. Shade 0.65 of the diagram below.

7. The remaining distance to complete the journey was $\frac{1}{8}$. How long was the total whole journey if Wakida had covered 350 km?

8. Find the difference between the next two numbers in the sequence.

9, 16, 25, 36,,

Turn over

- 9.** Using a ruler, a pair of compasses only, construct a line through point k parallel to line TQ.

• k

- 10.** Round off 53.781 to one decimal place.

- 11.** The market price of a trouser is Sh 75,000. If Magidu was given a discount and paid Sh 3,750 less than the market price, find his percentage discount.

12. Given that $a = \frac{1}{2}$ and $b = \frac{1}{6}$. Find the value of c if: $\frac{a}{b}c = 12$.

13. Below is a rectangular garden and its perimeter is 28m.

If its width is 6m, find the length of its diagonal.

14. The numbers listed by a P.7 pupil are as follows: 6, 9, 4, 3 and, $5x + 2$. Find the average of the listed numbers.

Turn over

- 15.** At NIRA office in Nsangi, 921 people were registered on day one. The following day, the total number of people registered was 1,550. Find the number of people who were registered on day two

- 16.** Find the bearing of town A from town B.

- 17.** Change 12:25 pm to 24-hour clock system.

18. Simplify: $-6 + -7$

19. The cost of 7 books is Sh 17,500. How many books would one get with Sh 32,500?

20. If it is 1:05 am. What time of the day will it be 12 hours from now?

Turn over

SECTION B: 60 MARKS

Answer **all** the questions in this section.

Marks for each question are indicated in the brackets.

- 21.** (a) Represent the number 2016 on the abacus below. (01 mark)

- (b) Using lattice method, find the product of the values of 2 and 5 in the number 205. (03 marks)

- 22.** (a) Work out: $\frac{0.12 \times 0.9}{0.4 - 0.04}$ (03 marks)

- (b) Use the symbol =, > or < to complete the statement: (02 marks)

$$0.4 \dots\dots\dots \frac{1}{3}$$

23. Tr. Micah organized a birthday party at Mars Cafe, but each member who attended was charged as follows:

(i) Entry fee: Sh 5,000 Compulsory for each attendee.

(ii) **Either:**

Breakfast: Sh 8,000 per attendee

OR:

Breakfast and lunch: Sh 12,000 each attendee.

40 members attended the party. 19 of them paid for breakfast only, and the rest paid for both breakfast and lunch. How much money did Tr. Micah pay to the management of Mars Café? *(06 marks)*

24. Olule drives a motorcycle with a wheel of radius 35 cm through a distance of 242 dm. How many complete revolutions does the wheel make? *(04 marks)*

- 25.** The figure below is Mr. Mukasa's piece of land divided into two plots; RST is a right-angled triangle with a semi-circle attached to one side. Side RS = 8 cm and ST = 6 cm.

Find the total area of Mr. Mukasa's piece of land (Take $\pi = 3.14$)
(06 marks)

- 26.** (a) Using a ruler, a pencil and a pair of compasses only. Construct a quadrilateral OPQR such that line $OP = 8\text{ cm}$, $PQ = 6\text{ cm}$ and angle $OPQ = 120^\circ$. (04 marks)

- (b) Drop a perpendicular from **R** to meet OP at x . (01 mark)

27. Onyum and Okello are biological brothers. Onyum is 6 years younger than Okello. In 7 years, Okello will be twice as old as Onyum. How old will each be in 7 years? (05 marks)

28. The table below shows the amount of money Ryan paid for different items after visiting Chinatown shopping mall. Study it and use it to answer the questions that follow.

Item	Quantity	Unit Cost	Amount
Sugar	2½kg	Sh	Sh
Salt	3kg	Sh	Sh 9,000
Soap	 bars	Sh 5000	Sh 17,500
Total Expenditure			Sh 38,500

Complete the table above correctly. (04 marks)

- 29.** The average weight of 5 boys as arranged below: 40 kg, 35 kg, 32 kg, 23 kg and 30 kg is 32 kg. When a sixth boy joins them, their average weight becomes 30 kg. Find the median weight of the six boys.

(06 marks)

- 30.** In the diagram below. ABC is an Isosceles triangle, $AB = BC$, angle $ABC = 30^\circ$. FE is parallel to BD. Study the diagram and use it to answer the questions that follow.

Find the size of;
(a) angle GCD

(02 marks)

(b) angle BAE(k)

(02 marks)

31. The diagram below is a number line. Study and use it to answer the questions that follow.

(a) Represent the above letters: (01 mark each)

- (i) a :.....
- (ii) b :.....
- (iii) c :.....

(b) Write the mathematical sentence for the above number line. (02 marks)

32. Mukotumi left town **A** at 7:00 a.m. and drove at 80 km/h via town **C** to town **B**. He reached town **B** at 10:00 a.m. He rested for half an hour at town **B**. He later left town **B** and drove back for one hour at 80 km/h to town **C**. He also rested at town **C** for half an hour and then drove back to town **A** for 2 hours.
Calculate the speed at which he travelled at from town **C** back to **A**.

(06 marks)
