

The HIGHWAY EXAMINATIONS

PRIMARY SEVEN UNIQUE SET

2025

MATHEMATICS

Time Allowed: 2 hours 30 Minutes

Random No.						Personal No.		

Candidate's Name:

Candidate's Signature:

District No:

--	--	--	--

Read the following instructions carefully:

1. **DO** not forget to write your **school** and **district name** on this paper.
2. This paper has **two** sections **A** and **B**.
Section **A** has 20 short questions (40 marks)
Section **B** has 12 questions (60 marks)
3. Answer **all** questions. **All** the working for both sections **A** and **B** must be shown in the spaces provided.
4. **All** working **must** be done using a **blue** or **blackball** point pen or ink. Any work done in pencil will **not** be marked except drawings and diagram.
5. **No calculators** are allowed in the examination room.
6. Unnecessary **changes** in your work and handwriting that cannot be easily read may lead to **loss of marks**.
7. Do not fill anything in the table indicated **"FOR EXAMINERS' USE ONLY"** and the boxes inside the question paper.

FOR EXAMINERS' - USE ONLY		
Qn. No.	MARKS	EXR'S No.
1 - 5		
6 - 10		
11 - 15		
16 - 20		
21 - 22		
23 - 24		
25 - 26		
27 - 28		
29 - 30		
31 - 32		
TOTAL		

SECTION A

Answer **all** questions in this section.
Questions **1 to 20** carry two marks each.

1. Add $402 + 321$.

2. Write 49,602 in words.

3. Describe the shaded region on a venn diagram below.

4. Round off 89.57 to the nearest tenth.

5. Simplify: $-6 - -6$.

6. Emily walked a distance of 2km in 20minutes. Find her speed in kilometer per hour.

7. There are 3 blue pens and 4 red pens in the basket. What is the probability of picking a blue pen or a red pen?

8. Solve: $3y = 5$ (finite 7)

9. Find the area of the figure below.

10. Find the least number that can be divided by 8 or 12 and leaves 5 as the remainder.

11. Find the next number in the sequence below.

27, 9, 3, 1, _____

12. Simplify: $3 - (x-4)$

13. kolovinah slept at 10:30 pm and woke up at 2:20 am. For how long did she sleep?

14. Using a pair of compasses, a ruler and pencil only bisect angle AOB below.

15. A man got a loan of sh.120,000, from a saving and credit Cooperative Society at a simple interest rate of 8% per annum. He paid an interest of sh.7,200 on the loan. How long was the loan?

16. Workout:

$$\begin{array}{r}
 4 \quad 0 \quad 3 \text{ five} \\
 -1 \quad 3 \quad 4 \text{ five} \\
 \hline
 \hline
 \end{array}$$

17. A tortoise at reptiles' village has lived for 1992 years. Express the tortoise's age in Roman numerals.

18. Calculate: $(33.4 \times 9) - (9 \times 3.4)$ using distributive property.

19. If today is Monday, what day of the week will it be 10 days from yesterday?

20. Electric poles were fixed on both sides of the road 4km long at an interval of 40 metres. How many poles were fixed?

SECTION B

Answer **all** questions in this section.

Marks for each question are indicated in the brackets

21. In a class of 60 pupils, all pupils like Mathematics (M), 30 pupils like English (E) and Mathematics, x pupils like science (S) and Mathematics only 6 pupils like all the three subjects and 3 pupils like Mathematics only.

(a) Use the above information to complete the venn diagram below. (3mks)

- (b) How many pupils like only two subjects?

(2mks)

22. (a) Okide, Akide and Ekido, shared a certain sum of money in the ratio of 2:3:5 respectively. If Okide and Ekido got sh.560,000. How much did they share altogether? (3mks)

- (b) Nakato spends $\frac{2}{3}$ of her salary on food, $\frac{1}{2}$ of the remainder on rent and saves the rest, Which is sh.80,000. Find her salary. (3mks)

23. Oculi went to the market and bought the following items.
- 2 kg of rice at sh.4500 per kg.
 - 500g of salt at sh.800.
 - $1\frac{1}{2}$ kg of beans at sh.3800 per kg
 - 4 litres of cooking oil at sh.3000 per $\frac{1}{2}$ litre.

(a) How much did he spend on all the items?

(4mks)

(b) If he was given a balance of sh.10,500. How much was he having at first?
(1mk)

24. Using a pair of compasses, a ruler and a pencil only, construct an equilateral triangle in a circle of radius 3cm. (4mks)

25. (a) If $24_y = 33_{\text{four}} + 3$. Find the base represented by y. (2mks)

- (b) Work out the difference between the value of 2 and the value of 4 in 2314_{Aug} (3mks)

26. Use the pie chart below to answer questions about Job's monthly earning and expenditure.

- (a) Find the value of Y .

(2mks)

(b) If sh.40,000 is spent on rent, how much does he earn a month? (3mks)

27. On a farm, there are hens and cows altogether. There are 12 heads and 34 legs.

(a) How many cows are on the farm? (3mks)

(b) How many hens are on the farm? (2mks)

28. (a) What angle is $\frac{1}{5}$ of its complement? (2mks)

(b) Find the value of m in the figure below. (3mks)

29. (a) Timothy woke up to pray at 20 minutes past midnight. Express the time he woke up to military hours. (2mks)

- (b) James leaves town A for town B at 8:00am, he travels for $1\frac{1}{2}$ hours at 20km/h, he waits for an hour and then continues at a steady speed of 25km/h for 2 hours to town B. After reaching town B, he rests for an hour and then returns to town A reaching at 3:30pm. Calculate his average speed for the whole journey.

(4mks)

30. The figure below shows a mat laid on a rectangular floor. Study it carefully.

- (a) Find the length and the width of the floor. (2mks)

(b) Calculate the area of the uncovered part of the floor.
(3mks)

31. (a) Solve and find the solution set for the inequality below.
 $-4 \leq 2p < 8$.
(2mks)

(b) Peter is 9 years old and James is 15 years old. In how many years ago was James twice as old as Peter?
(3mks)

32. (a) The two consecutive even numbers are $x+2$, and $2x-4$ respectively. Find the value of x . (3mks)

- (b) What is the cube of the second number? (1mk)
